NOTE A – PLAN DESCRIPTION

The following description of the Visant 401(k) Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Certain Plan assets are being held in the Jostens 401(k) Master Trust (“Master Trust”), where assets of the Plan and another plan sponsored by Visant Corporation (the “Company,” “Plan Sponsor” or “Plan Administrator”) are invested on a commingled basis. The Plan was most recently amended August 9, 2012.

Effective January 1, 2006, the Company merged the Arcade Marketing, Inc. 401(k) Plan, with each person who was eligible to participate shall become eligible on the same date. As part of this merger, participation from the employees of Dixon Direct Corp. was allowed with an effective date of June 17, 2006 and for employees of Spice Acquisition Corp. as of September 11, 2006.

Effective October 1, 2007, the Company acquired certain assets from Publishing Enterprises, Inc. related to the business of Memory Book Acquisition, LLC and amended to the Plan to provide for the participation of employees of Memory Book Acquisition, LLC.

Effective December 31, 2007, the Company merged the Visual Systems, Inc. Profit Sharing & 401(k) Plan into the Plan, with each person who was eligible to participate shall become eligible on January 1, 2008.

General and Eligibility

The Plan is a defined contribution plan. Employees of Jostens, Inc. who are covered by the GCIU Local 49-C collective bargaining agreement (“Topeka Union”) are eligible to participate in the Plan on their date of hire. All other employees are eligible to participate in the Plan after 90 days of employment.

Effective January 1, 2007, the Plan was amended to provide that employees eligible for Plan participation include non-union hourly employees of The Lehigh Press, Inc. (“Lehigh”) hired on or after January 1, 2007 and salaried employees and office administrative employees of Lehigh.

Effective February 1, 2007, the Plan was amended to reflect that eligibility is provided to individuals represented by GCC/IBT Local 14-M (those not covered by a defined benefit plan).

Effective October 1, 2007, the Plan was amended to reflect participation for certain individuals employed by Memory Book Acquisition LLC, a wholly owned subsidiary of the Company.

NOTE A – PLAN DESCRIPTION – Continued

Funding Policy

Participants may contribute up to 50% of eligible compensation on a pre-tax basis and/or on a Roth after-tax basis, which was effective April 1, 2010, as defined in the Plan, subject to limits established by law. The Plan allows for automatic enrollment of new participants (except for Topeka Union) that met the eligibility requirements and deferral of 3% of eligible compensation, unless elected otherwise. Participants who are not covered by a collective bargaining agreement other than IAMAW Local 1416 (“Owatonna Union”) and who made pre-tax or Roth after-tax contributions of at least 5% of eligible compensation may contribute up to an additional 10% of after-tax contributions if they are a non-highly compensated employee.

For employees of the Company not subject to a collective bargaining agreement other than the Owatonna Union, the Company makes matching contributions of 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation that a participant contributes to the Plan. For certain employees at the Topeka location of the Company subject to collective bargaining agreements, the Company makes matching contributions of 50% of the first 6% of eligible compensation that a participant contributes to the Plan.

The Company may contribute to the Plan a specified percentage of eligible participant compensation excluding collectively bargained employees, as determined by the Company’s Board of Directors. During 2011 and 2010, the Company made no discretionary contributions.

Participant’s Accounts

Each participant’s account is credited with the participant’s contributions (elective deferral, Roth after-tax, catch-up and rollover) and allocations of the Company’s contributions (matching and discretionary) and Plan earnings and losses. Plan earnings are allocated to each participant by investment fund based on that participant’s share of total investments. The benefit to which a participant is entitled is the vested portion of the participant’s account.

Investment Options

All funds of the Plan were participant directed. Participants could choose to allocate their contributions and/or all or part of their account balance among any of the Plan’s investment alternatives on a daily basis.

Forfeited Accounts

The Plan provides that forfeiture of non-vested Company discretionary contributions by a participant are to be used to reduce administrative expenses or to reduce Company contributions. At December 31, 2011 and 2010, the forfeiture account balance was \$7,492 and \$33,768, respectively. During 2011 and 2010, participants forfeited \$17,476 and \$62,621, respectively, and \$42,935 and \$134,120 were applied to reduce Company contributions.

Payment of Benefits

The full value of the participant's vested account is payable upon termination, death and disability. If the participant's account balance does not exceed \$1,000 a lump-sum distribution, net of tax, is made. If the participant's balance is between \$1,000 and \$5,000 and the participant did not specify whether the distribution should be paid directly to an eligible retirement plan or paid directly to the participant, the Plan Administrator pays the distribution through a direct rollover to an individual retirement account designated by the Plan Administrator. If the participant's balance exceeds \$5,000, the participant may elect to receive a lump-sum distribution, net of tax, nonperiodic payments or installment payments. Distributions must begin by April 1 of the year following the year the participant turns age 70½ (or retires if later).

In-service withdrawals from a participant's after-tax and rollover accounts were available in accordance with the Plan document. Participants who had attained age 59½ could also make in-service withdrawals. Hardship withdrawals were also available under the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 (less their highest outstanding loan balance during the previous 12 months) or 50% of their vested account balance. Note terms range from six months to five years unless the note is for the purchase of a primary residence, in which case the maximum term is 15 years. The notes are secured by the vested balance in the participant's account and bear an interest rate established by the Plan Administrator. Principal and interest is paid ratably through payroll deductions for active participants. Participants are assessed a loan fee upon approval of the note and an annual maintenance fee for the duration of the note. Notes that become in default are deemed distributions to the participants and are included in benefits paid.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income (Loss) Recognition

Effective with participation in the Jostens 401(k) Master Trust, the Master Trust administered by the trustee held the Plan's investments. The Plan's interest in the Master Trust is stated at the collective fair value of each of the investments based on the units owned by the Plan's participants. Master Trust investments consist of mutual funds and a commingled pool fund. Mutual fund investments are valued at fair value as determined by the trustee. The commingled pool fund invests in numerous guaranteed, bank and synthetic investment contracts. This fund is valued at its estimated fair value (contract value plus accrued interest thereon) as determined by the trustee.

As described in the Financial Accounting Standards Board ("FASB") Staff Accounting Standards Codification, ("ASC") 962-325, *Plan Accounting – Defined Contribution Pension Plans Investments*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As such, the statements of net assets available for benefits present the fair value of the Plan's interest in the collective trust as well as the adjustment of the Plan's interest in the collective trust from fair value to contract value relating to the investment contract.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis.

Increase (Decrease) in Plan Interest in Master Trust

The Plan presented in the statements of changes in net assets available for benefits the increase (decrease) in plan interest in Master Trust, which consisted of its share of the realized and unrealized appreciation on the Master Trust investments as well as interest and dividends, net of certain expenses, based on the specific performance of investment options and units owned by the Plan's participants.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Benefits Paid Directly to Participants

Benefits paid directly to participants or rolled over to other retirement plans on behalf of the participant are recorded by the Plan when paid.

Administrative Expenses

Plan participants are responsible for certain administrative expenses, including loan and in-service withdrawal fees. Such charges were deducted from the participants' accounts and reflected in administrative expenses in the statements of changes in net assets available for benefits. All other expenses, including administrative, audit and legal fees are paid by the Company.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits in future periods.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recently Issued Accounting Standards

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04), which provides guidance clarifying how to measure and disclose fair value. This guidance amends the disclosure requirements for fair value measurements categorized within Level 3 of the fair value hierarchy. The amendments in this ASU are effective for fiscal years, or interim periods within those years, beginning after December 15, 2011. Early adoption by non-public entities is not permitted. The Plan will adopt ASU 2011-04 prospectively by the date required and does not anticipate the ASU will have a material effect on its financial statements.

Subsequent Events

The Plan evaluated its December 31, 2011 financial statements for subsequent events through October 12, 2012, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events, which would require recognition or disclosure in the financial statements.

NOTE C – TRUSTEE CERTIFICATIONS

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010.
- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the years ended December 31, 2011 and 2010.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2011.

NOTE D – FAIR VALUE MEASUREMENTS

ASC 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10 are described as follows:

Visant 401(k) Retirement Savings Plan

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2011 and 2010

NOTE D – FAIR VALUE MEASUREMENTS – Continued

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

NOTE E – INTEREST IN THE MASTER TRUST

The Master Trust holds the assets of the Plan and other plans sponsored by Visant Corporation. Each participating plan in the Master Trust is allocated its proportionate share of the net assets based on the fair value of the investment options and units owned by each plan's participant. Fidelity Management Trust Company holds the assets of the Master Trust. Investment income, gains and losses, and administrative expenses relating to the Master Trust are allocated to each participating plan based on each plan's participant balance activity. The Plan's interest in the net assets of the Master Trust, which

NOTE E – INTEREST IN THE MASTER TRUST – Continued

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2011 and 2010:

<u>Investment type</u>	<u>Fair value</u>	<u>Unfunded commitments</u>	<u>Redemption frequency</u>	<u>Redemption notice period</u>
Collective trust – 2011	\$76,315,048	\$ -	Daily	Daily
Collective trust – 2010	\$80,996,203	\$ -	Daily	Daily

The Plan is applying the practical expedient as of December 31, 2011 and 2010 to its investment in Fidelity’s Managed Income Portfolio II Fund (the “Fund”), a collective trust fund. The Fund’s investment objective is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. Participants’ ownership of the Fund is represented as units. Units are issued and redeemed daily at the Fund’s constant NAV of \$1 per unit. The Fund allows for daily liquidity with no additional days notice required for redemption. It is the policy of the Fund to use its best efforts to maintain a stable NAV of \$1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment in the Fund at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

The Fund invests in assets (typically fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into “wrapper” contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund. A wrap contract is an agreement by another party, such as a bank or insurance company, to make payments to the Fund in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The following events may limit the ability of the Plan to transact at contract value:

- The Plan’s failure to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.
- Any communication given to Plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund.
- Any change in law, regulation or administrative ruling applicable to the Plan that could have material adverse effect on the Fund’s cash flow.

NOTE E – INTEREST IN THE MASTER TRUST – Continued

- Any transfer of assets from the Fund directly into a competing investment option.
- The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- Complete or partial termination of the Plan or its merge with another plan.
- Any substantive modifications of the Fund or the administration of the Fund that is not consented to by the wrap issuer.
- Any change in law regulation or administrative ruling applicable to a plan investing in the Fund that could have a material adverse effect on the Fund's cash flow.

The Fund is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. For example, this could result from the Fund's inability to promptly find a replacement wrap contract following termination of a wrap contract. The wrap issuer's ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments. In the event that wrap contracts fail to perform as intended, the Fund's NAV may decline if the market value of its assets declines.

The Fund is presented in the statement of net assets at fair value with an adjustment to contract value.

The yield earned by the collective trust with an adjustment to reflect the actual interest rate credited to participants at December 31, 2011 and 2010 was 1.60% and 1.82%, respectively. This represents the annualized earnings credited to participants in the collective trust, divided by the fair value of all investments in the collective trust at December 31, 2011 and 2010.

NOTE F – INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated July 25, 2012, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.
