REPORT OF INDEPENDENT ACCOUNTANTS

To the Plan Administrator
Filtrona Porous Technologies Corp Pension Plan for Hourly Employees
Colonial Heights, Virginia

We were engaged to audit the financial statements and supplemental schedule of the Filtrona Porous Technologies Corp Pension Plan for Hourly Employees (the "Plan") as of December 31, 2011 and 2010 and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by First State Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee of the Plan holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee of the Plan as of December 31, 2011 and 2010 and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

A handwritten signature in black ink, appearing to read "Keiter".

Notes to Financial Statements

1. Description of Plan:

The following description of the Filtrona Porous Technologies Corp Pension Plan for Hourly Employees (the "Plan") provides only general information. Participants should refer to the Plan agreement or summary plan description for a more complete description of the Plan's provisions. Effective January 1, 2011, the Plan, formally named Filtrona Richmond, Inc. Pension Plan for Hourly Employees, was renamed the Filtrona Porous Technologies Corp Pension Plan for Hourly Employees.

General: The Plan is a defined benefit pension plan covering those employees of Filtrona Porous Technologies Corp (the "Company") who meet the eligibility requirements as stated in the Plan. Effective June 1, 2007 the Plan was closed to new entrants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Pension Benefits: Hourly employees working under a union contract, with five or more years of service as defined by the Plan, are entitled to annual pension benefits beginning at normal retirement age (65), equal to the monthly benefit multiplier multiplied by the years of credited service. Credited service is the uninterrupted service from the most recent hire date to the day the employee leaves the employer. The Plan permits early retirement from ages 55 to 64 for employees who have completed ten years of service. Participants can elect to receive their benefits in one of four options: a single, lump-sum distribution if the participant's accrued pension benefit is \$5,000 or less; annuity payments over the lifetime of the participant; annuity payments over the lifetime of the participant and one or more designated beneficiaries; annuity payments over a certain period not extending beyond the joint life and last survivor expectancy of the participant and one or more designated beneficiaries.

Death Benefits: If a participant dies prior to termination of employment but after completing five years of vesting service, the surviving spouse of the deceased participant shall be entitled to a death benefit in the form of survivor's pension benefit. If the participant dies prior to becoming eligible for an early retirement pension benefit, the amount of the survivor's pension benefit shall be equal to fifty percent of the participant's deferred vested retirement pension benefit as of the date of death, reduced for early retirement to the earliest retirement age and reduced for election of a joint and fifty percent of the contingent survivor option in favor of the spouse at the earliest retirement age.

Disability Benefits: If a participant becomes disabled prior to the normal retirement date but after completing five years of vesting service, the participant shall be entitled to a retirement pension benefit equal to seven-eighths of a normal retirement benefit based on credited years of service following the expiration of six months after disability arises. Disability benefits continue until the participant reaches age 65, at which point the participant would receive their normal retirement benefit.

2. Summary of Significant Accounting Policies:

The following are the significant accounting policies followed by the Plan:

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: As further discussed in Note 7, the Plan records investments at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits: Benefits are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and changes therein and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. Changes in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Method of Funding: For 2011 and 2010, the actuarial cost method used in the valuation by the Plan's actuary is the Standard Unit Credit method of funding.

Subsequent Events: Management has evaluated subsequent events through October 2, 2012, the date the financial statements were available to be issued, and has determined that there are no subsequent events to be reported in the accompanying financial statements.

3. Contributions:

The Company's funding policy is designed to fund the Plan's normal costs on a current basis and to fund, over a period not in excess of 30 years, the unfunded past service liability, such that all participants' benefits will be fully provided for by the time they retire. The Company's contributions of \$1,912,000 for 2011 and \$2,560,000 for 2010, meet the minimum funding requirements of ERISA.

4. Plan Termination:

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits for former participants or their beneficiaries who have been receiving for at least three years, or those participants eligible to retire for that three-year period who would have been receiving benefits if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is further limited to the lowest benefit that would be payable under the provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (the "PBGC"), a U.S. governmental agency, up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan would be guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2011 and 2010, that ceiling, which is adjusted periodically, was \$4,500 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

PENSION PLAN FOR HOURLY EMPLOYEES**

Notes to Financial Statements, Continued

4. Plan Termination, Continued:

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and level of benefits guaranteed by the PBGC.

5. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. The accumulated plan benefits for participants are based on demographic assumptions and an assumed interest rate. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon Hewitt and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death, disability, termination, or retirement) between the valuation date and the expected date of payment. Projected years of service are used only to determine eligibility for a benefit in the future. Valuation results are based on the ultimate monthly benefit multiplier of \$49 per year of service.

In accordance with ASC 960, the Company has chosen to present the actuarial present value of accumulated plan benefits and assumptions as of the beginning of the plan years, January 1.

Significant actuarial assumptions used in the valuations as of January 1, 2011 and 2010 were:

Assumed rate of return on investments: 6.76% compounded annually for 2011 and 6.69% for 2010.

Discount rate: 7.80% for the present value of accumulated benefits in 2011 and 2010.

Mortality: For 2011 and 2010, the Static Mortality Table Blended for Annuitants and Non-Annuitants.

**FILTRONA POROUS TECHNOLOGIES CORP
PENSION PLAN FOR HOURLY EMPLOYEES**

Notes to Financial Statements, Continued

5. Actuarial Present Value of Accumulated Plan Benefits, Continued:

Disabled mortality: For 2011 and 2010, the Static Mortality Table Blended for Annuitants and Non-Annuitants.

Surviving spouse benefit: It is assumed that 80% of males and 50% of females have an eligible spouse, and that males are three years older than their spouses.

Retirement: Annual retirement rates are according to the following table:

<u>Age</u>	<u>Annual Retirement Rate</u>
55-57	2%
58	3%
59	4%
60-61	9%
62	25%
63-64	12%
65	100%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefits information as of January 1, 2011 and 2010 are as follows:

	<u>2011</u>	<u>2010</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:

6. Investments, Continued:

The Plan's investments appreciated (depreciated) in fair value as follows:

	2011	2010
Mutual funds	\$ 361,957	\$ 435,302
Common/collective trust funds	(151,603)	1,777,896
Net appreciation in fair value of investments	<u>\$ 210,354</u>	<u>\$ 2,213,198</u>

7. Fair Value Measurements:

The Financial Accounting Standards Board ("FASB") has issued guidance for measurement and disclosure of fair value and establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Quoted prices for similar instruments in active and inactive markets; and model driven valuations with significant inputs and drivers derived from observable active markets.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for investments carried or disclosed at fair value:

Money market funds: Valued at cost, which approximates fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common/collective trusts: Unit value calculated based on the net assets or observable NAV of the underlying pool of securities or investments.

As of December 31, 2011 and 2010, the funds have no unfunded commitments and can be redeemed immediately upon notice with no other redemption restrictions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

**FILTRONA POROUS TECHNOLOGIES CORP
PENSION PLAN FOR HOURLY EMPLOYEES**

Notes to Financial Statements, Continued

7. Fair Value Measurements, Continued:

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Assets at Fair Value		Total

8. Related Party Transactions:

At December 31, 2011 and 2010, several Plan investments are shares of common collective trust funds or mutual funds managed by affiliates of First State Trust Company, the trustee of the Plan, and therefore are considered to be party-in-interest transactions for which statutory exemption exists under the Department of Labor Regulations. Fees paid by the Plan to the trustee amounted to \$116,713 for 2011 and \$105,894 for 2010.

9. Income Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated September 3, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Management has evaluated the effects of accounting guidance related to uncertain income tax positions and has concluded that the Plan had no significant financial statement exposure to uncertain income tax positions at December 31, 2011 and 2010.

10. Risks and Uncertainties:

The Plan provides for investment in various investment securities. Investments are exposed to various risks such as interest rates, market and credit. Due to the level of risk associated with certain investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks could materially affect participants' account balances and the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

11. Financial Information Certified by the Trustee:

Information regarding the following, as of and for the years ended December 31, 2011 and 2010, included in the Plan's financial statements and supplemental schedules, was prepared by First State Trust Company, the trustee of the Plan, which has certified that it is complete and accurate:

Schedule SB, line 22—Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age.

(a) Age	(b) Rate	(c) Weight	(d) Product (a) × (b) × (c)

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

Interest rates	Based on segment rates with a four-month lookback (as of September 2010)
1st segment rate	3.78%
2nd segment rate	6.31%
3rd segment rate	6.57%
Optional payment form election percentage	It is assumed that 100% of participants elect a life annuity.
	For At-risk purposes, a life annuity is assumed to be the most valuable benefit form for females. A Joint and 66-2/3% Survivor Annuity is assumed to be most valuable for males.
Retirement age	
Active participants	See Table 1
Terminated vested participants	Age 65
At-risk assumptions	For at-risk calculations, participants who are eligible to retire within the next 10 years are assumed to retire immediately upon eligibility.
Mortality rates	
Healthy and disabled	2011 static mortality table blended for annuitants and non-annuitants per §1.430(h)(3)-1(e)
Withdrawal rates	See Table 2
Disability rates	None
Decrement timing	Middle of year decrements, with 100% retirement occurring at beginning of year
Surviving spouse benefit	It is assumed that 80% of males and 50% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$195,000.

Valuation of plan assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Early Retirement
Eligibility

Age 55 with 10 years of Vesting Service.

Benefit

Normal Retirement Benefit reduced in accordance with following table:

Age	Reduction Factor	Age	Reduction Factor
64	.97	59	.80
63	.94	58	.75
62	.91	57	.70
61	.88	56	.65
60	.85	55	.60

Disability Retirement
Eligibility

Five years of Vesting Service and total inability to perform work, which entitles the employee to a disability benefit under the Social Security Act.

Benefit

7/8ths of the benefit calculated under the Normal Retirement formula. Benefit ceases upon the earlier of Normal or Early Retirement or death. Normal or Early Retirement Benefits are then payable. Credited service is as of the date of disability.

Vested Benefits
Eligibility

Five years of Vesting Service.

Benefit

Normal Retirement Benefit based on Credited Service as of date of termination. Benefit is payable at age 65. Employees with 10 or more years of Vesting Service may commence their benefits at age 55 or later with an Early Retirement Reduction Factor applied (factors equal to Early Retirement Factors).

Preretirement Surviving Spouse Benefit
Eligibility

Five years of Vesting Service, or eligible for retirement.

Benefit

Fifty percent of the benefit that the participant would have received had he terminated employment on the date of his death and retired with a Joint and 50% Survivor option on his Earliest Retirement Date.

Schedule SB Attachment (Form 5500)—2011 Plan Year

Postretirement Death
Eligibility

Retiree with benefit in payment status.

Benefit

The remaining portion of the benefit will be distributed in the form in which the participant's interest was being paid prior to participant's death.

Credited Service

Service is measured from date of employment. For periods prior to January 1, 1976 service is credited based on the old plan in effect on that date. After December 31, 1975, service is credited each year according to the following table:

Hours	Credited Service
Under 520	0.00
520-959	0.25
960-1,399	0.50
1,400-1,839	0.75
1,840 and above	1.00

Vesting Service

Full year credited for each year in which at least 1,000 hours worked. One fourth of a year credited for years in which at least 520, but less than 1,000 hours worked.

Normal Form of Pension

Married participants

Actuarially reduced Joint and 50% Survivor Annuity.

Other participants

Life Annuity.

Optional Forms of Pension

Life Annuity, Joint and 50% Survivor Annuity, Joint and 66-2/3% Survivor Annuity, and Ten Year Certain and Life Annuity.

Payment of Small Amounts

Non-elective lump sum payment if the Actuarial Equivalent single sum of the benefit does not exceed \$5,000.

Actuarial Equivalent

For other than lump sum calculations: 1983 Group Annuity Mortality table (50% female) with 7.5% interest.

For lump sum calculations: IRC Section 417(e) mortality table for 2010 and interest based on 3 segment yield curve.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Plan Administrator
Filtrona Porous Technologies Corp Pension Plan for Hourly Employees
Colonial Heights, Virginia

We were engaged to audit the financial statements and supplemental schedule of the Filtrona Porous Technologies Corp Pension Plan for Hourly Employees (the "Plan") as of December 31, 2011 and 2010 and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by First State Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee of the Plan holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee of the Plan as of December 31, 2011 and 2010 and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

1. Description of Plan:

The following description of the Filtrona Porous Technologies Corp Pension Plan for Hourly Employees (the "Plan") provides only general information. Participants should refer to the Plan agreement or summary plan description for a more complete description of the Plan's provisions. Effective January 1, 2011, the Plan, formally named Filtrona Richmond, Inc. Pension Plan for Hourly Employees, was renamed the Filtrona Porous Technologies Corp Pension Plan for Hourly Employees.

General: The Plan is a defined benefit pension plan covering those employees of Filtrona Porous Technologies Corp (the "Company") who meet the eligibility requirements as stated in the Plan. Effective June 1, 2007 the Plan was closed to new entrants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Pension Benefits: Hourly employees working under a union contract, with five or more years of service as defined by the Plan, are entitled to annual pension benefits beginning at normal retirement age (65), equal to the monthly benefit multiplier multiplied by the years of credited service. Credited service is the uninterrupted service from the most recent hire date to the day the employee leaves the employer. The Plan permits early retirement from ages 55 to 64 for employees who have completed ten years of service. Participants can elect to receive their benefits in one of four options: a single, lump-sum distribution if the participant's accrued pension benefit is \$5,000 or less; annuity payments over the lifetime of the participant; annuity payments over the lifetime of the participant and one or more designated beneficiaries; annuity payments over a certain period not extending beyond the joint life and last survivor expectancy of the participant and one or more designated beneficiaries.

Death Benefits: If a participant dies prior to termination of employment but after completing five years of vesting service, the surviving spouse of the deceased participant shall be entitled to a death benefit in the form of survivor's pension benefit. If the participant dies prior to becoming eligible for an early retirement pension benefit, the amount of the survivor's pension benefit shall be equal to fifty percent of the participant's deferred vested retirement pension benefit as of the date of death, reduced for early retirement to the earliest retirement age and reduced for election of a joint and fifty percent of the contingent survivor option in favor of the spouse at the earliest retirement age.

Disability Benefits: If a participant becomes disabled prior to the normal retirement date but after completing five years of vesting service, the participant shall be entitled to a retirement pension benefit equal to seven-eighths of a normal retirement benefit based on credited years of service following the expiration of six months after disability arises. Disability benefits continue until the participant reaches age 65, at which point the participant would receive their normal retirement benefit.

2. Summary of Significant Accounting Policies:

The following are the significant accounting policies followed by the Plan:

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: As further discussed in Note 7, the Plan records investments at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits: Benefits are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and changes therein and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. Changes in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Method of Funding: For 2011 and 2010, the actuarial cost method used in the valuation by the Plan's actuary is the Standard Unit Credit method of funding.

Subsequent Events: Management has evaluated subsequent events through October 2, 2012, the date the financial statements were available to be issued, and has determined that there are no subsequent events to be reported in the accompanying financial statements.

3. Contributions:

The Company's funding policy is designed to fund the Plan's normal costs on a current basis and to fund, over a period not in excess of 30 years, the unfunded past service liability, such that all participants' benefits will be fully provided for by the time they retire. The Company's contributions of \$1,912,000 for 2011 and \$2,560,000 for 2010, meet the minimum funding requirements of ERISA.

4. Plan Termination:

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits for former participants or their beneficiaries who have been receiving for at least three years, or those participants eligible to retire for that three-year period who would have been receiving benefits if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is further limited to the lowest benefit that would be payable under the provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (the "PBGC"), a U.S. governmental agency, up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan would be guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2011 and 2010, that ceiling, which is adjusted periodically, was \$4,500 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

**FILTRONA POROUS TECHNOLOGIES CORP
PENSION PLAN FOR HOURLY EMPLOYEES**

Notes to Financial Statements, Continued

4. Plan Termination, Continued:

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and level of benefits guaranteed by the PBGC.

5. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. The accumulated plan benefits for participants are based on demographic assumptions and an assumed interest rate. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon Hewitt and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death, disability, termination, or retirement) between the valuation date and the expected date of payment. Projected years of service are used only to determine eligibility for a benefit in the future. Valuation results are based on the ultimate monthly benefit multiplier of \$49 per year of service.

In accordance with ASC 960, the Company has chosen to present the actuarial present value of accumulated plan benefits and assumptions as of the beginning of the plan years, January 1.

Significant actuarial assumptions used in the valuations as of January 1, 2011 and 2010 were:

Assumed rate of return on investments: 6.76% compounded annually for 2011 and 6.69% for 2010.

Discount rate: 7.80% for the present value of accumulated benefits in 2011 and 2010.

Mortality: For 2011 and 2010, the Static Mortality Table Blended for Annuitants and Non-Annuitants.

**FILTRONA POROUS TECHNOLOGIES CORP
PENSION PLAN FOR HOURLY EMPLOYEES**

Notes to Financial Statements, Continued

5. Actuarial Present Value of Accumulated Plan Benefits, Continued:

Disabled mortality: For 2011 and 2010, the Static Mortality Table Blended for Annuitants and Non-Annuitants.

Surviving spouse benefit: It is assumed that 80% of males and 50% of females have an eligible spouse, and that males are three years older than their spouses.

Retirement: Annual retirement rates are according to the following table:

<u>Age</u>	<u>Annual Retirement Rate</u>
55-57	2%
58	3%
59	4%
60-61	9%
62	25%
63-64	12%
65	100%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefits information as of January 1, 2011 and 2010 are as follows:

	<u>2011</u>	<u>2010</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:

6. Investments, Continued:

The Plan's investments appreciated (depreciated) in fair value as follows:

	2011	2010
Mutual funds	\$ 361,957	\$ 435,302
Common/collective trust funds	(151,603)	1,777,896
Net appreciation in fair value of investments	<u>\$ 210,354</u>	<u>\$ 2,213,198</u>

7. Fair Value Measurements:

The Financial Accounting Standards Board ("FASB") has issued guidance for measurement and disclosure of fair value and establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Quoted prices for similar instruments in active and inactive markets; and model driven valuations with significant inputs and drivers derived from observable active markets.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for investments carried or disclosed at fair value:

Money market funds: Valued at cost, which approximates fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common/collective trusts: Unit value calculated based on the net assets or observable NAV of the underlying pool of securities or investments.

As of December 31, 2011 and 2010, the funds have no unfunded commitments and can be redeemed immediately upon notice with no other redemption restrictions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

7. Fair Value Measurements, Continued:

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Assets at Fair Value		Total
	Level 1	Level 2

8. Related Party Transactions:

At December 31, 2011 and 2010, several Plan investments are shares of common collective trust funds or mutual funds managed by affiliates of First State Trust Company, the trustee of the Plan, and therefore are considered to be party-in-interest transactions for which statutory exemption exists under the Department of Labor Regulations. Fees paid by the Plan to the trustee amounted to \$116,713 for 2011 and \$105,894 for 2010.

9. Income Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated September 3, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Management has evaluated the effects of accounting guidance related to uncertain income tax positions and has concluded that the Plan had no significant financial statement exposure to uncertain income tax positions at December 31, 2011 and 2010.

10. Risks and Uncertainties:

The Plan provides for investment in various investment securities. Investments are exposed to various risks such as interest rates, market and credit. Due to the level of risk associated with certain investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks could materially affect participants' account balances and the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

11. Financial Information Certified by the Trustee:

Information regarding the following, as of and for the years ended December 31, 2011 and 2010, included in the Plan's financial statements and supplemental schedules, was prepared by First State Trust Company, the trustee of the Plan, which has certified that it is complete and accurate:
