EDI Retirement/Savings Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

NOTE A – PLAN DESCRIPTION

The following description of the EDI Retirement/Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution 401(k) plan covering all employees of Extrusion Dies Industries, LLC (the “Company” or “Plan Sponsor”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), and is designed to provide employees with additional security for their retirement.

The Plan was established effective July 1, 1992 and was amended and restated effective January 1, 2002. The Plan was most recently amended on December 1, 2011, with an effective date of January 1, 2012 to change Plan eligibility for employees who are age 18 or older and completed 30-days of continuous employment.

Eligibility

All employees who are not covered by a collective bargaining agreement, who are age 18 or older are eligible to participate in the Plan and make participant elective deferrals. Eligible employees may enter the Plan on the first of any month, as defined in the Plan agreement.

Funding Policy

Contributions made pursuant to participant elective deferrals may be made in one percent increments of compensation up to 100% of eligible salary or wages, subject to certain Internal Revenue Code (“IRC”) limitations. Participants satisfying certain criteria are permitted to make catch-up contributions, as stated in the Plan agreement. Participants may also make rollover contributions to the Plan.

The Company may make a matching contribution to the Plan in an amount determined by the Company. There were \$236,139 and \$297,221 matching contributions for the years ended December 31, 2011 and 2010, respectively.

Participants’ Accounts

Participants’ accounts are credited with the participant contributions (elective deferral, catch-up and rollover), the Company’s matching contributions, an allocation of Plan earnings and losses and an allocation of investment fees. Allocations of Plan earnings or losses are based on participant compensation or account balances, as defined in the Plan. Allocations of investment fees are based on amounts invested in Plan assets. The benefit to which a participant is entitled is the vested portion of the participant’s account.

All investments of the Plan are participant-directed. Participants have the option of directing their account balance to one or more investment options.

December 31, 2011 and 2010

NOTE A – PLAN DESCRIPTION – Continued

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their account balance. Participants are permitted to have one outstanding personal note and one outstanding real estate note at any given time. Notes receivable are to be repaid over a period not to exceed five years, unless the notes receivable are for a principal residence, in which case the repayment period may not exceed thirty years. The notes receivable are secured by the balance in the participant's account and bear interest at the prime rate as of the first business day of the month a note receivable is originated. Interest rates ranged from 3.25% to 8.25% as of December 31, 2011 and 2010. Principal and interest are paid through payroll deductions.

Payment of Benefits

The Plan provides for payment of the entire vested balance in the participant's account upon retirement, death, disability, or termination of employment. The method of payment will generally be in the form of a lump sum distribution, installment payments or to rollover the entire vested portion to a qualified plan. If the participant's vested balance is greater than \$1,000, the participant may elect not to receive a distribution on the date of termination. If the participant's vested balance does not exceed \$1,000, distribution will be in a single sum payment. Participants are permitted withdrawals from their Plan accounts for financial hardships. Hardship withdrawals must be approved by the Plan Administrator.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Forfeitures

The Company may use forfeitures to pay reasonable Plan expenses or reduce future Company matching contributions. At December 31, 2011 and 2010, forfeited accounts totaled \$1,563 and \$2, respectively. Total forfeitures were \$41,679 for the year ended December 31, 2011. During 2011, Company contributions were reduced by \$40,157 from forfeited accounts. There were no forfeitures or forfeitures used to reduce Company contributions in 2010.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies for the Plan consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds and collective trust are reported at fair value. Market values are determined by reference to security exchanges at the last reported sales price on the last business day of the Plan year. As described in the Financial Accounting Standards Board ("FASB") Staff Accounting Standards Codification, ("ASC") 962-325, *Plan Accounting – Defined Contribution Pension Plans Investments*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributed for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate a permitted transaction under the terms of the Plan. As such, the Statement of Net Assets Available for Benefits presents the fair value of the Wells Fargo Stable Value CL F Fund and Federated Capital Preservation Fund for 2011 and 2010, respectively, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. See Note D for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Excess Contributions Payable

Excess contributions payable are recorded for the refunds payable to participants due to contributions in excess of Plan guidelines and government regulations.

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in the fair value of investments represents the net realized gains (losses) and the net unrealized appreciation (depreciation) of investments. Realized gains (losses) are the difference between the proceeds received and either the cost of the investments sold, determined on an average cost basis, or the fair value at the end of the previous year, whichever is applicable. Unrealized appreciation (depreciation) is the change in the difference between fair value and the cost of investments or the fair value at the end of the previous year, whichever is applicable.

EDI Retirement/Savings Plan

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2011 and 2010

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Benefits Paid to Participants

Benefits paid to participants are recorded by the Plan when paid.

Administrative Fees

Trustee investment fees are paid directly from the Plan's assets. All other Plan administration costs are paid directly by the Plan Sponsor and not charged to the Plan.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The Plan evaluated its December 31, 2011 financial statements for subsequent events through October 12, 2012, the date the financial statements were available to be issued. Subsequent to the plan year end, the Plan Sponsor was acquired by Nordson Corporation ("Acquirer"), with the acquisition completed on June 14, 2012. There has been no determination made by the Acquirer to merge, terminate, or amend the Plan. The Plan is not aware of any other subsequent events which would require recognition or disclosure in the financial statements, except as noted above.

NOTE D – FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

Mutual funds: Valued at the net asset value of shares held by the plan at year-end.

Collective trust: Valued at net asset value based on the fair value of the collective trust's underlying investments at year-end, using net asset value as a practical expedient.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (e) The collective trust's objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. However, there is no assurance that this objective can be achieved.

The following table sets forth a summary of changes in the fair value of the collective trusts for the years ended December 31, 2011 and 2010:

NOTE E – TRUSTEE CERTIFICATION

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Alerus Financial, N.A., the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010.
- Net investment income and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the years ended December 31, 2011 and 2010.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2011.

NOTE F – INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE G – RELATED PARTIES

The Company has been designated as the Plan Administrator and Plan Sponsor. Certain employees of the Company provide administrative services to the Plan. These services are provided at no expense to the Plan. Administrative expenses, such as audit, legal and trustee fees, are paid by the Plan Sponsor.

Certain Plan assets are held in accounts managed by Alerus Financial, N.A., trustee of the Plan. Therefore, these transactions qualify as exempt party-in-interest transactions.
