INDEPENDENT AUDITOR'S REPORT

To the Trustees of the
Spectra Logic 401(k) Profit Sharing Plan
Boulder, Colorado

We have audited the accompanying statements of net assets available for benefits of the Spectra Logic 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Spectra Logic 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and the changes in its net assets available for benefits for the years then ended, in conformity with generally accepted accounting principles in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, as listed in the Table of Contents, for the year ended December 31, 2011, is presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE 1: Description Of The Plan

The Spectra Logic 401(k) Profit Sharing Plan (Plan) is a single employer defined contribution plan, established by the shareholders of Spectra Logic, Inc. (the Company) located in Boulder, Colorado. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement and Income Security Act (ERISA).

Eligibility

In order to become a participant and become eligible for contributions, an employee of the Company must be age eighteen or older prior to an entry date of the Plan (first day of the month following employment).

Contributions

- Participants may elect to contribute certain amounts of pretax annual compensation, subject to limitations established in the Internal Revenue Code and defined in the Plan ($16,500 plus certain catch-up amounts).

- IRC Section 415 limits the aggregate contribution made to all plans, which may reduce the contribution allowed under this Plan.

- Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans.

- At the discretion of the Company, additional amounts may be contributed by the Company into the Profit Sharing Plan, including matching contributions, qualified non-elective contributions, or additional employer contributions. Employer contributions were $41,722 for 2011, and none for 2010.

Investment Options

The investments of the plan assets are completely (100%) participant directed. Upon enrollment, participants can direct the investment of their account balances among 44 investment options during 2011.

NOTE 1: Description Of The Plan (Continued)

The trustees utilize the services of a third party administrator (TPA) to perform daily accounting and valuation services for the mutual funds. The participants can access the TPA's web site on a daily basis to make transfers among the various mutual fund options, and request loans and distributions among other things.

Participant Accounts

Each participant's account is credited with the participant's salary reductions, the employer's contributions on the participant's behalf, and earnings on investments, which are allocated daily. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account balance.

Vesting

All participant account balances are fully vested under the plan.

Payment of Benefits

Distributions to participants are available upon retirement, death, total disability, or termination of employment. Participants receive a lump sum payment if their balance is less than $5,000 (automatically paid if balance does not exceed $1,000), and can select a partial or lump sum payment if their balance is $5,000 or more.

NOTE 2: Summary Of Significant Accounting Policies

Basis of Accounting

The Plan uses an accrual basis of accounting, which conforms to generally accepted accounting principles, to record the transactions of the Plan. The accrual basis includes the following:

- Investments are reported at market value by recording unrealized gains or losses.
- Interest and dividends are recorded when earned or declared, rather than when received.
- Purchase and sale of assets are recorded as of the trade date.
- Gain or loss from mutual funds includes all income from mutual fund investments – dividends, capital gains and realized and unrealized gains or losses.

NOTE 2: Summary Of Significant Accounting Policies (Continued)

Investments

Investments in debt and equity securities are stated at fair market value, the last reported sale price on the last business day of the year, as traded on a national securities exchange. Shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of shares held by the plan. Money market funds are stated at net asset value.

For financial reporting purposes, the investments are allocated to the participants based upon percentages determined from a summary of the participants' account balances. In the accompanying financial statements, the allocated investments are combined.

Participant Loans Receivable

Participant loans are netted against participant balances as the Plan in general does not have a claim against such loans; however, a participant's maximum outstanding balance of all loans is subject to a an amount which is less than the participant's vested balance, and therefore loans receivable from participants is reflected as a deduction of participant balances.

Investment and Administrative Expenses

The Plan's administrative expenses are generally paid by the Company. Loan initiation fees are generally paid by Plan participants.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 3: Investments In Securities

NOTE 4: Income Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service; however, the prototype plan which is the basis of the Plan has obtained a favorable determination letter. The Plan administrator and the Plan's trustees believe the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and they are not aware of any reason why a favorable determination letter would not be issued.

NOTE 5: Risks and Uncertainties

The Plan provides for various investment options in mutual funds. Investments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

NOTE 6: Investment Contract With Great West Life

The Plan and participants have entered into benefit-responsive investment contracts with Great West Life whereby contributions are maintained in a general account and credited with earnings on underlying investments and charges for participant withdrawals and administrative expenses.

NOTE 6: Investment Contract With Great West Life (Continued)

The contracts are included in the financial statements at contract value as reported to the Plan by Great West Life. There are no reserves against contract value for the credit risk of the contract issuer or otherwise. The average yield and prevailing interest rate on contracts in place at December 31, 2011, and 2010, and for the years then ended, was approximately 1.45% and 2.43%, respectively.

NOTE 7: Subsequent Events

Effective January 1, 2012, the Plan will require the automatic participation of a newly hired, eligible employee to defer 6% annually into the Plan, unless the employee submits a waiver to otherwise elect out of participation.
