401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

Note A - Description of Plan

The following description of the Orr, Inc. ("Company") or ("Employer") 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General. The plan is a defined contribution plan covering all full-time employees of the Company who have six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. The Employer may make annual discretionary profit sharing contributions in an amount to be determined at the Plan year-end by the Board of Directors. The employee must meet the eligibility requirements to participate in the Plan and be employed at the end of the year to be eligible for any employer profit sharing contributions made for the Plan Year. Profit sharing contributions are allocated in the ratio that an employee's eligible compensation bears to the total compensation paid to all eligible participants for the Plan Year. No employer contributions were made during the year. Each year, participants may contribute between 1% and 60% of pretax annual compensation, as defined in the Plan. Also, if the participant is over age 50, the participant may contribute an additional salary deferral, pre-tax contributions to the Plan up to the IRS Catch Up Provision Limit. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. All contributions are invested according the various investment options selected by the employee. The Plan intends to qualify as a participant-directed account plan under section 404 (c) of the Employee Retirement Income Security Act (ERISA) of 1974.

Participant Accounts. Each participant's account is credited with the participant's contribution and earnings and an allocation of the Company's contribution. Allocations are based on participant eligible compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits. On termination of employment, retirement, or disability the participant may take a lump sum or installment distribution from the Plan. In the event of death the beneficiary will receive the distribution from the Plan.

Vesting. Participants are immediately vested in their own voluntary contributions to their account and any rollover accounts plus the actual earnings thereon.

Investment Options. The trustee, Fidelity Management Trust Company, is responsible for holding the Plan assets. Upon enrollment in the Plan, a participant may direct employee and employer contributions in any investment options. The election allows the participant to allocate their funds among the variable portfolios to take advantage of what each investment option has to offer and help balance different types of risks. The values of the variable portfolios may increase or decrease on any day. Participants may change their investment options at any time. The Plan is intended to be a participant-directed plan as described in 404 (c) of the Employee Retirement Income Security Act (ERISA) of 1974, and Labor Regulations governing section 404 (c) plans. This means that fiduciaries of the Plan are ordinarily relieved of the liability for any losses which are the direct and necessary result of investment instructions given by a participant or beneficiary under the participant-directed investment feature of the Plan.

Participant Loans. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. All loans must be paid back within five years unless it is for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 7.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through weekly or monthly payroll deductions. At December 31, 2011 and 2010, there was $100,951and $85,328, respectively of participant notes receivable outstanding.

Operating and Administrative Expenses. The Company absorbed all of costs of plan operating and administrative expenses except the cost related to participant loan initial set up fees, participant loan quarterly maintenance fees and outside fund fees for the year ended December 31, 2011.

Note B - Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value. If available, quoted prices are used to value investments. Participant note receivables are valued at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. See Note F for discussion of fair value measurements.

Note C - Tax Status

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

SFAS No. 157, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only when Level 1 or Level 2 inputs are not available.

Level 1 Fair Value Measurements

The fair values of U. S. Government Money-Market Portfolios and Registered Investment Companies (mutual funds) are based on quoted market prices, when available.

Note G - Plan Termination

Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to modify benefits provided to active employees, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note H - Reconciliation of Financial Statements to Schedule H of Form 5500

The financial statements reflect receivables for participant contributions for 2011 and 2010. The 5500 did not reflect the receivables in 2010.

The following is a reconciliation of the net assets available for benefits according to the financial statements at year-end to Schedule H of Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	$ 2,089,810	$ 2,065,662
Receivable employee contributions		(7,989)
Net assets available for benefits per Schedule H of Form 5500	$ 2,089,810	$ 2,057,673

The following is a reconciliation of the contribution income according to the financial statements for the year-ended to Schedule H of Form 5500:

	2011
Contributions per the financial statements	$ 302,394
(Increase) decrease in receivables:	
Employee contributions	7,989
Contributions per Schedule H of Form 5500	$ 310,383

Note I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note J—Restatements

In the prior year, the financial statements did not reflect the accounts receivable from employee contributions. The financial statements have been restated to correctly reflect the employee contributions receivable for the prior year.

Note K – Subsequent Events

In reviewing its financial statements, management has evaluated events subsequent to the balance sheet date through October 12, 2012, which is the financial statements issuance date.
