1. DESCRIPTION OF PLAN:

The following description of the Mental Health Services for Clark and Madison Counties, Inc. ("Company") Employees' Pension Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service, are age twenty-one or older and have worked at least 1000 hours. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

For each Plan year, the Company shall make a contribution for each participant in the amount of 6.5% of eligible compensation. All contributions are participant directed.

Participant accounts

Each participant's account is credited as each contribution is made. Participants direct the Company's contributions into various investment options offered by the Plan. The Company shall certify to the plan administrator the name of each participant and the amount credited to his account. Allocations of plan earnings are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Vesting in the Company's contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant loans

Participant loans are not permitted.

Payment of benefits

On termination of service due to death, the participant's beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's account, or a monthly retirement benefit for life in the form of an annuity. On termination of service due to disability or retirement, a participant will receive a monthly retirement benefit for life in the form of an annuity or may roll their account over to another qualified plan. Upon termination for other reasons the participant may elect to leave the vested balance in the Plan, take a cash distribution or roll the proceeds into another qualified plan.

If a participant terminates employment and is not eligible to receive a retirement benefit as provided in this Plan, the participant's vested individual participant account under this Plan and nonvested individual participant account under this Plan shall be treated as follows:

If the participant's vested individual participant account under this Plan is not greater than \$1,000, the vested portion of his individual participant account shall be distributed to the participant in a single lump sum payment not earlier than the distribution date coinciding with or immediately following his termination of employment, and any nonvested portion of his individual participant account shall be immediately forfeited.

If the vested portion of the individual participant account under this Plan is greater than \$1,000, the entire vested portion of the individual participant account shall be distributed to the participant, as elected pursuant to Plan Section 10.05(b), provided the participant has so elected pursuant to the terms of Plan Section 10.06(a). If the participant does so elect, then the nonvested portion of his individual participant account will be immediately forfeited. If the participant does not so elect, then any nonvested portion of his individual participant account shall be held in his individual participant account until he incurs five (5) consecutive one year breaks in service, at which time such nonvested portion of his individual participant account shall be immediately forfeited.

Forfeitures

At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$8,612 and \$30,005 respectively. Forfeited amounts are used to reduce future employer contributions. In 2011, \$29,952 in forfeitures were used to reduce employer contributions.

2. SUMMARY OF ACCOUNTING POLICIES:

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative expenses

Certain administrative expenses associated with the Plan's operations are paid by the Plan Sponsor.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through October 4, 2012, the date the financial statements were available to be issued.

3. INVESTMENTS:

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

5. FAIR VALUE MEASUREMENT:

Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan.

Common / collective trusts: The collective trust funds are public investment vehicles valued using a Net Asset Value (NAV) provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded. The significant investment strategies of the funds are as described in the financial statements provided by each fund. There are no restrictions on redemptions from these funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. RELATED PARTY TRANSACTIONS:

Certain Plan investments are interest bearing cash accounts managed by Wilmington Trust Company, the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

7. PLAN TERMINATION:

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. TAX STATUS:

The Internal Revenue Service has determined and informed the Company by a letter dated May 20, 2005, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or assets) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:
