Diversey, Inc.
Diversey, Inc. Retirement Savings Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Diversey, Inc. Retirement Savings Plan (the Plan) as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the plan as of and for the year ended December 31, 2010, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed the other auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the Trustee. Their report, dated October 14, 2011, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b), the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CPR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the 2011 financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 2011 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the 2011 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Diversey, Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2011

1. Description of the Plan

The following brief description of the Diversey, Inc. Retirement Savings Plan (the Plan) is provided for general information purposes only. Effective March 1, 2010, directors approved a resolution to amend the Plan to change the name of the Plan from JohnsonDiversey, Inc. Retirement Savings Plan to Diversey, Inc. Retirement Savings Plan. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined-contribution plan covering the employees of Diversey, Inc., formerly known as JohnsonDiversey, Inc. (the Company), and any other participating affiliated company. Employees who are regularly schedule to work twenty or more hours per week are eligible upon being employed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan incorporates a 401(k) savings provision whereby employees can participate through payroll withholdings. The Plan is administered by a Benefits Administration Committee comprised of individuals appointed by the Company's Board of Directors.

Effective October 3, 2011, the Company was acquired by Sealed Air Corporation. See discussion in Note 9 for management plans related to this acquisition.

Contributions

Employees may contribute up to 50% of their compensation, as defined, to the Plan. All eligible employees hired on or after April 1, 2011 will be automatically enrolled at a 3% contribute rate with an automatic 1% escalation of the contribution rate in each of the two years following enrollment. Contributions may be made on a pre-tax basis or on an after-tax basis. Participants may also contribute amounts representing distributions from other qualified plans. The Plan also allows participants age 50 or older the ability to contribute catch-up contributions as permitted by the Internal Revenue Service (IRS). The Plan provides for matching contributions of 100% of the first 3% of compensation deferred by a participant, and 50% of the next 2% deferred. The Company also provides a pension contribution to eligible participants equal to 5% of compensation, as defined, up to the Social Security Wage Base, plus 10% of defined compensation above the Social Security Wage Base. All contributions are subject to the maximum amounts as permitted by the IRS.

1. Description of the Plan (continued)

Participant Accounts

All Plan investments are participant directed. Plan participants have the option of having their contributions invested in a variety of mutual and managed asset funds, including a self-directed brokerage account option. Participants may change their investment options daily. Each participant's account is credited with the participant's contributions, any rollover contributions, and allocations of (a) the Company's contributions, (b) Plan earnings or losses, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Under current Plan provisions, loan terms range from 1 – 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably, generally through payroll deductions.

Vesting

Participants are 100% vested at all times in their deferrals, rollover contributions, catch up contributions, and employer matching contributions, plus earnings thereon. Participants are 100% vested after three years in the pension contribution portion of their account, plus earnings thereon.

Forfeitures

At December 31, 2011 the Plan had unallocated forfeitures of $260,378. Forfeitures are available for use upon the earlier of a five year break in service or when the participant withdraws the vested portion of their account balance. Forfeitures may be used to reduce Company contributions or pay plan expenses.

1. Description of the Plan (continued)

Benefits

The balance in participants' after-tax savings accounts may be withdrawn at any time. The Plan further provides for hardship withdrawals from pre-tax accounts in the event of an immediate financial need.

Upon retirement or termination of employment, participants may elect to receive a lump sum amount equal to the value of their vested account balance (net of outstanding loans) or receive periodic installments, or leave the funds on deposit with the trustee, if the balance is over $1,000, subject to certain time limitations described in the Plan.

Administrative Expenses

Substantially all the costs of administering the Plan are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become 100% vested in their account balances.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a fully benefit-responsive synthetic investment contract (SIC). The statements of net assets available for benefits present the fair value of the SIC as well as the adjustment from fair value to contract value. The contract value of the SIC represents contributions plus earnings, less participant withdrawals and administrative expenses. The statements of changes in net assets available for benefits are prepared on a contract value basis

Purchases and sales of securities are accounted for on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest from investments is recorded on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2011 or 2010. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that

2. Summary of Significant Accounting Policies (continued)

affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Issued but Not Yet Effective Accounting Pronouncements

Issued but not yet effective accounting pronouncements are not expected to have a material impact on the financial statements.

3. Investment Information Certified by the Trustee

Other than the fair value of the SIC and the adjustment from fair value to contract value, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2011 and 2010, and net appreciation (depreciation) in fair value of investments, interest, dividends and interest from notes receivable from participants for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee. The contract value of the SIC was certified as complete and accurate by the Trustee.

3. Investment Information Certified by the Trustee (continued)

The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31, 2011 and 2010 is as follows:

	2011	2010
PIMCO Moderate Duration Fund	**$ 52,916,947**	$ 51,715,204
Dodge & Cox Stock Fund	**42,820,151**	51,872,321
PIMCO Total Return Institutional Fund	**27,836,457**	29,180,638
Dodge & Cox Balanced Fund	**23,913,862**	26,661,126
Fidelity Capital Appreciation Fund	**19,906,401**	23,538,569
Fidelity Diversified International Fund	**15,314,906**	19,548,009
Spartan 500 Index Fund	**12,854,749**	13,042,668

The SIC consists of a global wrap contract, which is reported in the financial statements at contract value because it is fully benefit-responsive. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The values of the SIC are as follows as of December 31:

	2011	**2010**
Total fair value	**$ 56,953,846**	$ 54,331,523
Total contract value	**52,684,019**	49,617,883
Fair value of benefit-responsive feature	**$ 4,269,827**	$ 4,713,640

4. Fair Value Measurements

The Plan follows accounting standards which establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under accounting standards are described as follows:

4. Fair Value Measurements (continued)

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used at December 31, 2011 and 2010, for assets measured at fair value.

Mutual funds are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

The common/collective trust fund (the PIMCO Moderate Duration Fund – Institutional Shares) is valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities divided by the number of units outstanding.

4. Fair Value Measurements (continued)

Short-term investment funds are valued at $1.00 per share. The trustee values the securities, and any change in the value is recorded as a change in shares. These investments are valued at the NAV of shares held by the Plan at year-end.

The following table sets forth by level, within the fair value hierarchy, the net assets of the Plan at fair value, as of December 31, 2011:

	Level 1	Level 2	Level 3	Total

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the net assets of the Plan at fair value, as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Short-term investment funds	$ -	$ 573,021	$ -	$ 573,021

Total Plan net assets, at fair value	$ 199,799,346	$ 54,904,544	$ -	$ 254,703,890

*This category includes a common/collective trust fund that is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in fixed-income securities, including government treasuries, corporate bonds, municipal bonds, and treasury inflation-protected securities. The fair value of the wrap contract for the SIC is determined using the market approach discounting methodology that incorporates the difference between current market-level rates for contract-level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated swap rate as of period-end. The fair value of the SIC differs from the contract value. As previously noted in Note 2, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Participant-directed transactions have no restrictions; the Plan can provide proper notice and liquidate its investment in whole or in part at any time. See Note 5 for further discussion.

5. Fully Benefit-Responsive Investment Contracts

As discussed in Note 2, the Plan invests in a fully benefit-responsive SIC, which consists of a wrap contract paired with underlying investments, comprised of a common/collective trust fund and a short-term investment fund.

The Plan purchases wrapper contracts from financial services institutions. The SIC credits a stated interest rate for a specified period of time. Investment gains and losses are amortized over the expected duration through the calculation of the interest rate applicable to the Plan on a prospective basis. The SIC provides for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The crediting rate is most affected by the change in the annual effective yield to maturity of the underlying securities, but is also affected by the difference between the contract value and the market value of the covered investments. This difference is amortized over the duration of the covered investments. Depending on the change in duration from reset period to reset period, the magnitude of the impact to the crediting rate of the contract to market difference is heightened or lessened. The crediting rate can be adjusted periodically and is usually adjusted either monthly or quarterly, but in no event is the crediting rate less than zero percent.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

The SIC generally imposes conditions on both the Plan and the issuer to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default:

5. Fully Benefit-Responsive Investment Contracts (continued)

- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the plan agreement

The issuer may be in default if it breaches a material obligation under the investment contract, makes a material misrepresentation, has a decline in its long-term credit rating below a threshold set forth in the contract, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, withdrawing participants may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro-rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If the SIC terminates due to a decline in the ratings of the issuer, the issuer may be required to pay to the Plan the cost of acquiring a replacement contract (that is, replacement cost) within the meaning of the contract. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

As described in Note 2, because the SIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the SIC. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Average yields for the years ended December 31, 2011 and 2010, are as follows:

5. Fully Benefit-Responsive Investment Contracts (continued)

	2011	2010
Based on actual earnings	**4.87%**	3.09%
Based on interest rate credited to participants	**4.01**	4.79

6. Income Tax Status

The Plan has received a determination letter from the IRS dated September 16, 2009, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated they will take any necessary steps to maintain the tax qualified status of the Plan.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Related Party Transactions

The Plan holds shares of mutual funds and units of a short-term investment fund managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010, to Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	**$ 238,337,843**	$ 254,255,716
Adjustment from contract value to fair value	**4,269,827**	4,713,640
Net assets available for benefits per the Form 5500	**$ 242,607,670**	$ 258,969,356

The following is a reconciliation of the net (decrease) in net assets available for benefits per the financial statements for the year ended December 31, 2011, to the Form 5500:

Net (decrease) in net assets available for benefits per the financial statements	$ (15,917,873)
Adjustment from contract value to fair value at end of year	4,269,827
Adjustment from contract value to fair value at beginning of year	(4,713,640)
Net (decrease) in net assets available for benefits per the Form 5500	$ (16,361,686)

The SIC is recorded at contract value in the financial statements but at fair value in the Form 5500.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 12, 2012, the date the financial statements were available to be issued.

The Plan was amended and restated effective January 1, 2012. The Plan as restated received a favorable IRS determination letter dated October 2, 2012 stating that the Plan, as restated, was qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation.

Management has indicated their intention, effective December 31, 2012, to cease the pension contributions of 5% of a participant's compensation up to the Social Security Wage Base and 10% of amounts over the Social Security Wage Base. Management also intends to merge the Plan into a qualified plan maintained by Sealed Air Corporation on that date.
