Report of Independent Auditors

To the Plan Administrator of the Pension Plan for Employees of the Process Analytics Division of ABB Inc., Represented by the Laborers' International Union of North America, Local No. 1304:

We were engaged to audit the accompanying statements of net assets available for benefits and statements of accumulated plan benefits of the Pension Plan for Employees of the Process Analytics Division of ABB Inc., Represented by the Laborers' International Union of North America, Local No. 1304 as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 5, which was certified by The Bank of New York Mellon Corporation, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Description of Weighted Average Retirement Age
as of January 1, 2011

See Part V – Statement of Actuarial Assumptions/Methods for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods

Economic Assumptions

Interest rate basis:

- Applicable month: September
- Yield curve basis: Three-Segment Rates

Interest rates:

- First segment rate: 3.78%
- Second segment rate: 6.31%
- Third segment rate: 6.57%
- Effective interest rate: 6.31%

Annual rates of increase

- Compensation: 4.50%
- Future Social Security wage bases: N/A

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee became a participant.
New or rehired employees	It was assumed there will be no new or rehired employees.

Mortality

• Healthy	For non-disabled participants: The prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants.
• Disabled	The mortality tables published in IRS Revenue Ruling 96-7 for disabilities occurring before January 1, 1995 and after December 31, 1994.

SCHEDULE SB ATTACHMENTS

Termination

Rates varying by age.

Representative Termination Rates not due to Disability, Retirement or Mortality

Attained Age	Rate
20	14.7%
30	6.8%
40	2.6%
50	0.0%

Disability

One-half of the disability rates in the twelfth valuation of the Railroad Retirement Board (set forward 1 year for males and set back 4 years for females).

Retirement

Age 65 for terminated vested participants. For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire are shown below.

Age	Rate
60 – 61	5%
62	20%
63 - 64	5%
65 - 69	50%
70	100%

Form of payment

Participants not yet in payment status are assumed to elect a single life annuity form of payment upon benefit commencement.

Percent married

For purposes of valuing the preretirement surviving spouse's benefit, 85% of eligible participants are assumed to be married.

Spouse age

Wife three years younger than husband.

Covered pay

Compensation assumed paid in the plan year beginning on the valuation date is the actual pensionable pay earned during the prior plan year, adjusted by one full year of salary scale or the base pay rate adjusted by one-half year of salary scale, if greater.

Administrative expenses

The amount included this year for plan-related expenses is $40,000.

SCHEDULE SB ATTACHMENTS

At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the Plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the Plan.
Participant Data	Employee data was supplied electronically as of the valuation date by Fidelity on behalf of ABB Inc.
Future Increases in Maximum Benefits and Plan Compensation Limitations	Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.
Tax Policy	The actuarial valuation performed for the plan year ending December 31, 2011 is used to determine the maximum deductible contribution for the tax year ending December 31, 2011.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.82%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.00%, and the applicable limitation for the plan year, equal to 6.82%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.56%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.50%, and the applicable limitation for the plan year, equal to 6.56%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Benefits not valued

Generally, benefit changes which are adopted after the first day of the plan year are not recognized for such plan year.

The valuation does not reflect the following plan changes that were negotiated during collective bargaining and adopted after the valuation date:

- Plan Amendment – Benefit Level increases effective 2/5/2011
  - $36.00 effective February 5, 2011
  - $36.50 effective February 1, 2012
  - $37.00 effective February 1, 2013
  - $38.00 effective February 1, 2014

To the best of our knowledge, all other benefits were included in this valuation.

SCHEDULE SB ATTACHMENTS

Change in assumptions and methods since prior valuation

In addition to the prescribed changes in the discount rate and mortality table, the following change in assumptions and methods was made as part of this valuation:

- The assumed plan-related expenses added to the target normal cost were changed from $63,095 to $40,000.

SCHEDULE SB ATTACHMENTS

Early Retirement Benefit

A monthly Benefit Level payable upon retirement at age 60 with 10 years of Vesting Service, subject to a minimum of .5% of five year average monthly earnings, multiplied by years of Benefit Service. This benefit will be reduced by 5/9 of 1% for each month that retirement precedes age 65.

Disability Benefit

A monthly benefit calculated as above for a normal retirement benefit, but based on years of Benefit Service to the date of disablement, payable without reduction after 26 weeks' total and permanent disablement following 10 years of Vesting Service. An additional monthly temporary benefit of the benefit multiplier multiplied by years of Benefit Service up to 25 is payable until the earlier of age 65 or eligibility for an unreduced Social Security Benefit.

Vested Benefits upon Termination of Service

Upon termination of employment after 5 years of Vesting Service, an employee will be entitled to a deferred vested benefit calculated as for a normal retirement benefit, but based upon Benefit Service at termination, payable in full at age 65 or payable after age 60 reduced by 5/9 of 1% per month that retirement precedes age 65.

Death Benefits for Participants in Active Service

In the event of the death of an active employee after the completion of 5 years of Vesting Service, his surviving spouse will be entitled to 50% of the reduced accrued benefit as of the date of death, payable upon the later of (1) the date of employee's death and (2) the 60th anniversary of the employee's birth.

Death Benefits for Retired Participants

The retirement benefits described above are based upon election of a straight life form of payment. Actuarially equivalent optional forms are available.

Changes in Plan Provisions since Last Actuarial Valuation

There were no changes since the prior valuation.

Report of Independent Auditors

To the Plan Administrator of the Pension Plan for Employees of the Process Analytics Division of ABB Inc., Represented by the Laborers' International Union of North America, Local No. 1304:

We were engaged to audit the accompanying statements of net assets available for benefits and statements of accumulated plan benefits of the Pension Plan for Employees of the Process Analytics Division of ABB Inc., Represented by the Laborers' International Union of North America, Local No. 1304 as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 5, which was certified by The Bank of New York Mellon Corporation, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2011

1. Description of Plan

The Pension Plan for Employees of the Process Analytics Division of ABB Inc., Represented by the Laborers' International Union of North America, Local No. 1304 (the "Plan") is a defined benefit plan with all contributions being made by ABB Inc. (the "Company" or "Employer"). Vesting occurs after 5 years of service at which time an employee is 100% vested. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

A description of the Plan including vesting and benefit payment provisions are included in the Plan Document.

The Plan amendment related to the Process Analytics Plan reflects the cost of the increasing benefit multiplier effective February 5, 2011.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefit payments are recorded when paid to participants. Active participants may elect to defer annuity payments up to age 70 ½.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Funding Policy

The Company shall make contributions to the Plan as shall be necessary under accepted actuarial principles to meet the requirements of ERISA. Employer contributions are based on an actuarial determination which provides for funding (a) the annual normal cost for the current year, and (b) an amount necessary to amortize the unfunded accrued liability.

It is the Company's intention to only make contributions that are tax-deductible. For each of the years ended December 31, 2011 and 2010, the Plan has satisfied the minimum funding requirements of ERISA.

Valuation of Investments and Income Recognition

The assets of the Plan are held in the ABB Inc. Master Trust ("Master Trust") along with the assets of other plans of the Company. The Bank of New York Mellon Corporation (the "Trustee") is the trustee of the Master Trust.

Income, including realized and unrealized gains/losses, of the Master Trust is allocated monthly among participating plans based on the relationship of the fair value of the assets of each plan to the total fair value of the assets of the Master Trust as of the end of the preceding month. Employer contributions and benefit payments are applied on a specific basis to each plan.

Assets of the Master Trust are stated at fair value which, as used for financial statement purposes, represents market or current value (see Note 6). The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income/loss less actual distributions and allocated administrative expenses.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Reclassification

Certain prior amounts were reclassified to conform to the current year presentation.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* ("ASU 2010-06"). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The requirement to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"). ASU 2011-04 amended ASC 820, *Fair Value Measurement*, to converge the fair value measurement guidance in US generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRSs"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Securities Lending

As of December 31, 2011 and 2010, the Master Trust participated in the Trustee's securities lending program for securities held in custody at the Trustee. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities.

For U.S. securities, collateral shall not be less than 102% of the fair value of the loaned securities, and for non-U.S. securities, collateral shall not be less than 105% of the fair value of the loaned securities unless it is denominated in the same currency as the collateral, in which case it will be 102% of the fair value. Collateral received is invested in a short-term collateral

2. Summary of Significant Accounting Policies (continued)

reinvestment fund that is managed by The Bank of New York Mellon Corporation, and the fund consists of high quality short-term investments. The value of loaned securities in the Master Trust amounted to $32,958,795 and $70,931,877 at December 31, 2011 and 2010, respectively. The obligation to return collateral is reflected as a liability in the Master Trust's financial statements and income from securities lending is included in other investment income in the Master Trust's financial statements (see Note 4).

Derivatives

The Master Trust invests in S&P 500 futures and foreign exchange contracts to hedge future market risks. The Master Trust holds some securities valued in currencies other than the U.S. dollar. To reduce the impact of currency fluctuations on the value of these securities, the Master Trust employs a currency overlay manager who utilizes foreign exchange contracts to hedge the Master Trust's exposure to these foreign currencies. The Master Trust employs managers who utilize S&P 500 futures contracts to mitigate the Master Trust's U.S. equity exposure. Contracts are marked to market daily with the prime broker. The fair value of these instruments is determined by the Trustee at year end. The Master Trust's exposure related to derivatives was $0 and $31,638,250 as of December 31, 2011 and 2010, respectively. The values of such derivative contracts are included within the respective investment category in Note 4.

Investment Risk

The Master Trust provides for investments that are exposed to risks such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities may occur in the near term and that changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Management evaluated subsequent events for the Plan through October 12, 2012, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or other beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits payable under all circumstances (retirement, death, disability, and termination of employment), are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as of December 31, 2011 and 2010 were determined by the Plan's actuary, Towers Watson & Company, using employee data supplied by the Company as of January 1, 2011 and 2010, and projected to the respective valuation date, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial cost method used to determine the actuarial present value of accumulated plan benefits is the projected unit credit cost method. A summary of the significant actuarial assumptions underlying the actuarial valuation as of December 31, 2011 and 2010 are as follows:

Mortality – 2011: Based on the Retirement Plans – PPA 2012 Static Mortality Table split between annuitants and non-annuitants and sex distinct.

Mortality – 2010: Based on the Retirement Plans – PPA 2011 Static Mortality Table split between annuitants and non-annuitants and sex distinct.

Interest – The assumed interest rates utilized to calculate accumulated plan benefits at December 31, 2011 and 2010 were 4.05% and 5.05%, respectively. The change in interest rates is reflected in the "change in actuarial assumptions" in the accompanying Statements of Changes in Accumulated Plan Benefits.

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

Retirement age – 2011 and 2010: Age 65 for terminated vested employees and the following chart of rates applies for active employees:

Age	Percentage of Employees Expected to Retire Within One Year
60–61	5
62	20
63–64	5
65–69	50
70	100

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. ABB Inc. Master Trust

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and several other Company sponsored retirement plans. Each participating plan has an undivided interest in the Master Trust.

The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

At December 31, 2011 and 2010, the Plan had a 0.70% and 0.66% interest in the net assets of the Master Trust, respectively.

5. Investments Certified by Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Company has obtained a certification from the Trustee as to the completeness and accuracy of the investments and investment activity (except for investments classified as alternative investments and related investment activity) recorded by the Master Trust as of and for the years ended December 31, 2011 and 2010 (the "Master Trust certification"). Additionally, the Company has obtained a certification from the Trustee related to the Plan's interest in the Master Trust and Master Trust investment activity as of and for the years ended December 31, 2011 and 2010 (the "Plan certification"). Investment information certified by the Trustee at the Master Trust and Plan levels has not been audited by independent auditors.

5. Investments Certified by Trustee (continued)

At the Master Trust level, the alternative investments and related investment activity as of December 31, 2011 and December 31, 2010 and for the years then ended are detailed below:

	December 31	
	2011	**2010**
Private equity investments	**$ 102,799,789**	$ 101,419,942
Distressed debt	**19,228,464**	26,188,533
Fund of funds	**26,932,685**	30,328,590
Total alternative investments	**$ 148,960,938**	$ 157,937,065

At the Master Trust level, net realized and unrealized appreciation for these alternative investments is as follows:

	Year Ended December 31	
	2011	**2010**
Net realized and unrealized appreciation in fair value of alternative investments	**$ 16,196,579**	$ 22,980,534

At the Plan level, the Plan's "Interest in the ABB, Inc. Master Trust" as reflected in the accompanying statements of net assets available for benefits and the Plan's "Interest in net investment gain of the ABB Inc. Master Trust" have also been certified by the Trustee. While the Plan holds an undivided interest in the Master Trust, the certified amounts for the Plans have been adjusted to reflect the Master Trust alternative investments' fair values and net realized and unrealized appreciation of alternative investment noted above. These amounts represent 14.13% and 55.26% of the Plan's "Interest in the ABB, Inc. Master Trust" and "Interest in net realized and unrealized appreciation of the ABB Inc. Master Trust" at December 31, 2011 and for the year then ended and 14.94% and 19.44% of the Plan's "Interest in the ABB, Inc. Master Trust" and "Interest in net realized and unrealized appreciation of the ABB Inc. Master Trust" at December 31, 2010 and for the year then ended.

6. Fair Value Measurements

Investments held by the Plan are stated at fair value. ASC 820, *Fair Value Measurements and Disclosures* ("ASC 820"), requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust's investments, are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.

Level 3 – Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Master Trust's financial instruments at fair value as of December 31, 2011 and December 31, 2010:

6. Fair Value Measurements (continued)

The ASC 820 tables above exclude securities lending losses of $350,065 at December 31, 2011 and $429,205 at December 31, 2010 which are in the Master Trust table in Note 4.

(a) This category consists of cash equivalents in commingled funds.

(b) This collateral consists of cash provided by the borrower that is 102% of the value of the securities borrowed.

(c) This category includes investments in mutual funds whose value is determined by closing price reported in an active market and highly diversified pooled and separate accounts valued at NAV that invest in U.S. and internationally issued bonds. This category also includes investments in hedge funds whose value is determined by unobservabale pricing inputs. There are currently no redemption restrictions on these investments except for investments in hedge funds.

(d) This category includes investments in mutual funds whose value is determined by closing price reported in an active market and highly diversified pooled and separate accounts valued at NAV that invest in U.S. common stocks via direct purchases, ETFs and futures. There are currently no redemption restrictions on these investments.

(e) This category includes investments in mutual funds whose value is determined by closing price reported in an active market and diversified pooled, collective trusts and separate accounts valued at NAV that invest in international common stocks. A currency overlay strategy is also employed to add value and reduce currency risk. Some of these accounts have redemption restrictions of up to one month notice.

(f) This category includes investments valued at NAV, in private equity, distressed debt and fund of funds to offer diversified uncorrelated returns versus the public markets. By nature, some of these investments are illiquid and some are not redeemable in the near term and capital calls and distributions are determined by the investment manager.

6. Fair Value Measurements (continued)

The table below sets forth a summary of changes in the fair value of the Master Trust's Level 3 financial instruments for the years ended December 31, 2011 and December 31, 2010:

	Year Ended December 31

7. Plan Termination

The Company expects to continue the Plan, but reserves the right to terminate the plan or discontinue contributions, subject to the provisions of ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated as prescribed by ERISA and related regulations, generally to provide the following benefits in the following order to the extent of the sufficiency of such assets, or portions thereof:

First, equally among benefits of participants in the following two subcategories:

- In the case of benefits in any pay status three years prior to termination, at the lowest benefit level under the Plan during the five years prior to termination, and

- In the case of benefits which would have been in pay status three years prior to termination had the participants been retired (and their benefits commenced then), at the lowest benefit level under the Plan during the five years prior to termination.

Second, among all other benefits, if any, under the Plan guaranteed under the termination insurance provisions of ERISA;

7. Plan Termination (continued)

Third, among all other nonforfeitable (i.e., uninsured and vested) benefits under the Plan; and

Fourth among all other benefits under the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2011 and 2010, that ceiling, which is adjusted annually, was $4,500 per month for both years. Whether a particular participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guarantee.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated October 15, 2010, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

9. Related Party Transactions

Certain of the Plan's assets are invested in funds managed by the Trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.
