## NOTE 1. DESCRIPTION OF PLAN

The following description of the Post Acute Partners Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed, defined contribution plan covering all full-time employees of Post Acute Partners Retirement Plan (collectively the "Company") who are over the age of 18.

The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986 ("IRC"), as amended.

Contributions

Participants may make pre-tax or post-tax contributions from their compensation, up to amounts permissible under the IRC. Participants who reached age 50 during the year are eligible to make catchup contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans. Salary deferrals from participants and employer contributions are directed by participants to investment options made available by the Plan. The Plan currently offers various mutual funds as investment options for participants.

The Company may make discretionary matching contributions as deemed appropriate. To be eligible for a Company match, a participant is required to have one year of service and complete 1000 hours of service during the plan year, and be employed on the last day of the year. The Company made matching contributions totaling $22,660 for the year ended December 31, 2011.

The Company may also make discretionary profit sharing contributions to all eligible participants based on eligible compensation. To be eligible for a Company discretionary profit sharing contribution, a participant is required to have one year of service and be an active employee at the end of the year. There were no discretionary profit sharing contributions made during 2011.

Participants' accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

## NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. The maximum loan term is 60 months or up to 240 months for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Interest rates on outstanding balances during the year ended December 31, 2011, was 3.25%. Principal and interest are paid ratably through payroll deductions. The default of a loan is deemed a taxable distribution of the unpaid balance.

If a participant fails to make a payment when the loans are due under the terms of the loan, that participant will be in default. The loan in default could be considered a distribution from the Plan and could be considered income to the participant. Failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

Vesting

Participants are immediately vested in their elective and rollover deferral contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant distributions

Active participants may receive distributions from their elective contribution account and their rollover contribution account at any time after attaining the age of 59 and a half or due to hardships as defined in the Plan.

Upon termination of service, disability, or retirement (age 65), a participant is entitled to a lump-sum payment if their account balance is equal to or less than $5,000 at the time of distribution.

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Recently adopted accounting pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06, *Improving Disclosures about Fair Value Measurements.* This update amends FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement,* to require new disclosures for significant transfers in and out of Level 1 and Level 2 fair value measurements, disaggregation regarding classes of assets and liabilities, valuation techniques, and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for Level 2 or Level 3. These disclosures are effective for reporting periods beginning after December 15, 2009. Additional new disclosures regarding the purchases, sales, issuances, and settlements in the rollforward of activity in Level 3 fair value measurements are effective for fiscal years beginning after December 15, 2010. The Plan adopted certain of the relevant disclosure provisions of ASU 2010-06 on January

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

1, 2011. The adoption of this standard did not have a material effect on the Plan's financial statements.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Fair value measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurements (continued)
The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Subsequent events
In accordance with FASB ASC 855, *Subsequent Events*, the Plan evaluated subsequent events through October 10, 2012, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

## NOTE 3. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in combinations of mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

## NOTE 4. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan's administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the Trustee as of December 31, 2011, as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and schedule of assets (held at end of year).

## NOTE 4. INFORMATION CERTIFIED BY THE TRUSTEE (CONTINUED)

At December 31, 2011, information certified by the Trustee as complete and accurate is as follows:

| Money market fund | $ 5,029 |
| Subtractions from net assets attributed to: | |
| Net depreciation in fair value of investments | $ (8,253) |

## NOTE 5. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the table below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

## NOTE 5. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table summarizes the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2011:

| | December 31, 2011 | | | | |
|---|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total | Valuation Technique |
| Money market fund | $ 5,029 | $ - | $ - | $ 5,029 | (a) |

| Total mutual funds | 884,518 | - | - | 884,518 | (a) |
| Common collective trust: | | | | | |
| Stable value fund | - | 64,145 | - | 64,145 | (b) |
| | $ 889,547 | $ 64,145 | $ - | $ 953,692 | |

The following is a description of the valuation methodologies used for instruments measured at fair value, including general classification of such instruments pursuant to the fair value hierarchy. There have been no changes in the methodologies used at December 31, 2011.

*Money market funds* are valued at cost plus accrued interest, which approximates fair value.

Investments in *mutual funds* are stated at fair value as determined by quoted market prices, which represents the net asset value ("NAV") of the shares held by the Plan at year-end.

Investments in *stable value funds* are public investment vehicles using the NAV provided by the trustee. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

## NOTE 6. PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Company.

Certain Plan investments are invested in pooled separate and guaranteed interest accounts managed by the Trustee. Accordingly, these transactions qualify as party-in-interest transactions.

## NOTE 7. TAX STATUS

The Plan uses a prototype plan document sponsored by Ascensus, Inc. The Internal Revenue Service ("IRS") has determined and informed the Plan, in a letter from the IRS, dated December 27, 2011, that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. Nevertheless, the Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011 (first plan year), there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## NOTE 8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their account.
