Independent Auditors' Report

To the Plan Administrator of the
Security Plastics Division/NMC, LLC 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Security Plastics Division/NMC, LLC 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011 and the supplemental schedule of assets held at year end. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Guardian Insurance & Annuity Company, Inc. ("Guardian"), the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we were unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the Security Plastics Division/NMC, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, effective February 8, 2002, is a defined contribution plan covering all full-time employees of the National Molding, LLC (the "Company") who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Although it has not expressed intent to do so, the Company has the right to amend or terminate the Plan subject to provisions set forth in ERISA. In the event of the Plan's termination participants will become 100% vested in their accounts.

Contributions

Each year, participants may contribute up to the lesser of $16,500 (or other IRS permitted amounts) or up to 18% of their eligible compensation. Catch-up contributions of up to $5,500 are permitted for participants who have attained age 50 before the end of the Plan year. Participants may also contribute amounts representing rollovers from other qualified plans.

The Company's matching contribution, if any, shall be determined by the company with respect to each plan year. The matching contribution, if any, is contributed to each eligible participant in accordance with an Internal Revenue Service ("IRS") acceptable nondiscriminatory formula. For the year ended December 31, 2011, there were no employer matching contributions.

Investment Options

Individual participants direct the investment of their contribution into various investment options offered by the Plan. The Plan currently offers an insurance investment contract and pooled separate accounts as investment options for participants. Participants are allowed to make changes to their investment elections daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company matching contribution and discretionary contribution (if any), and allocations of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, deferrals, or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant vests in Company contributions at a rate of 20% per year after one year of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate that is in effect at the time the loan was applied for; interest rates range from 3.25% to 7.75% at December 31, 2011. Principal and interest is paid ratably through payroll deductions over periods up to 5 years.

Payment of Benefits

Under the provisions of the Plan, a participant may elect to receive distributions from the Plan, upon attaining the age of 59 ½, retirement, or if they become permanently disabled. Amounts equal to the value of the participant's account are available to a participant's beneficiary in the event of their death. All distributions are subject to the provisions of the Plan document. Distributions are only made in a lump sum payment.

Expenses

The expenses of the Plan are paid out of funds of the Plan unless paid by the Company. For the year ended December 31, 2011, total Plan expenses were $14,666 (of which $9,605 was paid by the Company). For the year ended December 31, 2011, asset charges and commissions of $35,074 were directly deducted from the plan assets and included in net depreciation in fair value of investments.

Forfeitures

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, nonvested portions of the Company contributions and earnings thereon are forfeited. Forfeitures or terminated participants' nonvested accounts are first used to reduce Company contributions to the Plan in accordance with the Plan document.

For the years ended December 31, 2011 and 2010, there were no forfeitures of nonvested participant accounts and no forfeitures were used to reduce Company matching contributions.

2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

New Accounting Pronouncements

Fair Value Measurements - In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures* to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement and disclosure requirements, while other amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The provisions of ASU 2011-04 are not expected to have a significant or material impact on Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions made by management affecting the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (see Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are stated at their unpaid principal balance plus any accrued interest, which approximates fair value. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All expenses of maintaining the plan are paid either by the Company or the Plan and are expensed as incurred.

Risks and Uncertainties

The Plan's investment fund options provide participants with a variety of investment alternatives with differing levels of risk, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Subsequent Events

The Plan has evaluated events and transactions subsequent to the Plan's year-end through the time that these financial statements were available to be issued on October 11, 2012. The Plan is not aware of any events or transactions that occurred subsequent to the Plan's year end but prior to October 11, 2012 that would require recognition or disclosure in its financial statements.

3. Information Certified by the Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL') Rules and Regulations for Reporting and Disclosure under ERISA. The Company appointed Guardian Insurance & Annuity Company ("Guardian") as custodian and recordkeeper of the Plan. Accordingly, Guardian certified the completeness and accuracy of investments reported on the Statements of Net Assets Available for Benefits as of December 31, 2011 and 2010, as well as on the supplemental schedule of investments (held at end of year) as of December 31, 2011 and the net depreciation in fair value of investments and interest in dividends for the year ended December 31, 2011.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Investments

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

	2011	2010
Guaranteed Investment Contract	$ 615,846	$ 495,353
JP Morgan Small Cap Equity Fund	200,352	266,685
Goldman Sachs Short - Duration Government Fund	181,456	*
RS Emerging Markets Fund	159,167	210,348
Goldman Sachs Mid Cap Value Fund	148,190	*
Delaware VIP Emerging Market	*	190,022
Fidelity High Income Advantage	*	176,961
Janus Balanced Fund	147,537	*
SSgA Short Term Inv.	*	169,297

* The fund did not represent 5% or more of the Plan's net assets.

During the year ended December 31, 2011, the Plan's investments (including realized gains and losses on investments bought and sold, as well as held during the year) in pooled separate accounts appreciated (depreciated) in value by ($74,555) as follows:

	2011
Mid & large capital stock	$ (107,799)
Fixed income	6,049
Small capital stock	(3,689)
Money market funds	4,849
Guaranteed investment contract	26,035
	$ (74,555)

5. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 820, *Fair and Disclosures* ("ASC 820"), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	December 31, 2011			
Assets	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Mid & large capital stock	$ -	$ 979,723	$ -	$ 979,723
Fixed income	-	622,600	-	622,600
Small capital stock	-	300,244	-	300,244
Money market funds	-	56,962	-	56,962
Guaranteed investment contract	-	615,846	-	615,846
Total	$ -	$ 2,575,375	$ -	$ 2,575,375

	December 31, 2010			
Assets	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Mid & large capital stock	$ -	$ 1,257,978	$ -	$ 1,257,978
Fixed income	-	804,478	-	804,478
Small capital stock	-	378,244	-	378,244
Money market funds	-	197,118	-	197,118
Guaranteed investment contract	-	495,353	-	495,353
Total	$ -	$ 3,133,171	$ -	$ 3,133,171

There were no plan liabilities required to be recorded at fair value at December 31, 2011 and 2010.

6. Investment Contract with Insurance Company

In 2002, the Plan entered into a benefit-responsive investment contract with Guardian. The contract provides for a Fixed Rate Investment Option (FRIO) and a Variable Investment Option. The FRIO account provided an effective annual interest rate of 3% for the year ended December 31, 2011 with a 3% guaranteed minimum interest rate. Contributions are deposited in the general account of Guardian. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. The Variable Investment Option invests in shares of the Separate Account. Deposits are made according to the Contract owner's allocation instructions; the maximum allocation to the FRIO is $1,000,000.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the Statement of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at Net Assets Available for Benefits. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against value for credit risk of the contract issuer or otherwise. The contract value of the investment contract after adjustment at December 31, 2011 and 2010 was $631,637 and $482,969 respectively.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. As of December 31, 2011, the Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date except in the event that the contract's investment value falls under $10,000, or in the event that the Plan is terminated.

7. Related Party Transactions

Certain Plan investments include pooled separate accounts and a guaranteed investment contract managed by Guardian. These transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

8. Income Tax Status

The IRS issued an opinion letter on March 31, 2008 which indicated that the prototype non-standardized plan adopted by the Company was designed and amended in compliance with the applicable provisions of the IRC. The Plan administrator believes the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code ("IRC") and the related trust was tax-exempt at December 31, 2011.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010 and for the year ended December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

9. Reconciliation of Financial Statements to Schedule H of the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to the Form 5500:

As of December 31,	2011	2010
Net assets available for benefits per the financial statements	$ 2,736,424	$ 3,263,207
Adjustment from fair value to contract value	(15,791)	-
