INDEPENDENT ACCOUNTANTS' REPORT

To the Board of Trustees of the
Amalgamated Transit Union, Local #1548
401(k) Retirement Plan

We have audited the accompanying statements of net assets available for benefits of the Amalgamated Transit Union, Local #1548 Retirement 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Amalgamated Transit Union, Local #1548 Retirement 401(k) Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our 2011 audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The Supplemental Schedule I-Schedule of Assets (Held at End of Year) at December 31, 2011 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements
December 31, 2011**

Note 1 – Description of Plan

The following description of the Amalgamated Transit Union, Local #1548 Retirement 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more complete information regarding the terms of the Plan. Selected Plan provisions are described below.

- A. **General** – The Plan, which became effective June 1, 2001, is a defined contribution plan covering all eligible employees of the Plymouth & Brockton Street Railway Company, Brush Hill Transportation Company, Cape Area Transportation Systems and Amalgamated Transit Union Local #1548 (the Employers). The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

The purpose of the Plan is to provide retirement benefits to eligible participants and their beneficiaries.

- B. **Plan Administration** – Since December 31, 2003, Hartford Retirement Services LLC is the record keeper of the participant accounts and Amalgamated Transit Union Local 1548 is the Plan Administrator. The trustees include Charles Ryan III, Janet Topalis, and Robert Kent.
- C. **Plan Termination** – Although they have not expressed any intent to do so, each employer has the right to terminate its participation in the Plan at any time, subject to the provisions of ERISA. In the event of a termination of the Plan, participants become 100% vested and the assets shall be liquidated and distributed by management in accordance with the provisions of the Plan, and as prescribed by ERISA and the regulations pursuant thereto.
- D. **Contributions** – A participant may elect in writing to defer up to 100% (but no more than \$40,000) of their compensation, subject to the limitations of the Internal Revenue Code (the Code).

For each Plan year, the employer may contribute to the Plan an amount required to be made to the Plan pursuant to the collective bargaining agreement between the employer and the union. The current employer matching contributions are three percent (3%) of eligible compensation for Cape Area Transportation Systems and two percent (2%) of eligible compensation for Plymouth & Brockton Street Railway Company and Brush Hill Transportation Company employees. The employer contribution for a participant will not exceed that participant's elective deferral. Subject to the approval of the administrator, participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Note 1 – Description of Plan, continued

- E. **Vesting** – A participant shall at all times have a vested right to their account derived from elective deferrals, employer contributions, and rollovers from other plans, adjusted for investment experience. Except as otherwise provided with respect to early or normal retirement, disability, or death, a participant shall have a vested right to a percentage of this account derived from employer matching contributions as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1 year	0%
1 year but less than 2	10%
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years and thereafter	100%

- F. **Benefits** – On termination of service due to death, disability, or retirement, a participant may elect to receive a single lump sum amount equal to the value of the participant's vested interest in their account or purchase a non-transferable annuity providing payments over the life of the participant. Benefits paid to participants are recorded when paid.

Unless a participant elects otherwise, distribution of their vested account shall begin no later than sixty (60) days after termination of employment.

- G. **Participant Accounts** – Individual accounts are maintained for each participant of the Plan and are participant directed for investment purposes. Under this strategy, each participant directs the investment of his/her account into various investment options offered by the Plan. Each participant's account is credited with contributions made on his/her behalf and an allocation of the interest, dividends and net appreciation/depreciation of the participant's investments. The investment fee, if not covered by forfeitures, is allocated to each participant's account equally. Administrative fees due to actions of a participant are charged directly to that participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of Plan, continued

- H. **Notes Receivable, Participants** – Participants may borrow from their fund accounts upon application to the Plan up to a maximum of 50% of their vested benefit. The loans are secured by the balance in the participant's account and at December 31, 2011 and 2010 bear interest rates ranging from 3.25% to 8.25% which are commensurate with local prevailing rates determined by the Plan administrator at the time the loan is taken.

The loans must be repaid within five (5) years except for loans for primary residences which may be repaid in ten (10) years. The loans must be repaid in at least quarterly installments of principal and interest with level periodic payments. Notes receivable are currently paid through weekly payroll deductions.

- I. **Forfeited Accounts** – The non-vested portion of a participant's account shall be forfeited as of the earlier of the distribution of the entire vested portion of a terminated participant's account, or the last day of the plan year in which the participant incurs five (5) consecutive breaks in service. The amount forfeited shall be first used to pay any administrative expenses of the Plan with any remaining forfeitures used to reduce employer contributions. During 2011, forfeitures used to pay for investment expenses totaled \$8,237. At December 31, 2011 and 2010, forfeited nonvested accounts totaled \$350 and \$4,345, respectively.

Note 2 – Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual method of accounting in conformity with U.S. generally accepted accounting principles.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The Plan has invested in investment contracts through a collective trust fund, the SEI Trust Company Fixed Fund.

Valuation of Investments and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Fees charged by the funds in which the Plan invests are netted against investment income.

Note 2 – Significant Accounting Policies, continued

Payment of Benefits – Benefits paid to participants are recorded when paid.

Administrative Expenses– Certain costs of Plan administration, including accounting, investment expenses, and auditing fees, are allocated between the participants equally. Participant accounts may also be charged individually for administrative expenses incurred by the participant such as distribution requests, loan requests, and loan maintenance.

Use of Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Notes Receivable, Participants - Notes receivable, participants are reported at their unpaid principal balance, with no allowance for credit losses, repayments of principal and interest are received through payroll deductions and the loans are collateralized by the participants' account balances.

Subsequent Events – Subsequent events were evaluated through October 12, 2012, which is the date the financial statements were available to be issued

Note 3 - Investments

The Plan's investments are summarized below. Investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2011 and 2010 are separately identified.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board *Accounting Standards Codification* (ASC) 820, *Fair Value Measurement and Disclosure*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered Investment Companies – Valued at quoted market prices on nationally recognized securities exchanges.

Note 4 - Fair Value Measurements, continued

Common Collective Trust – The collective trust fund is a comingled pool of investments with the objective of preserving principal while earning interest income. The collective trust fund is valued at the net asset value representing the value at which units may be purchased or redeemed. The beneficial interest in the net assets of the trust is represented by units. Issuance and redemption of units are recorded based on the next determined net asset value per unit. Net asset value per unit is determined each business day.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2011:

Changes in Fair Value Levels- The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions of model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to the total net assets available for benefits. For the years ended December 31, 2011 and 2010, there were no significant transfers in or out of levels 1, 2, or 3.

Note 5 – Stable Value Fund

SEI Trust Company Fixed Fund (Fixed Fund)

The Plan invests in fully benefit-responsive synthetic investment contracts and guaranteed investment contracts (GIC) as part of offering the Fixed Fund to participants. Contributions to the Fixed Fund are invested in assets (typically fixed-income securities including asset backed securities and mortgage backed securities) and in cash equivalents. Also the Fixed Fund enters into “wrapper” contracts issued by third-parties. The Fixed Fund’s investment objective is to seek preservation of capital and a competitive level of income over time.

As discussed in note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the Fixed Fund, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Units of the Fixed Fund are issued and redeemed daily.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed, typically, on a quarterly basis for resetting.

Unanticipated events such as a GIC issuer’s inability to meet its obligations or significant withdrawal requests by Plan participants in the Trust, could affect the recoverability of assets including the underlying investment securities of synthetic GICs. Therefore, as provided for in the Declaration of Trust of the Fixed Fund, there can be no assurance that a unit’s value will remain constant at \$1.00. The value of each unit is determined at the close of business each business day by adding the value of all the Trust’s assets, subtracting all accrued expenses and liabilities, and dividing by the number of units outstanding.

The following is information regarding average yields

	<u>2011</u>	<u>2010</u>

Note 6 – Tax Status

The Plan qualifies under Section 401(a) and is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as a defined contribution profit sharing plan. In a determination letter dated May 9, 2012, the Internal Revenue Service (IRS) recognized the continued qualification of the Plan based on amendments through April 4, 2012. The Trustees believe that the Plan, including amendments subsequent to the IRS determination letter, is currently designed and operated in compliance with the requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. During 2011, an audit of the Plan commenced and after year end was concluded. The plan has fully complied with the results of the audit. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2008.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
