Five Star Custom Foods, Ltd. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Five Star Custom Foods, Ltd. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan whereby eligible employees of Five Star Custom Foods, Ltd. (the Company) are permitted to make pretax contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan became effective on January 1, 2003.

In September 2008, the Plan adopted a non-standardized form of a prototype plan document sponsored by Alliance Benefit Group of Houston, Inc. The prototype plan document became effective on January 1, 2008.

In October 2009, the Plan document was amended to adopt the provisions of the Heroes Earnings Assistance and Relief Tax Act of 2008 (HEART Act).

In September 2010, the Plan document was amended to adopt the required minimum distribution provisions of the Worker, Retiree and Employer Recovery Act of 2008 (WRERA).

Eligibility: Employees become eligible for participation at the age of 21 and upon completing one year of service, as defined by the Plan. Employees excluded from the plan include union employees and nonresident aliens.

Contributions: Under the Plan, employees are permitted to contribute up to 100% of their pretax compensation to the Plan, subject to statutory limitations (\$16,500 for 2011). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC (\$5,500 for 2011). Employees contribute each period through authorized payroll deductions.

The Plan requires a safe harbor matching contribution equal to 100% of participant's contributions that do not exceed 3% of the compensation plus 50% of the salary deferrals between 3% and 5% of the participant contribution. This safe harbor matching contribution is 100% vested.

The Company may also make additional discretionary matching contributions and discretionary profit sharing contributions. These contributions are determined annually by the Employer. There were no additional discretionary contributions for the year ended December 31, 2011 and 2010.

Participants may roll over amounts representing distributions from other qualified benefit plans.

Vesting: Participant contributions plus actual earnings are immediately fully vested and nonforfeitable. The participant is always 100% vested in accounts attributable to rollover contributions and safe harbor contributions. Profit sharing contributions and matching contributions vest to participants based on actual years of service. A participant is awarded a year of service when they are credited with at least 1,000 hours of service during a 12-month period beginning on the first day of employment and any anniversary of employment thereafter. The vesting schedule is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1 year	0%
2 years	0%
3 years	33%
4 years	66%
5 years	100%

Five Star Custom Foods, Ltd. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

A participant is 100% vested, regardless of years of service, upon disability, death or attaining normal retirement age.

Participant accounts: Each participant's account is credited with the participant's contribution and the Company's matching contribution. Earnings or losses of the Plan are allocated to participants based on the account balance in existence. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Investment options: Upon enrollment in the Plan, a participant must direct contributions among the investment options provided by the Plan. Participants may change their investment options any time throughout the year by filling out a form and submitting to the employer. The employer will send the form to the custodian to make changes.

Forfeitures: Forfeitures represent the portion of nonvested employer contributions remaining in the Plan for terminated employees. The balance of forfeited employer contributions is used first to reduce administrative expenses and then to reduce employer contributions. Plan assets included unallocated forfeitures of approximately \$1,664 and \$1,691 at December 31, 2011 and 2010, respectively. During the year 2011 and 2010, forfeitures of approximately \$27 and \$18 were used to reduce administrative expenses or employer contributions, respectively.

Payment of benefits: Upon termination of service due to death, disability or retirement, a participant or a designated beneficiary can receive their vested account balance in one lump-sum payment or, in certain cases, the participant can defer withdrawals. For termination of service due to other reasons, a participant may receive their vested account balance in one lump sum payment. If a participant's vested balance is \$5,000 or less, the participant will receive a single distribution of their entire vested account balance. In-service distributions are permitted for participants that attain age 59 ½, or in situations of hardship or disability.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans must be repaid within five years unless for the purchase of a primary residence, in which case a longer repayment term may be permitted. Loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. The interest rate on outstanding loans was 4.25% at December 31, 2011. Principal and interest is collected through payroll deductions, and loans are due in various amounts through August 2016. A participant may have only one note outstanding at a time.

Expenses: Administrative fees of the Plan are paid by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are presented on the accrual basis of accounting.

Use of estimates: In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Income taxes: Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 10, 2012, the date on which the financial statements were available to be issued.

Recent accounting pronouncements: In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Information Certified and Provided by Nationwide

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Nationwide and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Nationwide that information provided to the Plan Administrator by Nationwide related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the assets listed in the table below.

Nationwide also certified to the completeness and accuracy of \$101,668 of net depreciation in fair value of investments and \$3,768 of interest related to notes from participants for the year ended December 31, 2011.

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurement and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated from by observable market data by correlation or other means

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end. Accordingly, the fair value of these assets is established using Level 1 inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010.

	Level 1	Level 2	Level 3	Total

Notes to Financial Statements

Note 5. Administrative Expenses

Certain administrative functions are performed by employees of the Company. However, such employees receive no compensation from the Plan. The Company and the Plan share in the Plan expenses. Additionally, certain expenses, such as transaction fees from receiving a loan, withdrawal, or distribution from the Plan, are deducted from participants' accounts.

Note 6. Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary to the Plan or party rendering services to the Plan, the employer and certain others. As such, transactions conducted with the Company and the Third Party Administrator and the Custodian qualify as party-in-interest transactions.

Note 7. Tax Status

The Plan has adopted a non-standardized form of a prototype plan sponsored by Alliance Benefit Group of Houston, Inc. The prototype plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 8. Plan Termination

While there is no intention to do so, the Company reserves the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their employer contribution balances, and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 9. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 10. Prohibited Transactions

During 2011, 2010 and 2009, the Plan sponsor inadvertently failed to deposit \$2,636, \$10,287 and \$145,849, respectively, of participant deferrals within the required timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan sponsor will file Form 5330 and pay applicable excise tax. The excise tax payments will be made from the Plan sponsor's assets and not from assets of the Plan.
