As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 5, which was certified by State Street Bank and Trust, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. Union Pension Plan

Notes to Financial Statements

December 31, 2011

1. Description of the Plan

The following description of the Third Amended and Restated Syracuse China Company Union Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the summary plan description or plan document for more complete information about the Plan, including the vesting and benefit provisions and the benefit guarantee of the Pension Benefit Guarantee Corporation (PBGC). Copies of these documents are available at the corporate office of Libbey Inc. (the Company, Plan Sponsor, and Plan Administrator).

General

The Plan, as amended and restated January 1, 2008, was established effective October 10, 1995, as a result of the purchase of the Syracuse China unit of Susquehanna Pfaltzgraff Co. by the Company. The Plan is a defined benefit plan established to provide normal and early retirement, termination, and death benefits to full-time hourly employees and is intended to provide benefits comparable to the benefits participants would have received under the Syracuse China Corporation Pension Plan (Previous Plan). The Plan was initially funded by a transfer of assets and assumption of obligations of the Previous Plan. As of April 9, 2009, the Syracuse China manufacturing facility ceased operations. The Company intends to continue the Plan and to fund the Plan in accordance with minimum funding requirements.

Contributions

Participants are not permitted to make contributions to the Plan. The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan participants. The Company's present intention is to make annual contributions in amounts sufficient to fund the Plan's current year's service cost. Prior service cost is amortized on a straight-line basis over the expected average remaining service of active participants.

1. Description of the Plan (continued)

Benefits

A participant is entitled to pension benefits beginning at normal retirement age (65) based on a benefit formula amount stipulated by union class in the applicable union contract multiplied by the participant's years of credited service under the Plan or the Previous Plan. Benefits are paid to the participant in the form of a recurring payment. Accrued benefits become vested after completion of 5 years of credited service or the attainment of normal retirement age. Benefits are payable beginning at normal retirement age or in reduced amounts upon early retirement and the completion of 15 years of credited service. Benefits are also payable upon disability, death, or termination of employment.

Funding

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2011 and 2010.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions set forth by ERISA. If the Plan were to terminate at some future time, its assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all. Due to the closure of the Syracuse China manufacturing facility, the Plan experienced a partial plan termination, in which certain employees fully vested to the extent funded on that date, in accordance with plan provisions.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP). Benefit payments to participants are recorded upon approval.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Most significantly, estimates are used in determining the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, to clarify certain existing fair value disclosures and require a number of additional disclosures. The requirement to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

2. Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's assets are included in the Libbey Inc. Master Retirement Trust (the Master Trust) along with the assets of the other pension plans of the Company and certain of its subsidiaries. The Master Trust holds an investment in a Harbor Capital Group Trust for Defined Benefit Plans (Group Trust). The trustee of the Plan is State Street Bank and Trust (State Street). The Group Trust is under a separate trust agreement, along with the assets of the other pension plans of the Company and Owens-Illinois, Inc. and certain of its subsidiaries. The Group Trust assets are invested by designated advisors in various investments, including domestic and foreign corporate equity and debt issues, government securities, and real estate investment trusts. Earnings of the Group Trust are allocated to each plan based on the relative market values of each plan's net assets. These financial statements reflect the Plan's total interest in the net assets and transactions of the Group Trust as allocated by the trustee and any such other investments and transactions related solely to the Plan.

The Master Trust also holds investments in three hedge funds at December 31, 2011. The funds are multi-strategy hedge funds. The investment objective is to achieve long-term equity-like returns with significantly less volatility than the equity markets. The Master Trust seeks to accomplish this investment objective by investing in a diversified portfolio of hedge funds.

The Plan's interests in the funds of the Group Trust are valued at the unit prices established by the trustee. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 3 for further details.

Payment of Benefits

Benefits are recorded when paid.

2. Significant Accounting Policies (continued)

Subsequent Events

Management evaluated subsequent events for the Plan through October 11, 2012, the date the financial statements were available to be issued. Subsequent to year-end 2011, the Company contributed \$79,700,000 to the Master Trust, including \$3,700,787 to the Plan, to fully fund the Company's target obligations under ERISA, which is included in the financial statements at December 31, 2011.

3. Fair Value Measurements

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into three broad levels as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Significant other observable inputs.

Level 3 – Significant unobservable inputs.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

Notes to Financial Statements (continued)

3. Fair Value Measurements (continued)

Master Trust investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2011 and 2010 (Level 1, 2, and 3 inputs are defined above):

December 31, 2011				
Fair Value Measurements				
Using Input Type				
	Level 1	Level 2	Level 3	Total
Master Trust investments:				
Short-term investments	\$ —	\$ 3,158,808	\$ —	\$ 3,158,808
Hedge funds	—	—	30,130,608	30,130,608
Investment in Group Trust	—	187,735,941	—	187,735,941
Total investments measured at fair value	<u>\$ —</u>	<u>\$ 190,894,749</u>	<u>\$ 30,130,608</u>	<u>\$ 221,025,357</u>

December 31, 2010				
Fair Value Measurements				
Using Input Type				
	Level 1	Level 2	Level 3	Total
Master Trust investments:				
Short-term investments	\$ —	\$ 3,070,430	\$ —	\$ 3,070,430
Hedge funds	—	—	27,763,110	27,763,110
Investment in Group Trust	—	175,253,408	—	175,253,408
Total investments measured at fair value	<u>\$ —</u>	<u>\$ 178,323,838</u>	<u>\$ 27,763,110</u>	<u>\$ 206,086,948</u>

Short-term investments represent non-interest-bearing cash accounts or short-term investments that are stated at amortized cost, which approximates fair value. The hedge fund investments are valued by using estimated month-end market value and performance numbers provided by the fund companies. The Plan is required to provide a 30-day advance written notice to liquidate its entire share in the Group Trust and between a 65- to 90-day advance written notice to liquidate certain investments in hedge funds.

Syracuse China Company
Union Pension Plan

Notes to Financial Statements (continued)

3. Fair Value Measurements (continued)

The investment in the Group Trust consists of both equity and fixed income investments. The underlying equity investments are valued at the last reported sales price on their principal exchange on the valuation date, for which the market quotations are readily available. Fixed income investments are valued on a basis of valuations furnished by a trustee-approved independent pricing service, which determines valuations for normal institutional size trading units of such securities that are generally recognized at fair value as determined by the trustee.

Within the Group Trust's investment options, investments in corporate equity and debt issues or government securities are valued at quoted market prices. Foreign investments are valued in local currency at the last quoted sale or bid price on the market where the securities are traded and converted into U.S. dollars at the quoted exchange rates. Real estate investment trusts are valued at quoted market prices. Investments in commercial paper are valued at cost, plus accrued interest, which approximates fair value. Convertible mortgage notes receivable are valued at their principal amounts adjusted for the incremental value of related purchase options. Interest and dividend income are recorded as earned on the accrual basis.

See Note 5 for further information as to the Plan's interest in the Master Trust and the Group Trust.

The following table sets forth a summary of changes in the fair value of the Master Trust's Level 3 investments in hedge funds for the years ended December 31, 2011 and 2010:

	<u>2011</u>	<u>2010</u>
Balance at January 1	\$ 27,763,110	\$ 23,694,100
Purchases	10,663,723	1,989,941
Sales	(6,869,154)	—
Realized and unrealized (losses) gains, net	(1,427,071)	2,079,069
Balance at December 31	<u>\$ 30,130,608</u>	<u>\$ 27,763,110</u>

Realized and unrealized losses and gains relating to both the investment in the Group Trust and investments in hedge funds are recorded in net investment gain from Master Trust in the accompanying statements of changes in net assets available for benefits.

4. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated vested employees or their beneficiaries and (b) participants with deferred benefits or their beneficiaries.

An actuary from Towers Watson estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements for such factors as death, withdrawal, or early retirement) between the valuation date and the expected date of payment. The significant assumptions underlying the actuarial computations are:

Assumed rate of return	8.00% annually
Mortality basis	RP-2000 Mortality Table (projected to 2011, no collar adjustment)
Retirement age	Based on Company experience varying from ages 60–65
Actuarial cost method	Projected unit credit

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated May 22, 2009, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as qualified, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Transactions with Parties in Interest

Fees paid by the Plan for trustee, legal, accounting, and other services rendered by parties in interest were based on customary and reasonable rates for such services.

8. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Third Amended and Restated
Syracuse China Company
Union Pension Plan

Notes to Financial Statements (continued)

8. Risks and Uncertainties (continued)

The Plan's contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan, which consist primarily of trustee fees for investments held outside of the Master Trust, PBGC fees, and actuarial fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Administrative expenses related to the Master Trust are allocated to the Plan and are reflected in the net investment gain from Master Trust. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses are paid by the Company on behalf of the Plan.
