1. Description of Plan:

The following description of The Lia Group ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General:

The Plan, which was started July 1, 1997, is a defined contribution profit sharing plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan was adopted under the provisions of Section 401(a) of the Internal Revenue Code ("IRC") and includes a cash or deferred arrangement as described in Section 401(k) of the IRC. The Plan covers all full-time employees of the Company who have completed twelve months of service, have worked more than 1,000 hours during that period and attained 21 years of age. In addition to The Lia Group, other companies under common ownership are also participating employers of the Plan. Exclusions apply to members of a collective bargaining unit whose retirement benefits are the subject of a collective bargaining agreement that is in full force and effect.

b. Contributions:

Each year participants may defer the maximum amount of pretax annual compensation specified for that year as determined by the Federal Government. For 2011, that amount is $16,500, except for those employees age 50 or older. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company provides matching contributions based on 50% of the participant's deferrals up to 4% of compensation with a maximum contribution of $500.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. Both investment options are provided by Nationwide Life Insurance Company ("Nationwide"). Participants are entitled to unlimited exchange privileges.

c. Participant Accounts:

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions and (b) account earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting:

The discretionary contributions to each participants account are subject to vesting requirements. The discretionary contributions are 100% vested after six years of continuous service. Participants are immediately vested in their voluntary contributions plus actual earnings thereon.

e. Payment of Benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a life annuity or other form of payment permitted under the Plan.

1. Description of Plan (continued):

f. Forfeited Accounts:

Forfeitures are allocated as additional employer matching contributions to eligible participants. At December 31, 2011 and 2010, the forfeited non-vested accounts totaled $2,186 and $4,555, respectively. These forfeitures will be used to reduce future employer contributions. Also in 2011, employer contributions were reduced by $20,255 from forfeited non-vested accounts.

2. Summary of Significant Accounting Policies:

a. Basis of Accounting:

The financial statements of the Plan are prepared using the accrual method of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value. The Statements of Net Assets Available for Benefits present the fair value of the investment contract.

b. Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

c. Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. Net depreciation of the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

d. Payment of Benefits:

Benefits are recorded when paid.

e. Operating Expenses:

Certain expenses of maintaining the Plan are paid by the Company.

f. Subsequent Events:

The plan administrator has evaluated subsequent events through October 3, 2012, the date the financial statements were available to be issued.

3. Fair Value Measurements:

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value ("NAV") of the shares by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Due to the valuation process used, this contract is within Level 3 of the Fair Value Hierarchy under FASB ASC 820.

Employer's contributions receivable: Valued at the obligations' face value which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements (continued):

	Fair Value Measurement at December 31, 2011			
	Level 1	Level 2	Level 3	Fair Value
Fixed account	$ -	$ -	$ 338,800	$ 338,800
Mutual funds	4,727,732	-	-	4,727,732
Total	$ 4,727,732	$ -	$ 338,800	$ 5,066,532

	Fair Value Measurement at December 31, 2010			
	Level 1	Level 2	Level 3	Fair Value
Fixed Account	$ -	$ -	$ 289,657	$ 289,657

Total	$ 4,764,064	$ -	$ 289,657	$ 5,053,721

Level 3 Gains and Losses:

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2011:

	Level 3 Assets
	Indexed Fixed Account
Balance, beginning of year	$ 289,657
Realized gains (losses)	-
Unrealized gains (losses) relating to instruments held at the reporting date	47
Purchases, sales, issuances and settlements (net)	49,096
Balance, end of year	$ 338,800
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses related to assets still held at the reporting date	$ 47

4. Guaranteed Investment Contract With Nationwide Life Insurance Company:

In 2009, the Plan entered into a non benefit-responsive guaranteed investment contract with Nationwide. Nationwide maintains the contributions in a general account. The account is credited with earnings on the underlying investments. Nationwide is contractually obligated to repay principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is considered to be non benefit-responsive, fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the Statements of Net Assets Available for Benefits at fair value.

There are no reserves against contract value for the credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $338,800 and $289.657, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

The contract does not have a maturity date and remains in force until all assets have been distributed, or no further payments are due. The net rate, crediting rate and average yield are the same. For 2011 the average yield was .02% and in 2010 it was .12%.

5. Information Prepared and Certified by the Plan's Custodian (Unaudited):

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Nationwide Financial Services Inc. ("NFS"), except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule of assets held at end of year.

Investments, at fair value:	2011	2010
Guaranteed insurance company investment contract GAP-DO-CQ2P	$ 338,800	$ 289,657
Mutual funds	4,727,732	4,764,064
	$ 5,066,532	$ 5,053,721

The custodian also certified to the completeness and accuracy of the net investment earnings as shown in the accompanying Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2011. The certification also includes all investment related information in the accompanying supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2011.

6. Investments:

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31:

	2011	2010
Indexed fixed contract	$ 338,800	$ 289,657
Amfds Gr Fd Am R6	983,299	1,025,597

Vangrd Wlngton	385,424	472,390
	$ 4,122,868	$ 4,305,600

During 2011, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) depreciated in value by $176,963 as follows:

Mutual funds	$ 176,963

7. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. Risks and Uncertainties:

The Plan invests in various securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Party-in-Interest Transactions:

The Lia Group, Inc. provides to the Plan certain accounting and administrative services for which no fees are charged.

Plan investments include mutual funds and an insurance company investment contract (fixed account) with Nationwide. These assets are held through an investment program offered by Nationwide Financial Services, Inc. ("NFS"). Custodial and record keeping functions are provided by NFS through its subsidiary Nationwide Trust Company, FSB, which is a division of Nationwide Bank. LPL Financial Corporation is the investment advisor and receives commissions on the mutual fund transactions from NFS. Fees paid for transactions to these parties qualify as party-in-interest transactions. The insurance company fixed account is included in the general assets of Nationwide. Fees paid to Nationwide totaled $43,757 and are part of the investment transaction costs incurred by the Plan. In addition, $20,272 was paid from plan assets for investment advisory and management fees to Nationwide.

Creative Pension Consultants, Inc. is the third party administrator and received direct compensation of $19,058 from the plan during 2011.

10. Tax Status:

The Plan is based on a mass-submitter prototype non-standardized cash or deferred profit-sharing plan document. The sponsor of this prototype received notification from the Internal Revenue Service by letter, dated March 31, 2008, that the Plan and related Trust were designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the original opinion letter. However, the plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Federal and State taxing authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

11. Plan Amendments:

Effective January 1, 2011, the Plan was amended by the "mass submitter" on behalf of all adopting employers of the prototype defined contribution plan document, which adopts regulations under Internal Revenue Code Section 401(a)(35). The final regulations under this code section provide certain individuals the right to divest employer securities allocated to their account. Simultaneously with this amendment, a new plan document was adopted. In addition, the Plan was amended to allow participants to make after tax contributions under a Roth 401(k) provision.
