Detroit, Michigan

We were engaged to audit the accompanying statements of net assets available for benefits of the American Axle & Manufacturing, Inc. Income Security Plan for Hourly-Rate Employees (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee and custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of, and for the years ended, December 31, 2011 and 2010 that the information provided to the Plan administrator by the trustee is complete and accurate.

As described in Note 1 to the financial statements, the Plan's sponsor decided to merge the Plan into another plan sponsored by the Plan sponsor, effective December 31, 2011. All Plan assets were transferred to the other plan on that date.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

INCOME SECURITY PLAN FOR HOURLY-RATE EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011 and 2010 AND FOR THE YEAR ENDED DECEMBER 31, 2011

1. DESCRIPTION OF THE PLAN

General - The following description of the American Axle & Manufacturing, Inc. Income Security Plan for Hourly-Rate Employees (the “Plan”) provides only general information. Participants should refer to the summary plan description for more complete details of the Plan’s provisions. Copies of the summary plan description are available from the human resource department of American Axle & Manufacturing, Inc. (the “Company”).

The Plan has been a defined contribution plan which covered substantially all hourly-rate employees of the Company who were members of the International Association of Machinists and Aerospace Workers (“IAM”) at the Tonawanda, New York and Detroit, Michigan facilities. Under plant closing agreements, the Company has ceased operations at the facilities represented by the IAM hourly-rate employees. Accordingly, the Plan has not had active participants since 2009.

The principal purpose of the Plan has been to provide an Income Security Fund under which an eligible employee could supplement his or her income for retirement, on or after his or her termination of covered employment (after a resultant break in seniority). The Company could amend, modify, suspend, or terminate the Plan to the extent not precluded by the applicable agreement. No amendment, modification, suspension, or termination of the Plan could have the effect of providing that any amounts then held under the Plan could be used or diverted to any purpose other than for the exclusive benefit of participants or their beneficiaries. The Plan has been subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Plan Merger - As of December 31, 2011, the Plan was amended so that the Plan’s participants were transferred, and the net assets were merged with, and into, the American Axle & Manufacturing, Inc. Personal Savings Plan for Hourly-Rate Associates (“PSP”), a defined contribution plan sponsored by the Company. The amount of net assets transferred was \$786,539.

Contributions - The Plan has provided for Company contributions of \$1.08 for each hour for which an employee received pay from the Company. In addition, the Company has contributed \$0.06 for each hour for which an eligible employee received pay at time and one-half, and \$0.12 for each hour for which an eligible employee received pay at double-time. No Company contributions have been made since operations ceased at participating locations.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

DECEMBER 31, 2011 and 2010 AND FOR THE YEAR ENDED DECEMBER 31, 2011

1. DESCRIPTION OF THE PLAN (CONTINUED)

Vesting - Each participant's interest in the Plan (including the Company contributions) has been fully vested and nonforfeitable.

Investment Options - Participants could direct investments to be split among any of the investment fund options available.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Valuation of Investments - The Plan's investments have been stated at fair value. The shares of registered investment companies have been valued at quoted market prices that have represented the asset value of the shares held by the Plan at year-end. The units of collective trust funds have been valued at their estimated net asset value, which has been based on the values provided by independent pricing sources, or other methods approved by the trustee of the collective trust funds, for the underlying investments held by the collective trust funds.

Investment contracts held by a defined contribution plan, including collective trust funds holding investment contracts, are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the collective trust fund holding investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

DECEMBER 31, 2011 and 2010 AND FOR THE YEAR ENDED DECEMBER 31, 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements - The Plan has used fair value measurements in the preparation of its financial statements, which utilize various inputs, including those that can be readily observable, corroborated, or are generally unobservable. The Plan has utilized market-based data and valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Additionally, the Plan has applied assumptions that market participants would use in pricing an asset or liability, including assumptions about risk.

The measurement of fair value includes a hierarchy based on the quality of inputs used to measure fair value. Financial assets and liabilities are categorized into this three-level fair value hierarchy based on the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs.

The various levels of the fair value hierarchy are described as follows:

- Level 1 - Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has had the ability to access
- Level 2 - Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability
- Level 3 - Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement

The use of observable market data, when available, is required in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of increases or decreases in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Subsequent Events – The Plan’s management has evaluated subsequent events through September 20, 2012, the date that the accompanying financial statements were available to be issued.

The following is a summary of unaudited information regarding the Plan, included in the Plan’s financial statements, that was prepared by Fidelity Management Trust Company (“Fidelity”), the Plan’s trustee and custodian.
