ENDLESS POOLS, INC., 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE A – DESCRIPTION OF PLAN

The following description of the Endless Pools, Inc. ("Company") 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company who have completed three months of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. In 2011, participants may contribute up to $16,500 of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year, and make the maximum allowable tax-deferred contribution, are eligible to make catch-up contributions (maximum of $5,500 in 2011). In addition, participants may make a special elective salary deferral on any bonuses received up to 100% of any bonus. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-six mutual funds as investment options for participants. The Company's matching contribution is 10% of eligible participant deferrals up to 6% of compensation. Additional profit sharing amounts may be contributed at the Company's discretion. These contributions will be allocated among all eligible employees, whether or not they make contributions.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances as defined. Individual accounts may be charged with administrative expenses such as loan maintenance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A graded vesting schedule is in effect with 20% vested after two years of credited service increasing in 20% increments until the participant is 100% vested after six years of credited service. All accounts are 100% vested at the normal retirement age of 65.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or one-half of the vested portion of their account balance. Loans are secured by the balance in the participant's account and bear interest at a reasonable rate based on a review of interest rates charged for similar types of loans by other lenders. In 2011, the interest rates for outstanding participant loans range from 4.75% to 8.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits. On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Upon attaining the age of 59½, in-service distributions may be made from the fully vested portion of a participant's account.

Forfeited Accounts. At December 31, 2011 and 2010, forfeited non-vested accounts totaled $28,672 and $25,678, respectively. These accounts will be used to reduce future employer contributions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through October 12, 2012, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses. The Plan sponsor pays the majority of Plan expenses. Certain fees such as loan origination fees, loan maintenance fees, and distribution processing fees are deducted from individual participant's accounts.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of the guaranteed investment contract is reported based upon observable inputs, including the Plan's assumptions as to what market participants would use in pricing such instruments.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010.

NOTE D – INVESTMENTS

Unaudited Information Prepared and Certified by ING Life Insurance and Annuity Company

Except for its investment contract with ING Life Insurance and Annuity Company (ILIAC) (Note E), the Plan's investments are held in an unallocated, pooled separate account with ILIAC. The December 31, 2011 and 2010 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by ILIAC in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified includes total investments of $3,798,079 and $3,724,582 at December 31, 2011 and 2010, respectively, and related losses of $145,545 for the year ended December 31, 2011.

The following presents investments that represent 5 percent or more of the Plan's net assets.

	December 31, 2011	December 31, 2010
The Growth Fund of America	$ 511,317	$ 621,627
Oppenheimer International Bond Fund	427,462	**

ING Money Market Portfolio	198,339	252,785

*Investment was not greater than 5%.
** All funds in ING Global Bond Portfolio transferred to Oppenheimer International Bond Fund on September 8, 2011.
***The fair value of the Plan's investment in the ING Fixed Account was $261,833 and $188,568 at December 31 2011 and 2010 respectively.

During the year ended December 31, 2011, the plan's investments depreciated in value by $148,730.

NOTE E – INVESTMENT CONTRACT WITH INSURANCE COMPANY

As of December 31, 2011, the Plan maintained one GIC related investment option, the ING Fixed Account. The contract underlying this investment option is considered to be fully benefit-responsive in accordance with ASC Topic 962. The contract value of the investment contract at December 31, 2011 and 2010 was $248,074 and $186,791, respectively.

The average yield based on actual interest credited to participants for the contract for the years ended December 31, 2011 and 2010 were 3.00% and 3.15%, respectively. The crediting interest rates to the participants for the years ended December 31, 2011 and 2010 were 3.00% and 3.15%, respectively. The guaranteed minimum crediting interest rates for the contract years ended December 31, 2011 and 2010 were 3.00% and 3.00% respectively. ILIAC makes this guarantee, and although ILIAC may credit a higher interest rate, the credited rate will never fall below the lifetime guaranteed minimum of 3.00%.

ILIAC's determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment interest earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder.

The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not

believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

ILIAC, the GIC issuer, has the option to payout the current value of the contract only after completion of five contract years.

NOTE F – RELATED PARTY TRANSACTIONS

There were no reportable related party or party-in-interest transactions for the audit period.

NOTE G – EXCESS CONTRIBUTIONS

Contributions received from participants for 2011 are net of payments of $10,185 made in 2012 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2011.

NOTE H – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of full Plan termination, participants would become 100% vested in their employer contributions.

In 2008, a partial plan termination occurred because the participant turnover rate exceeded 20% as a result of layoffs. All participants affected by the partial plan termination became 100% vested in their employer contributions.

NOTE I – TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008, that the Plan is acceptable in under section 401 of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE J – RECONCILIATION OF FINANCIAL TO THE FORM 5500

The following is a reconciliation of net assets available for benefits and the changes in net assets available for benefits per the financial statements to the Form 5500.

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements for the year ended December 31, 2011 to Schedule H of Form 5500.

	Year Ended December 31, 2011
Additions to net assets per the financial statements	$ 51,729
Change in excess contributions netted with participant's contributions	1,973
Net income per Form 5500	$ 53,702

NOTE K – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE L – NONDISCRIMINATION TESTING

In 2011 and 2010, the Plan failed the actual deferral percentage (ADP) nondiscrimination test but passed the actual contribution percentage (ACP) nondiscrimination test for non-excludable employees. Corrective measures were employed so that nondiscrimination criteria were met. These measures include recharacterizing a portion of employee contributions as catch-up contributions for highly compensated employees over age 50 and refunding a portion of employee contributions for some of the remaining highly compensated employees. A highly compensated employee is one that was a more-than-5% owner at any time during 2011 or 2010 (the look-back year) or had compensation greater than $110,000 in the look-back year.
