Independent Auditor's Report

To the Plan Trustee
Mario Sinacola & Sons Excavating, Inc.
401(k) Plan

We were engaged to audit the financial statements and supplemental schedule of Mario Sinacola & Sons Excavating, Inc. 401(k) Plan (the "Plan") as of December 31, 2011 and 2010 and for the year ended December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust), the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Custodian hold the Plan's investment assets and participant notes receivable and execute related transactions. The plan administrator has obtained certifications from Principal Trust, as of December 31, 2011 and 2010 and for the year ended December 31, 2011 that the information provided to the plan administrator by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of the Plan

The following brief description of Mario Sinacola & Sons Excavating, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General - The Plan is a defined contribution plan established January 1, 2000 by Mario Sinacola & Sons Excavating, Inc. (the "Company"); therefore, the benefits are not insured by the Pension Benefit Guaranty Corporation. All employees of the Company are eligible to participate after completing six months of service and attaining 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Vesting - Participants are immediately vested in participant and Company contributions to the Plan.

Contributions - Contributions to the Plan are invested as directed by each participant in any one or more investment alternatives. Participants make payroll deductions based on a dollar amount or a percentage, not to exceed 20 percent, of the employee's compensation up to the maximum allowed under the Internal Revenue Code. The Company matches 100 percent of participant contributions up to 3 percent of the participants' compensation plus 50 percent of participants' contributions up to the next 2 percent of participants' compensation. Effective January 1, 2010, the Company suspended the matching contributions to the Plan. Effective January 1, 2012, the matching contribution was reinstated, equal to a 50 percent match of employee deferrals, up to 4 percent of the participant's compensation.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Company contribution, plan earnings, and an allocation of plan expenses. Allocation of plan earnings to participant accounts is based on the participant's proportionate share of funds in each of the investment accounts. Plan expenses are allocated based on each participant's proportionate share of funds in each of the investment accounts and annual fees that are allocated directly to each participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account and are recorded when paid.

Transactions with Parties-in-interest - Certain plan investments are managed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust). Principal Trust is the custodian as defined in the Plan; therefore, these transactions qualify as party-in-interest transactions. Additionally, the Plan sponsor pays certain administrative expenses of the Plan.

Note 1 - Plan Description (Continued)

Participant Notes Receivable - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of the participants' deferral amount plus earnings. Notes receivable are amortized over a period not to exceed five years (10 years if for the purchase of a principal residence). The notes receivable are collateralized by the balance in the participant's account and bear a reasonable rate of interest. The interest rate in effect when the loan is granted will remain in effect for the life of the loan.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for the common collective trust fund investment, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on discounting the related cash flows of the underlying investments based on current yields of similar instruments with comparable durations. Investments in pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying assets. All other investments are valued based on quoted market prices. See Note 7 for further information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participants notes receivable are written off when deemed uncollectible.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 8, 2012, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the prototype plan, as designed, qualifies for federal income tax-exempt status. The Plan has not individually sought a determination letter from the IRS on its qualification status.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2008.

Note 4 - Unaudited Information

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust) (the "Custodian") hold the Plan's investments and participant notes receivable and execute all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Investments that exceed 5 percent of end of year net assets are as follows:

	2011	2010
Pooled separate accounts - At fair value:		
Principal Lifetime 2010	$ 764,165	$ 714,480
Principal Lifetime 2020	1,963,036	1,912,957
Principal Lifetime 2030	2,402,904	2,489,135
Principal Lifetime 2040	683,350	681,879
Common collective trust fund - At contract value -		
Principal Stable Value Fund	1,039,863	878,064

Note 5 - Plan Termination

Although it has not expressed an intent to do so, the Company has the right, under the Plan, to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations.

Note 6 - Reconciliation to Form 5500

As of December 31, 2011 and 2010, the net assets on the financial statements differ from the net assets on Form 5500 due to a common collective trust fund being recorded at contract value on the financial statements and at fair value on Form 5500. The net assets on the financial statements were lower than those on Form 5500 at December 31, 2011 and 2010 by $24,179 and $17,934, respectively. Additionally, the net income reported on Form 5500 for the year ended December 31, 2011 is higher than net increase reported on the financial statements by $6,249.

Note 7 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2011 and 2010 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(1) This class represents investments in an actively managed common collective trust fund that invests primarily in investment contracts, a variety of fixed-income investments which may include corporate bonds, both U.S. and non-U.S. municipal securities, and wrapper contracts. Investments are valued at the fair value per share multiplied by the number of shares held as of the measurement date.

(2) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities which may include common stocks, options, and futures. At year end, there are no unfunded commitments or other redemption restrictions related to the investments.

(3) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures. At year end, there are no unfunded commitments or other redemption restrictions related to the investments.
