We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and participant notes receivable and executes related transactions. The plan administrator has obtained a certification from the Trustee as of December 31, 2011 and 2010 and for the year ended December 31, 2011 that the information provided to the plan administrator by the Trustee is complete and accurate.

Chief Supermarkets Non-Union 401(k) Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 1 - Plan Description

The following description of Chief Supermarkets Non-Union 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan that provides benefits to eligible participants as determined according to the provisions of the plan agreement. Employees of Chief Super Market, Inc. (the "Company") and certain employees of certain affiliated companies not subject to collective bargaining agreements are eligible to participate in the Plan after attaining the age of 20½ and completing one hour of service as of the entry dates as defined in the plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company provides for discretionary employer-matching contributions of 75 percent of the first 8 percent of the participants' eligible compensation contributed to the Plan. The Company made discretionary employer-matching contributions totaling \$292,879 during the year ended December 31, 2011.

The Company may also make additional profit-sharing contributions to the Plan based on financial performance goals of the Company. These additional contributions are made regardless of whether the employee makes elective deferrals to the Plan. The Company did not make any profit-sharing contributions during the year ended December 31, 2011.

Eligible participants must be employed on the last day of the year and have worked at least 1,000 hours in the plan year to receive the Company-matching and profit-sharing contributions. Participants terminated during the plan year due to retirement, death, or disability will also receive an allocation.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Notes to Financial Statements December 31, 2011 and 2010

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in matching and profit-sharing contributions 20 percent after two years of service and an additional 20 percent per year thereafter until they become fully vested after six years of service.

Benefit Payments - Distributions are payable upon retirement, attainment of retirement age, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions. There was no balance in the forfeiture account at December 31, 2011 and 2010.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of 50 percent of their account balance, not to exceed \$50,000. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Termination - While it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by The Standard Insurance Company or its affiliates. The Standard Insurance Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its benefit-responsive unallocated insurance contract, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the unallocated insurance contract is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. Investments in pooled separate accounts are valued at the net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. See Note 6 for additional information.

Chief Supermarkets Non-Union 401(k) Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 8, 2012, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2008.

Notes to Financial Statements December 31, 2011 and 2010

Note 4 - Unaudited Information

The Standard Insurance Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year is based solely on information provided by the Trustee.

Significant investments as of year end are as follows:

Note 5 - Unallocated Insurance Contract

The Plan has a benefit-responsive investment contract with The Standard Insurance Company. The Standard Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Chief Supermarkets Non-Union 401(k) Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 5 - Unallocated Insurance Contract (Continued)

Interest is credited on contract balances using a single “portfolio rate” approach. Under this methodology, a single interest rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a monthly basis for resetting. When establishing interest credit rates for this product, The Standard Insurance Company considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer’s general account. The minimum crediting rate under the contract is 0 percent.

Certain events may limit the ability of the Plan to transact at contract value. Such events include termination of the contract, spinoffs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply.

The Standard Insurance Company may terminate the contract with 30 days' advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least \$25,000, plan disqualification, and failure to adopt the Plan in a reasonable period of time. Upon termination by The Standard Insurance Company, a market value adjustment may apply.

Average yields at December 31, 2011 and 2010 are as follows:

	2011	2010
Average yield earned by the Plan	2.22 %	2.87 %
Average yield credited to participants	2.22 %	2.87 %

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan’s assets measured at fair value on a recurring basis at December 31, 2011 and 2010 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Chief Supermarkets Non-Union 401(k) Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 6 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs for the unallocated insurance contract include specific terms and contractual provisions outlined in the contract including the effective interest rate.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Chief Supermarkets Non-Union 401(k) Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 6 - Fair Value Measurements (Continued)

- (2) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.
- (3) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

There were no unfunded commitments or redemption restrictions on the investments described above.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2011.

Changes in Level 3 assets measured at fair value on a recurring basis for the years ended December 31, 2011 are as follows:

	Unallocated Insurance Contract
Balance at January 1, 2011	\$ 1,964,023
Purchases	167,304
Sales	(112,183)
Total unrealized gains	<u>143,648</u>
Balance at December 31, 2011	<u><u>\$ 2,162,792</u></u>

Of the Level 3 assets still held by the Plan at December 31, 2011, the unrealized gains for the year ended December 31, 2011 were \$143,648, which is recognized in the statement of changes in net assets.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.
