Employee Stock Ownership Plan with 401(k) Provisions

Notes to Financial Statements

December 31, 2011 and 2010

Note 1: Description of the Plan

The following description of the Citizens Union Bancorp of Shelbyville, Inc. Employee Stock Ownership Plan with 401(k) Provisions (the "Plan") provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by Citizens Union Bancorp of Shelbyville, Inc. for the benefit of its employees who have at least one year of service and are age 19 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Reliance Trust Company is the custodian of the Plan's assets, and The Standard acts as the third party administrator for the Plan. Lea M. Anderson, Steven Barker and Edward B. Hayes serve as trustees for the Plan. Until April 2010, Billie W. Wade also served as a trustee.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 50% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Employee rollover contributions are also permitted. There are three types of employer contributions which may be made under the Plan: (1) Basic contributions which are discretionary contributions made for all non-highly compensated participants in order to satisfy the nondiscrimination requirements of the Internal Revenue Code; (2) Matching contributions, where the Company contributed 50% in 2011 and 2010 of the first 5% of the base compensation that a participant contributes to the Plan; (3) Optional contribution which is an additional discretionary contribution made by the Company as determined by the Board of Directors each year. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available for participant-directed funds include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation quarterly. The matching Company contribution is invested directly in employer common stock. These amounts can be reallocated by the participant after 10 years of participation in the Plan and the participant has reached age 55. At this time participants can liquidate or reallocate to another available investment option. Optional employer contributions can also be directed in employer stock.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, Plan earnings and forfeitures of terminated participants' nonvested accounts and is charged with an allocation of administrative expenses. Allocations of administrative expenses are based on participant earnings or account balances, as defined. Allocation of basic and optional contributions is based on participants' contributions. Company matching contributions are allocated based on participants' contributions. A participant must be employed by the Company on December 31 of the Plan year to be eligible to receive an allocation of the optional contributions.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Fewer than 2	0%
2 but fewer than 3	20%
3 but fewer than 4	40%
4 but fewer than 5	60%
5 but fewer than 6	80%
6 or more	100%

The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce Company contributions.

Retirement, Death and Disability

A participant is entitled to 100% of his or her account balance upon retirement, death or total disability.

Payment of Benefits

Upon termination of service, an employee may elect to receive either a lump-sum amount equal to the value of his or her vested interest in their account, or a joint and survivor annuity. At December 31, 2011, Plan assets included \$41,572 allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been paid (none in 2010).

Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled \$4,865 and \$4,065, respectively. These accounts will be reallocated to participants as a percentage of total compensation.

Notes Receivable from Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

There were no outstanding loan balances at December 31, 2011 and 2010.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

The common shares of the Company stock are valued at fair value on December 31, 2011 and 2010, as determined by annual independent appraisals.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 6: Fair Value of Plan Assets

ASC Topic 820, *Fair Value Measurements*, defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also establishes a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. The Plan held no Level 2 securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. Citizens Union Bancorp of Shelbyville, Inc. common stock is classified as Level 3. The shares of common stock are valued as determined by annual independent appraisals. Inputs include data from the Company's audited December 31, 2011 financial statements and various premium and discount rates as determined by the appraiser.

Notes to Financial Statements
December 31, 2011 and 2010

Note 8: Risks and Uncertainties

The Plan invests in various investment securities, including the Company common stock, which represents 30% of the Plan's assets. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

The current economic situation continues to present retirement plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 9: Subsequent Events

Effective January 27, 2012, the timing of distributions was amended to allow immediate distribution requests of vested non Citizens Union Bancorp of Shelbyville, Inc. stock investments upon termination from employment with the Company or affiliates.

Subsequent events have been evaluated through the date of the Independent Accountants' Report, which is the date the financial statements were available to be issued.
