Independent Auditor's Report

To the Plan Administrative Committee
V. Sattui Winery 401(k) Profit Sharing Plan

I have audited the accompanying statements of net assets available for benefits of V. Sattui Winery 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. My responsibility is to express an opinion on these financial statements based on my audits.

I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audits provide a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011 in conformity with accounting principles generally accepted in the United States of America.

My audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

V. Sattui Winery 401(k) Profit Sharing Plan
Notes to the Financial Statements

1. DESCRIPTION OF PLAN

The following description of the V. Sattui Winery 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on August 1, 1980 as a defined contribution plan established to provide eligible employees of the V. Sattui Winery, Inc. (the Plan Sponsor) with retirement, death and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and Section 401(k) of the Internal Revenue Code (the IRC).

Participant Eligibility, Contribution, and Vesting

Employees are eligible to participate in the Plan providing they have reached age twenty-one (21) and have completed a minimum of one year of service. Employees covered under a collective bargaining agreement are not eligible to participate in the plan. Participants may begin deferring a portion of their compensation into the Plan on the first day of each month of the plan year following eligibility. Contributions to the Plan are limited to the maximum amount allowable under the provisions of the IRC and to an annual limitation of $16,500 ($22,000 for those participants over age 49).

The Company has elected to make a safe-harbor non-elective contribution up to 3% of eligible compensation and also a fixed matching contribution equal to 140% of participant's 401(k) deferrals up to 5% of the eligible salary. The amount of the safe-harbor non-elective contribution and fixed matching contribution totaled $318,817 and $294,187 for the years ended December 31, 2011 and 2010, respectively. Additionally, the Plan allows the Company to make discretionary profit sharing contributions to eligible employees. For the year ended December 31, 2011 and 2010, the Company elected to forego a discretionary profit sharing contribution.

Vesting is immediate for the safe harbor non-elective matching. The Company's fixed matching contribution vests according the employee's years of service, as follows:

Years of Service	Vesting Percentage
Less than 1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

In addition, the Company's contribution is fully vested when a participant reaches the age of 65 and has 5 years of service, or becomes totally disabled, or dies. As of December 31, 2011, nonvested forfeiture accounts totaled $3,388. These accounts will be used to reduce future employer contributions.

Participant Accounts
Each participant's account is credited with the employee's payroll contributions; the employer's matching contributions, and Plan earnings and losses. Allocations to participants' accounts are based on participant compensation or account balances in accordance with the provisions of the Plan.

Participant Loans
With the Plan trustee's approval, and subject to IRS regulations and limitations, participants may borrow up to the lesser of $50,000 or 50% of their vested account balance with a minimum loan amount of $1,000. Loans are subject to approval by the plan administrator, bear interest at prevailing market rates of interest and must be repaid within five years, except for loans secured by a principal residence, where the repayment period of 30 years is allowed. All loans are secured by the participants' account balances and must be repaid through a direct, after tax payroll deduction.

Payment of Benefits
The Plan provides for the payment of benefits to the participant (or, if applicable, the beneficiary) at retirement (the later of age 65 or the 5th anniversary of participation in the Plan), disability, death, financial hardship, or termination of employment. Participants who qualify for retirement benefits and withdrawals may elect to receive their benefits in the form of a lump sum in cash. The benefit to which a participant is entitled is the benefit that can be provided directly from the participant's vested account balance. In-service withdrawals are not allowed by the plan, except for financial hardship as defined by the Plan.

Participants who separate from service and have vested account balances of $1,000 or less are subject to an administrative lump sum distribution at the discretion of the plan administrator. Mandatory distributions of separated participants' vested balances between $1,000 and $5,000 are subject to a direct rollover of their balance into an Individual Retirement Account (IRA) designated by the plan administrator in the name of the separated participant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Valuation of Investments
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefits
Benefits are recorded when paid.

Participant Transaction Fees
The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, substantially all administrative expenses of the Plan are paid by the Company. Expenses relating to specific participant transactions such as loan setup, distribution request are charged directly against the appropriate participant's account.

3. INVESTMENTS

The following is a summary of the information prepared by Umpqua bank, Morgan Stanley Smith Barney, Vanguard and T. Row Price, furnished to the Plan administrator and included in the Plan's financial statements and supplemental schedule:

	2011	2010
Cash and Cash Equivalents	$ 695,864	$ 470,405
Corporate Debt Instruments	89,250	-
Corporate Stocks	3,589,761	3,930,641
Mutual Funds	938,040	934,671
Total investments	$ 5,312,915	$ 5,335,717

The following investments exceeded 5% of net plan assets as of December 31, 2011:

	Value	Percentage of Assets
Citibank NA	349,580	6.5%
Citibank NA South Dakota Bank	338,718	6.3%

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), decreased by $394,936 as follows:

Interest and dividends	$ -
Unrealized losses on investments	(394,936)
Total	$ (394,936)

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means • If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2011.

Cash and cash equivalents: Valued at the closing of December 31, 2011

Mutual funds/Common stocks: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011

5. TAX STATUS

The plan adopted a prototype profit sharing 401(k) plan with a cash or deferral arrangement and is relying on a favorable opinion letter from the IRS issued on March 31, 2008. The plan has been amended since the issuance of the opinion letter. However, the plan administrator and the plan's tax counsel believe that the plan is designed and is being operated in full compliance with the legislative changes and requirements under the provisions of the Internal Revenue Code (IRC).

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, all non-vested account balances would become 100% vested in their employer contributions.

7. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in mutual funds. These securities are exposed to various risks such as interest rate, market, and credit. Further, due to the level of risk associated with these securities and the level of uncertainty related to changes in the value of mutual funds, it is possible that changes in the various risk factors in the near term would materially affect the participants' account balances and the amounts reported in the accompanying financial statements.
