INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Honda of San Marcos 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for plan benefits of the Honda of San Marcos 401(k) Plan as of December 31, 2011 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2011 and the supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year), referred to as "supplemental information", as of or for the year ended December 31, 2011. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note J, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan, except for comparing the information with the related information included in the 2011 and 2010 financial statements and supplemental schedule. We have performed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of Honda of San Marcos 401(k) Plan as of December 31, 2010. We have not audited or reviewed the accompanying statement of net assets available for benefits and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

Plan management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

A. DESCRIPTION OF THE PLAN

The following description of the Honda of San Marcos 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Administration

The Plan is administered by an administrative committee appointed by the Company. Benefit Systems, Inc. is the administrator and ING Life Insurance and Annuity Company is the custodian of the Plan's investments. The Plan has adopted the Benefit Systems, Inc. Volume Submitter Profit Sharing Plan.

Participation

The Plan is a defined contribution plan covering all employees of Honda of San Marcos (the "Company"), except employees covered by a collective bargaining agreement between the employer and employee representatives whereas their benefits are subject of good faith bargaining, employees who are nonresident aliens and receive no earned income from source within the United States, and leased employees. Participants will be eligible to participate for salary deferrals when they have satisfied one year of service and have attained the age of 18. Employees may begin participating in the Plan once the eligibility requirements have been met and the entry date has been reached. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute up to the maximum percentage allowable not to exceed the limits of Code Sections 401(k), 402(g), 404 and 415, limited to $245,000 in 2011 subject to certain limitations under the Internal Revenue Code of 1986, as amended. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty two pooled separate accounts and one fixed account as investment options for participants. The Company may make matching contributions equal to a uniform percentage of the participant salary deferrals. Additionally, the Company may make a discretionary profit sharing contribution to be determined by the Company.

Participant's accounts

Each participant's account is credited with the participant's contribution, rollover contribution, if any, and matching contribution and allocations of Plan earnings or losses, net of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. DESCRIPTION OF THE PLAN - CONTINUED

Vesting

Participants are vested immediately in their elective deferrals, and rollover contributions, if any, plus actual earnings thereon. Vesting in the Company's matching contribution and discretionary profit sharing portion of their accounts is based on years of continuous service. Participants vest according to the following schedule:

Completed years of service	Vested Percentage
1 year	0%
2 year	20%
3 year	40%
4 year	60%
5 year	80%
6 year	100%

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years. However, if the loan is for the purchase of your principal residence, the Administrator may permit a longer payment term. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates on loans outstanding at December 31, 2011 range from 4.25 to 5.00%. Unless approved by the Administrator, loans are repaid through payroll deduction. The loans provide for level amortization with payments to be made not less frequently than quarterly.

Forfeited accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $11,567 and $5,252, respectively. These accounts will be used to reduce future employer contributions or pay administrative expenses. No forfeitures were used to fund the employer contribution during 2011.

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investments contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of contributions, benefit payments and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation in fair value of investments includes realized gains and losses on units sold during the year and unrealized appreciation (depreciation) of units held at the end of the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The plan has evaluated subsequent events through October 9, 2012, the date the financial statements were available to be issued.

B. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES – CONTINUED

Administrative expenses

Custodial and recordkeeping fees charged are paid by the Company and are not charged to the Plan. Participant loan initiation and maintenance fees are paid by the applicable participant.

C. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plans net assets at:

	December 31, 2011	December 31, 2010
American Balanced Fund	$ 649,106	$ 598,541
ING fixed account(contract value)	164,867	132,391
ING Solution 2015	197,973	170,835
ING Solution 2025	150,424	151,734
ING Solution 2035	262,509	222,806
ING Solution 2045	173,856	168,327

During 2011, the plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $18,909 as follows:

	December 31, 2011
Pooled separate accounts	$ (18,909)
	$ (18,909)

D. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

D. FAIR VALUE MEASUREMENTS - CONTINUED

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common stocks, corporate bonds, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

D. FAIR VALUE MEASUREMENTS - CONTINUED

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Assets at fair value at December 31, 2011:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Targeted retirement funds		$ 793,400		$ 793,400
Blended funds		770,975		770,975
Growth funds		60,658		60,658
Value funds		8,037		8,037
ING fixed account		177,059		177,059
Total assets at fair value		$ 1,810,129		$ 1,810,129

Assets at fair value at December 31, 2010:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Targeted retirement funds		$ 713,702		$ 713,702
Blended funds		701,067		701,067
Growth funds		21,884		21,884
Value funds		2,577		2,577
ING fixed account		134,279		134,279
Total assets at fair value		$ 1,573,509		$ 1,573,509

E. RELATED PARTY TRANSACTIONS

During 2011 and 2010, the Plan investments were pooled separate accounts managed by ING Life Insurance and Annuity Company. ING is a custodian as defined by the Plan and, therefore, a party in interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited" transaction provisions of ERISA and the IRC.

F. PLAN TERMINATION

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

G. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Management is not aware of any tax positions that would have a significant impact on its financial position. Its federal tax returns for the last 4 years remain subject to examination.

H. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. CUSTODIAL CERTIFICATION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications for the custodians that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and notes to financial statements as to investments, net appreciation in fair value of investments, and all the information on the schedule H, line 4i-schedule of assets (held at end of year) is presented in reliance solely upon those certifications. No auditing procedures were performed by the independent auditors with respect to this information.

The following represents information certified by the custodian to be complete and accurate:

	December 31, 2011	December 31, 2010
Investments, at fair value	$ 1,810,129	$ 1,655,572

J. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a benefit-responsive investment contract with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statement of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2011 and 2010 was $177,059 and $134,279, respectively. The average yield and crediting interest rates were 3% and 3% for 2011 and 2010, respectively. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with ING. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.
