Independent Auditors' Report

To the Pension and Investment Committee
LeTourneau Technologies, Inc. Savings and Investment Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of LeTourneau Technologies, Inc. Savings and Investment Plan (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of Plan management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2011 and 2010 and for the year ended December 31, 2011 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

December 31, 2011 and 2010

1. PLAN DESCRIPTION

The following brief description of the LeTourneau Technologies, Inc. Savings and Investment Plan (the “Plan”) is provided for general informational purposes only. Participants should refer to the Plan agreement for more complete information.

General – The Plan is a defined contribution, individual account 401(k) plan covering substantially all employees of LeTourneau Technologies, Inc. and its wholly owned subsidiaries, collectively referred to herein as “LeTourneau” or “the Company”. LeTourneau Technologies, Inc. was acquired by Joy Global, Inc. on June 22, 2011.

In October 2011, Joy Global, Inc. completed the sale of LeTourneau Technology Drilling Systems, a division of LeTourneau, to Cameron International Corp. In connection with this sale, Plan assets amounting to \$22,626,375 were transferred to the Cameron International Corporation Retirement Savings Plan in December 2011.

Effective December 31, 2011, the Plan was merged with and into the Joy Global Retirement Savings Plan (Successor Plan). In connection with this plan merger, Plan assets with a fair value of \$42,193,830 (contract value \$42,085,025) were transferred to the Successor Plan.

Participation – Employees are eligible to enter the Plan on the first day of each month upon completion of two months of service.

Funding – Plan participants may make contributions of up to 60% of their regular compensation on a before- or after-tax basis. All eligible employees without a contribution election in place are subject to automatic enrollment. The Company automatically deducts 3% from their pay on a pre-tax basis following a 30 day notice period. The deferral rate is increased by 1% each year until it reaches a maximum of 6% of compensation. Employees can elect to stop or change this automatic contribution.

The Company makes matching contributions in an amount equal to 100% of the first 3% of the participant’s eligible compensation and 50% of the next 3% of the eligible compensation. Participants who attain the age of 50 before the end of the Plan year may make additional before-tax contributions to the Plan (\$5,500 for 2011 and 2010).

Investment Options – The assets of the Plan are managed by Fidelity Management Trust Company, the Trustee of the Plan (the “Trustee”). Plan participants direct the investment of their accounts among the Plan’s investment options and may, at their sole discretion, transfer amounts between such options at any time.

LeTourneau Technologies, Inc. Savings and Investment Plan

Notes to Financial Statements

December 31, 2011 and 2010

On June 21, 2011 after the acquisition all funds invested in the Rowan common stock fund were liquidated and reallocated to the Fidelity Freedom Fund with a target retirement date closest to the participant's expected retirement date.

Expenses – Participants' accounts are charged with investment advisory and other fees by the Trustee through charges by the underlying funds. Other expenses of administering the Plan and Master Trust for Rowan Companies and Affiliates Defined Contribution Plans ("Master Trust") are borne by the Plan or by LeTourneau, at its discretion.

Vesting Provisions – Participants are 100% vested at all times in their own contributions, plus any earnings accrued thereon. Effective the acquisition on June 21, 2011, all active participants were vested in their account balances.

Distributions – Participants can obtain lump-sum or installment distributions of vested balances upon termination of employment, retirement, disability or death. Participants may be permitted to withdraw from their before-tax account upon attainment of age 59½ or hardship in accordance with the terms of the Plan.

Forfeitures – Upon termination of employment, participants' nonvested balances are forfeited. Such forfeitures can be applied to reduce employer contributions or Plan administrative expenses otherwise payable by LeTourneau.

At December 31, 2011 and 2010, Plan assets included \$0 and \$2,600, respectively, of nonvested forfeited accounts.

Plan Termination – Although it has not expressed any intention to do so, the Company may terminate the Plan at any time subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event the Plan is terminated, each participant shall be entitled to 100% of all contributions, plus any earnings accrued thereon, as of the date of termination. However as noted above the Plan was merged into the Successor Plan effective December 31, 2011.

Party-in-Interest Transactions – The investment by the Trustee of Plan contributions into mutual funds managed by an affiliate of the Trustee are party-in-interest transactions, and the related management fees are deducted from investment earnings.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Investment Valuation and Income Recognition – The investments held in the Master Trust are stated at fair value based on the latest quoted market values of the underlying securities. Securities for which no quoted market value is available are evaluated and valued by Plan

management with reference to the underlying investments, assumptions and methodologies used in arriving at fair value in accordance with FASB ASC 820, *Fair Value Measurements and Disclosures* (See Note 6). Purchases and sales of securities are recorded on a trade-date-basis. Dividend income is recorded as of the ex-dividend date and interest income accrued as earned.

Benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits as of December 31, 2010 presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value (See Note 5). The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Net depreciation of investments is comprised of realized and unrealized gains and losses. Realized gains or losses represent the difference between proceeds received upon sale and the average cost of the investment. Unrealized gain or loss is the difference between market value and cost of investments retained in the Plan at financial statement date.

Payment of Benefits – Benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Managements Review of Subsequent Events – In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2011, and through October 12, 2012, for inclusion in the financial statements and footnotes.

3. RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

4. INVESTMENTS (CERTIFIED BY TRUSTEE)

The Master Trust was established for the collective investment of assets of the Plan and another participating Company sponsored defined contribution plan. Each participating plan has an undivided interest in the Master Trust. LeTourneau Technologies, Inc. was acquired by Joy Global, Inc. on June 22, 2011. The Master Trust was dissolved effective the date of the acquisition.

At December 31, 2010, the Master Trust held the following investments:

	2010	
	<u>Amount</u>	<u>Plan interest</u>
Investments:		
Interest bearing cash	\$ 22,930,194	46%
Employer securities	26,301,299	23%
Stable value fund	13,254,999	47%
Registered investment companies	113,242,691	40%
Total investments at fair value	175,729,183	39%
Receivables	29,741	
Liabilities	(174,178)	
Net assets, at fair value	175,584,746	

The Master Trusts' investments that represented 5% or more of the Trust's net assets available for benefits as of December 31, 2010 are as follows:

Fidelity Retirement Government MM	\$ 22,930,194
Rowan Companies Stock	26,301,299
PIMCO Total Return Fund	10,466,979
MainStay Large Cap Growth Fund R1	13,063,418
Victory Diversified Stock CL A	11,399,109
Fidelity Puritan	19,564,767
Fidelity Managed Income Portfolio	13,254,999

During the year ended 2011, the Plan's investments (including gains and losses on investments bought, sold and held during the year) depreciated in value by \$1,821,012.

Interest and dividends realized on the Plan's investments for the year ended December 31, 2011 were \$1,390,375.

5. FULLY BENEFIT- RESPONSIVE INVESTMENT CONTRACTS

The Plan has an interest in a Stable Value Fund that has investments in fixed income securities and bond funds and may include derivative instruments, such as futures contracts and swap agreements. The stable value fund also enters into a “wrapper” contract issued by a third-party.

As described in Note 2, because these contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to these contracts. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

The average yield earned by the contract for the year ended December 31, 2011 was 1.92%. The average yield earned to reflect the actual interest rate credited to participants for the year ended December 31, 2011 was 1.39%.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The plan administrator does not believe that the occurrence of an event that would limit the Plan’s ability to transact at contract value with participants is probable.

6. FAIR VALUE MEASUREMENTS

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

Notes to Financial Statements

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets held in the Master Trust measured at fair value.

Interest bearing cash: Valued at cost, which approximates fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Stable value fund: Valued at contract value for purposes of financial statement disclosure. However, fair value is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total investments at fair value	<u><u>\$ 175,729,183</u></u>

* The Managed Income Portfolio, a commingled pool managed by Fidelity Management Trust Company (FMTTC), strives to preserve principal while earning a level of interest income consistent with principal preservation. The Portfolio maintains, but cannot guarantee, a stable net asset value of \$1 per share. Investments in the Portfolio include short-term bonds and other fixed income securities such as U.S. Treasury bonds, government agency securities, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities and derivative instruments, including futures, options and swaps. Generally, there are no restrictions on a participant's ability to redeem their investment in the fund at net asset value (NAV). However, withdrawals prompted by certain events (e.g., termination of the managed income portfolio, changes in laws or regulations) may restrict a participant's ability to redeem the investment at its NAV.

7. TAX STATUS OF THE PLAN

The Plan's trustee received a favorable opinion letter dated March 31, 2008, from the Internal Revenue Service (IRS) informing the trustee that their prototype non-standardized

profit sharing plan is qualified under provisions of Section 401(a) of the Internal Revenue Code, which was adopted for Plan year 2010. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires the plan administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are shares of mutual funds and common/collective trust funds managed by Fidelity Investments Institutional Operations Company, Inc. (an affiliate of Fidelity). Fidelity is also the trustee and record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions however, they are exempt from the prohibited transactions rules under ERISA.

Fees paid during the year for professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
