INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of the
Clopay Pension Plan

We were engaged to audit the financial statements of the Clopay Pension Plan (the "Plan") as of December 31, 2011 and 2010, and for the years then ended and the supplemental schedule as of and for the year ended December 31, 2011 as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the Trustee that the information as of and for the years ended December 31, 2011 and 2010, provided to the Plan administrator by the Trustee, is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**CLOPAY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010**

1. DESCRIPTION OF THE PLAN

The following brief description of the Clopay Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General - The Plan is a noncontributory, defined benefit pension plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Merger - On December 31, 2011 the Plan merged with and into the Ames True Temper Pension Plan. The merged plan was renamed the Clopay Ames True Temper Pension Plan (the "Clopay Ames Plan"). As of the Plan Merger date, the Company's eligible employees were allowed to participate in the Clopay Ames Plan and the "Net assets available for benefits" of the Plan totaling \$27,777,242 were transferred into the Clopay Ames Plan.

The Pension Plans, which were both frozen for participation and benefit accruals at the time of the merger, continue to be sponsored and maintained by the respective companies although merged into the Clopay Ames Plan. The accrued benefits of the Plan's participants were not affected by the Plan Merger, and the Company continues to contribute to the merged plan annually such amounts as are recommended by the Plan's independent actuary sufficient to meet the ERISA funding requirements.

Eligibility - Employees of the Clopay Corporation (the "Company") who were participants in the former Salaried Plan, Hialeah and Russia Plan, and Augusta Plan are participants in the Plan.

Pension Benefits - Participants in the former Salaried Plan prior to December 31, 2000 earn a monthly benefit equal to the sum of (a) and (b) minus (c), but not less than (d) or (e). Credited service is frozen as of December 31, 2000 for this purpose.

- (a) 0.80% of average compensation times benefit service not in excess of 35 years.
- (b) 0.60% of average compensation in excess of Social Security covered compensation, times benefit service not in excess of 35 years.
- (c) The accrued benefit as of December 31, 1987 under the prior plan.
- (d) The accrued benefit determined as of December 31, 1998, under the terms of the Plan then in effect.
- (e) The accrued benefit determined as of December 31, 1993, under the terms of the Plan then in effect.

Participants in the former Hialeah and Russia Plan and the former August Plan prior to December 31, 2000 earned a monthly benefit equal to \$16 (\$8 for Baldwin participants) multiplied by the number of years of credited service up to maximum of 30 years.

CLOPAY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF THE PLAN (Continued)

Effective January 1, 2001, the Company amended the Plan to provide a new transition benefit for participants who had attained age 41 and whose attained age and service summed to at least 47. This benefit will accrue a benefit for up to 10 years beginning January 1, 2001 equal to (a) plus (b), but not greater than (c):

- (a) The participant's "accrual percentage" times his final average monthly compensation times credited service earned since January 1, 2001 not in excess of 10 years. The accrual percentage varies with the participant's age and service as of January 1, 2001 and ranges from .1% to 1.5%.
- (b) The participant's "accrual percentage" times his final average monthly compensation in excess of covered compensation times credited service earned since January 1, 2001 not in excess of 10 years.
- (c) The participant's final average monthly compensation multiplied by 1.5% times credited service earned since January 1, 2001 not in excess of 10 years.

Participants may elect to receive the value of this accumulated plan benefits as a monthly life annuity, a monthly annuity guaranteed for 10, 15, or 20 years, a joint and survivor annuity, or a lump sum distribution if the benefit is less than \$5,000.

Death Benefits - If a vested participant dies at age 55 to 65, a death benefit equal to the actuarial equivalent of the normal form of payment is paid to the participant's beneficiary. If a vested participant dies before reaching age 55, the pre-retirement survivor annuity will be deferred until the date on which the participant would have qualified for early retirement had he lived. If a participant continues in employment beyond age 65 and dies while in such active employment, the single sum value of his late retirement benefit as of his date of death shall be payable to his beneficiary. No death benefits are provided under this Plan after retirement except to the extent that the participant selects an optional form of payment which has the effect of providing a benefit after his death or that a qualified joint and survivor annuity is in force.

Disability Benefits - Participants that are totally or partially disabled and qualify for Federal Social Security will receive a monthly benefit commencing at age 65 equal to his normal retirement pension based on the credited service at the time of disability and final average compensation.

Early Retirement - The Plan permits early retirement at age 55 with 10 years of service. For participants electing early retirement, the accrued retirement benefit will be reduced for benefit commencement prior to age 65 by $1/180^{\text{th}}$ for each month between ages 60 and 65 and by $1/360^{\text{th}}$ for each month between ages 55 and 60.

CLOPAY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF THE PLAN (Continued)

Early Retirement(continued) - In addition, a voluntary retirement incentive program was offered to all plan participants age 60 or older employed by Clopay Building Products and all plan participants age 61 or older employed by Clopay Plastic Products. The voluntary retirement incentive program was offered in November 2000 with retirement effective January 1, 2001.

Vesting Schedule - Participants are 100% vested after five years of service, or if the participant is employed on or after the participant's normal retirement age.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The Plan accrues contributions that the Company has deducted for federal income taxes.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risk and Uncertainties - Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). See Note 10 for disclosures related to this hierarchy.

CLOPAY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2011 AND 2010

2. SUMMARY OF ACCOUNTING POLICIES(Continued)

Expenses – Certain administrative expenses of the Plan are paid by the Plan, as provided in the Plan document. The Plan Sponsor provides accounting and other administrative services to the Plan at no charge.

Payment of Benefits – Benefit payments to participants are recorded upon distribution.

Subsequent Events – The Plan has evaluated subsequent events through October 4, 2012, the date the financial statements were available to be issued.

3. PLAN TERMINATION

The Plan can be terminated by the Company in certain limited situations. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive the benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing asset and the PBGC guaranty, while other benefits may not be provided for at all.

4. TAX STATUS

The Plan obtained its latest determination letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable sections of the Internal Revenue Code and therefore remains tax-exempt.

CLOPAY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2011 AND 2010

4. TAX STATUS(Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken or expected to be taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the year ended December 31, 2011.

6. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments included shares of mutual funds managed by Fidelity Management Trust Company until the merger. In 2010 and 2011 until the merger, Fidelity Management Trust Company was the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were \$157,839 and \$125,400 for the years ended December 31, 2011 and 2010, respectively.

7. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

CLOPAY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2011 AND 2010

7. ACCUMULATED PLAN BENEFITS (Continued)

The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective. The actuarial present value of accumulated plan benefits as of December 31, 2010 is summarized as follows:

Vested Benefits:	
Participants Currently Receiving Payments	\$ 8,951,487
Other Participants	17,798,150
Total Vested Benefits	<u>26,749,637</u>
Non-Vested Accumulated Benefits	<u>171,065</u>
Total Actuarial Present Value of Accumulated Plan Benefits	<u>\$ 26,920,702</u>

The reconciliation of the actuarial present value of accumulated plan benefits for the year ended December 31, 2010 is as follows:

Actuarial Present Value of Accumulated Plan Benefits at Beginning of Year	\$ 25,431,586
Increase (Decrease) During the Year	
Attributable to:	
Actuarial Losses (Gains)	323,478
Increase for Interest Due to Decrease in Discount Period	1,773,458
Benefits Paid	(1,022,695)
Net Benefits Accumulated	<u>414,875</u>
Actuarial Present Value of Accumulated Plan Benefits at End of Year	<u>\$ 26,920,702</u>

The significant actuarial assumptions used in completing the valuation for the Plan year ended December 31, 2010 were:

- | | |
|-------------------------------------|---|
| (a) Life expectancy of participants | RP-2000 Mortality Table for males and females |
| (b) Retirement age | 65, or immediately if over age 65 |
| (c) Investment return | 7.0% per year |
| (d) Compensation increase rate | 0% and 3.5% per year , respectively |

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTES TO FINANCIAL STATEMENTS (Continued)
DECEMBER 31, 2011 AND 2010

7. ACCUMULATED PLAN BENEFITS (Continued)

As the net assets available for benefits were transferred into the Clopay Ames Plan, the accompanying financial statements have been prepared assuming that the obligations to pay benefits associated with the Plan will continue in substance.

8. INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2010 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
