FARNSWORTH GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 - PLAN DESCRIPTION

The following description of the Farnsworth Group, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan adopted by Farnsworth Group, Inc. (Employer) effective October 1, 1984. The Plan covers all employees of Farnsworth Group, Inc. who have attained the age of 21 years. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan includes 401(k) accounts for employee and employer matching contributions, and provides for participant-directed investment accounts through Principal Life Insurance Company (Principal) and Delaware Charter Guarantee & Trust Company (Delaware Charter).

Contributions

Employees may make voluntary contributions to the Plan not to exceed 20 percent of their compensation per pay period. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

During 2011 and 2010, the Employer contributed 50 percent of the first 5 percent of eligible compensation that a participant contributes to the Plan.

The Employer may make additional discretionary contributions. The Employer's additional discretionary contributions are allocated to each participant based upon each participant's compensation. During 2011 and 2010, discretionary contributions were 2 percent of each participant's eligible compensation.

The Plan allows for rollover contributions from other retirement plans.

Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution and allocations of (a) the Employer's matching and discretionary contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - PLAN DESCRIPTION (CONTINUED)

Vesting

All participant contributions, rollover contributions, and earnings thereon are immediately 100 percent vested.

Participants become 100 percent vested in the Employer contributions and earnings after two years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their account balance, whichever is less. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms shall not exceed 5 years, unless the loan qualifies as a "home loan." The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25 to 10.00 percent, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Investment Options

Participants of the Plan elect investment accounts in which their contributions are invested. Twenty-seven investment account options are currently in use, comprising various degrees of risk and return.

Payment of Benefits

Upon retirement, disability, death, termination of employment, hardship, and upon the participant reaching the normal retirement age of 59-1/2, participants may receive their distribution in a lump sum or rollover as soon as administratively feasible following the date on which a distribution is requested or is otherwise payable.

If a terminating participant's vested account balance does not exceed $1,000, the Plan will distribute the benefit in a lump sum as soon as administratively practicable. Vested account balances exceeding $1,000 are paid at the participant's discretion, or can be left in the Plan until such time the participant wishes to withdraw it, with the account continuing to share in the trust fund income and losses. Distribution cannot be delayed past April 1 following the year that the participant attains age 70-1/2.

Administration

The Plan administrator is the Employer. Certain administrative expenses for the Plan are paid by the Employer at the Employer's discretion. Investment and loan fees are paid by the Plan.

NOTE 1 - PLAN DESCRIPTION (CONTINUED)

Forfeitures

Forfeited balances of terminated participants' nonvested accounts are used to pay administrative expenses of the Plan and are used to reduce future Company contributions. At December 31, 2011 and 2010, the Plan had $1,221 and $-0- , respectively, of forfeitures that had not been applied. For the years ended December 31, 2011 and 2010, the Plan applied $26,545 and $37,009, respectively, of forfeitures to reduce administrative expenses of the Plan and Employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments

Pooled Separate Accounts, Common/Collective Trusts, and Mutual Funds

Investments in pooled separate accounts and mutual funds are stated at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value is determined by quoted market prices. The fair value of the common/collective trust is based on the fair value of the underlying investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments (Continued)

Pooled Separate Accounts, Common/Collective Trusts, and Mutual Funds (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Contributions

Contributions are accrued in the year in which the contributions are determined to be payable by the Employer.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - FAIR VALUE MEASUREMENTS

In determining fair value, the Plan uses various valuation approaches within the required fair value measurement framework. Fair value measurements are determined based on the assumptions that market participants would use in pricing an asset or liability.

Generally accepted accounting principles (GAAP) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for instruments measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled Separate Accounts and Mutual Funds

Valued at the net asset value of shares held by the Plan at year end.

There are no unfunded commitments related to any of the pooled separate accounts. The pooled separate accounts may be subject to redemption fees based on a minimum required holding period determined by the underlying mutual fund company.

Common/Collective Trust

Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

There are no unfunded commitments related to any of the common/collective trust or the underlying portfolios. Contributions, withdrawals, and transfers to and from the common/collective trust may be postponed, without prior notice to the extent deemed appropriate because of restrictions in trading of the share or units of the underlying portfolios. The underlying portfolios do not have any initial or subsequent investment minimums. However, permitted accounts may impose investment minimums. The underlying portfolios may stop offering shares completely or may offer shares only on a limited basis, for a period of time or permanently. There are no stated restrictions on redemptions other than the ability of the underlying portfolios to sell liquid investments in order to meet redemption requests.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the nature of the categories of pooled separate accounts by major security type.

Equity: This asset class is generally comprised of investment options that invest in shares of ownership in large and mid-size companies.

Balanced: This asset class is generally comprised of investment options that may invest in a combination of fixed income, money market, and growth investments.

Fixed income: This asset class is generally comprised of investment options in bonds, or debt of a company or governmental entity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011

NOTE 4 - INVESTMENTS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodians have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Participant-directed investments as shown in the accompanying statements of net assets available for benefits of $24,568,156 as of December 31, 2011 and $24,571,984 as of December 31, 2010.

b. Participant-directed investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits of $(515,765) and $2,900,399 for the years ended December 31, 2011 and 2010, respectively.

NOTE 4 - INVESTMENTS (CONTINUED)

The following presents investments, at fair value, at December 31, 2011 and 2010 that represent 5 percent or more of the Plan's net assets:

	2011	2010
Pooled separate accounts - Principal Life Insurance Company:		
Large Cap Stock Index	$ 1,721,908	$ 1,910,585
Bond and Mortgage	1,793,160	1,559,616
International Emerging Markets	1,390,235	2,266,206
International Small Company	*	1,681,854
Principal Life Time 2040	1,374,209	*

Mutual Funds:		
Growth Fund of America	*	1,406,148
MainStay Large Cap Growth Fund H	1,265,853	*

*The fair value of these investments did not represent five percent or more of the Plan's net assets for this year.

The Plan's investments appreciated (depreciated) in value as follows:

	2011	2010
Pooled separate investments	$ (313,463)	$ 2,100,660
Common/collective trusts	58,132	59,499
Mutual funds	(366,131)	628,572
Total	$ (621,462)	$ 2,788,731

Investment income is comprised of the following for the years ended December 31:

	2011	2010
Net appreciation (depreciation) in fair value of participant-directed investments	$ (621,462)	$ 2,788,731
Interest and dividends - participant-directed investments	105,697	111,668
Total investment income	$ (515,765)	$ 2,900,399

NOTE 4 - INVESTMENTS (CONTINUED)

The Plan invests in a fully benefit-responsive common/collective trust, the Principal Stable Value Fund (the Fund). The Fund maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The common/collective trust issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the common/collective trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The common/collective trust is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the Fund, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $3,721,003 and $2,967,631, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 4 - INVESTMENTS (CONTINUED)

The common/collective trust does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2011	2010
Average yields:		
Based on actual earnings	1.79%	2.20%
Based on interest rate credited to participants	1.77%	2.19%

The Plan's independent auditors did not perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Employer contributions.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated January 16, 2004, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan. The effects of an uncertain tax position are recognized in the financial statements when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

NOTE 7 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds, pooled separate accounts, and common/collective trusts managed by Principal Life Insurance Company (Principal). Principal is a custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to Principal amount to $4,126 and $5,151 for the years ended December 31, 2011 and 2010, respectively.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 - PENDING BENEFIT PAYMENTS

At December 31, 2011 and 2010, there were no net assets available for benefits that were pending payment.
