NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

1. DESCRIPTION OF PLAN

The following description of the Azteca Enterprises, Inc. and Affiliated Subsidiary Companies (the "Company") Prototype 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and an insurance investment contract as investment options for participants. The Company's contributions are discretionary and determined by the board of directors. During 2011, the Company elected to contribute ten percent of a participant's salary deferral limited to one percent of a participant's gross weekly wages. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and (c) charged with an allocation of

administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after two years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25 percent, which is commensurate with local prevailing rates as determined by the plan sponsor. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or any other reasons, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, as a direct rollover to an individual retirement account, or to another employer's qualified plan.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$3,436 and \$1,692, respectively. These accounts may be used to pay for administrative expenses of the Plan or to reduce future employer contributions. Also, in 2011, forfeitures totaling \$1,108 were applied to administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents fair value of the investment contracts as well as the adjustment of fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income on the investment contracts account is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company absorbs a significant portion of the recordkeeping costs of the Plan.

Subsequent Events

The Plan's management has evaluated subsequent events through October 15, 2012, the date the financial statements were available to be issued. See Note 13 for further discussion.

3. INVESTMENTS

The following investments were held by the Plan at December 31, 2011 and 2010. Investments representing 5 percent or more of the Plan's net assets have been separately stated:

	December 31,	
	2011	2010
ING Fixed Account	\$ 551,237	\$ 386,594
ING Money Market	180,075	211,834
Fidelity VIP Growth	136,952	124,958
ING Solution 2025 Portforlio	135,250	137,814
ING Oppenheimer Global Portfolio	**	103,312
ING Index Plus MidCap Portfolio	**	101,152
Other Investments	879,316	680,885
Total investments at fair value	<u>\$ 1,882,830</u>	<u>\$ 1,746,549</u>

** Value does not represent 5 percent or more of the Plan's net assets as of the respective date.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: Valued at their accumulation unit value (“AUV”). The separate account is valued daily as the number of accumulation units held multiplied by the AUV. AUV is determined based on the combination of the accounts’ net asset value (“NAV”) and the separate account charges. NAV is calculated each business day as of the close of regular trading on the New York Stock Exchange, generally 4 p.m. Eastern time. The separate account charge is communicated to plan management in the contract and applicable notice of change.

Insurance contract: Valued daily based on the credited rate. Market value adjustments or surrender charges are based on formulas and schedules disclosed in the contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2011 and 2010:

Fair Value Measurements at December 31, 2011				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ 1,331,593	\$ -	\$ -	\$ 1,331,593

Total investments at fair value	<u>\$ 1,331,593</u>	<u>\$ 551,237</u>	<u>\$ -</u>	<u>\$ 1,882,830</u>

Fair Value Measurements at December 31, 2010				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ 1,359,955	\$ -	\$ -	\$ 1,359,955

Total investments at fair value	<u>\$ 1,359,955</u>	<u>\$ 386,594</u>	<u>\$ -</u>	<u>\$ 1,746,549</u>

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The custodian has certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate at December 31, 2011 and 2010, and for the year ended December 31, 2011.

	2011	2010
Pooled separate accounts	\$ 1,331,593	\$ 1,359,955
Insurance contract	551,237	386,594
Total investments	<u>\$ 1,882,830</u>	<u>\$ 1,746,549</u>
Net depreciation in fair value of pooled separate accounts	<u>\$ (26,958)</u>	
Interest, insurance contract	<u>\$ 12,160</u>	

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan participates in a benefit responsive investment contract, ING Fixed Account, with ING Life Insurance and Annuity Company (“ING”). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at the net assets available for benefits. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$551,237 and \$386,594, respectively. The crediting interest rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum credit interest rate, 3 percent, and prevailing market conditions. Such interest rates are reviewed on a quarterly basis for resetting.

The plan sponsor has not identified any events that limit the ability of the Plan to transact at contract value with the guaranteed investment contract issuer. The contract does not define any circumstances which would permit the guaranteed investment contract issuer to terminate the contract at a value different from contract value.

	<u>2011</u>	<u>2010</u>
Average yields:		
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

7. RELATED PARTY TRANSACTIONS

ING Life Insurance and Annuity Company, who is the custodian of the Plan, is responsible for the custody and management of the Plan's investments, and therefore, these transactions qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Fees paid by the Plan for custodial services are included in administrative expenses in the accompanying financial statements. Fees paid by the Plan for the investment management services are included in net depreciation in fair value of pooled separate accounts in the accompanying financial statements.

Plan transactions and records are administered by Daily Access Corporation who is the recordkeeper of the Plan; therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees paid by the Plan for these services are included in administrative expenses in the accompanying financial statements. As stated previously, the Company absorbs a significant portion of the recordkeeping costs of the Plan.

8. INACTIVE PARTICIPANTS WITH ACCOUNT BALANCES

At December 31, 2011 and 2010, the value of the accounts held by participants who have separated from employment with the Company and have decided to keep their accounts in the Plan totals \$241,915 and \$331,891, respectively. For the year ended December 31, 2011, there were no distributions requested but not paid to participants who have elected to withdraw from the Plan.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in the company contribution portion of their account.

10. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, plan management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing jurisdictions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2008.

11. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

12. EXCESS CONTRIBUTIONS PAYABLE

At December 31, 2011 and 2010, a payable of \$10,579 and \$22,558, respectively, was recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

13. SUBSEQUENT EVENTS

Effective January 1, 2012, the Company adopted the Texo Members 401(k) Plan and merged the assets of the Azteca Enterprises, Inc. & Affiliated Subsidiary Companies Prototype 401(k) Profit Sharing Plan into this multi-employer plan arrangement.
