INDEPENDENT AUDITORS' REPORT

We were engaged to audit the financial statements of *AC Label 401(k) Savings Plan* (the "Plan") as of December 31, 2011 and 2010, and for the year ended December 31, 2011, and the additional information as of and for the year ended December 31, 2011, as listed in the accompanying table of contents. These financial statements and additional information are the responsibility of the Plan's management.

As permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by the Principal Life Insurance Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and additional information. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2011 and 2010, respectively, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and additional information taken as a whole. The additional information is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and additional information, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

AC LABEL 401(k) SAVINGS PLAN NOTES TO FINANCIAL STATEMENTS

NOTE 1 DESCRIPTION OF PLAN

The following description of *AC Label 401(k) Savings Plan* (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan, which was adopted on March 1, 2006 and last amended on January 1, 2010 by *AC Label Company, LLC* (the "Company"), is a 401(k) and profit sharing plan covering all eligible employees of the Company. An employee who is age 18 will become eligible for elective salary deferrals immediately and will be eligible for the employer contribution after one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of total pay, as defined in the Plan, but limited to the amount specified by the Internal Revenue Code ("IRC") and adjusted annually. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The total participant and employer contributions for a given year can equal 100% of the participant's total pay, as defined in the Plan, but limited to the amount specified by the IRC and adjusted annually. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make a matching contribution on behalf of each eligible participant who made salary deferrals to the Plan during the Plan year. The percentage or amount shall be at the sole discretion of the Company. For the year ended December 31, 2011 the Company made a matching contribution of 50% of each eligible participant's elective deferral contribution to the Plan up to 6% of a participant's eligible compensation.

The Company may also make a discretionary profit sharing contribution on behalf of each person who is an eligible participant on the last day of the Plan year, or retired, became totally disabled, or died during the Plan year. The amount shall be at the sole discretion of the Company. The Company did not elect to make a discretionary profit sharing contribution for the year ended December 31, 2011.

Participant Accounts

Each participant account is credited with participant contributions, Company matching and profit sharing contributions, if any, an allocation of the Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. Participants vest in their employer contributions plus actual earnings thereon at a rate of 20% per year after the first year and are fully vested after five years of credited service.

AC LABEL 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Forfeitures

Participants who terminate their employment and are less than 100% vested in their employer's contributions forfeit their non-vested portion. Forfeitures are retained by the Plan to offset employer contributions after the amount is determined. During December 31, 2011, no forfeitures were credited to contributions.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance in the previous twelve months or 50% of their vested account balance. Participants are allowed to have up to two loans outstanding at one time. The loans are secured by the balance in the participant's account and bear interest at a rate that is consistent with the provisions of the IRC, U.S. Department of Labor, and other applicable legal requirements. Principal and interest is paid ratably through payroll deductions. Loans must be repaid through payroll deductions and range from one to five years or up to ten years for the purchase of a primary residence.

Participant Hardship Withdrawals

Participants may withdraw from the Plan that portion of their account resulting from salary deferrals in the event of undue financial hardship. Before receiving a hardship withdrawal, a participant must obtain all distributions and all non-taxable loans under the Plan.

Payment of Benefits

The Plan provides for retirement benefits to begin upon retirement. Retirement age for the Plan is age 65.

On termination of service, a participant with vested account balances less than \$1,000 will receive a lump sum amount equal to the value of their vested account balance. Participants with vested account balances greater than \$1,000 may elect to receive their vested account balance in a single lump sum payment, by the purchase of an annuity contract, or have the payment paid as a "direct rollover" to an IRA or another qualified Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting

The Plan follows the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

**AC LABEL 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for Plan benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by standards, the Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Valuation

The Plan investments are stated at fair value. See Note 3 for additional information on the determination of fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative fees charged to the participants by the trustee are paid by the Plan participants by netting them against earnings on the participant's account. Other administrative fees are paid by the Plan Sponsor.

NOTE 3 FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification 820-10, "Fair Value Measurements and Disclosures" defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy based on the inputs used to measure fair value and enhances disclosure requirements for fair value measurements. The standard maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect our assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. This hierarchy consists of three broad levels:

Level I – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

AC LABEL 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 3 FAIR VALUE MEASUREMENTS (CONTINUED)

Level II – Inputs other than quoted prices included within Level I that are observable for the asset or liability, either directly or indirectly. Level II inputs include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level III – Unobservable inputs for the asset or liability for which there is little, if any, market activity for the asset or liability at the measurement date. Unobservable inputs reflect the Trustee's own assumptions about what market participants would use to price the asset or liability. These inputs may include internally developed pricing models, discounted cash flow methodologies, as well as instruments for which the fair value determination requires significant management judgment.

The Plan records investments held at fair value on the statements of net assets available for Plan benefits with unrealized gains and losses reflected in the statement of changes in net assets available for Plan benefits. The degree of judgment used in measuring the fair value of investments held, generally correlates to the level of pricing observability. Pricing observability is impacted by a number of factors, including the type of investment held, whether the investment held is new to the market and not yet established, and the characteristics specific to the transaction. Investments held, with readily available active quoted prices for which fair value can be measured from actively quoted prices, generally will have a higher degree of pricing observability and a lesser degree of judgment used in measuring fair value.

Conversely, investments held, rarely traded, or not quoted will generally have less or no pricing observability and a higher degree of judgment used in measuring fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize the valuation of the Plan's investments that are reported at fair value in the accompanying statements of net assets available for Plan benefits as of December 31, 2011 and 2010:

AC LABEL 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 3 FAIR VALUE MEASUREMENTS (CONTINUED)

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level I inputs because they generally provide the most reliable evidence of fair value. Level III inputs were only used when Level I or Level II inputs were not available.

Level I Fair Value Measurements

The fair value of funds held in registered investment companies is based on quoted net asset value of the shares for identical assets held by the Plan at year-end.

Level II Fair Value Measurements

The fair value of the pooled separate accounts are based on the market values of its underlying investments.

The fair value of the common collective trust is based on the underlying asset which is the fair value for the Union Bond and Trust Company Stable Value Fund, which is a fully benefit responsive investment with assets valued with Level I and Level II measurements. See Note 5 for further valuation method information.

Level III Fair Value Measurements

The fair value of the insurance company general account represents the amount plan sponsors would receive if they terminated the contract at the reporting date, which is book value less an early withdrawal charge. They are guaranteed interest accounts. See Note 5 for further valuation method information.

The following table provides further details of the change in assets utilizing Level III fair value measurements.

As of December 31, 2010, the Plan had more than 10% of its net assets available for Plan benefits in the following investment vehicle: American Funds, PIMCO Funds, Principal Life Insurance Company, and Union Bond & Trust Company.

NOTE 5 FULLY BENEFIT RESPONSIVE INVESTMENTS

Common Collective Trust

In 2006, the Plan entered into a common collective trust contract with Union Bond and Trust Company ("UBTC"). UBTC maintains the contributions in a general account. The contract is included in the financial statements at contract value as reported to the Plan by UBTC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

As described in Note 2, because the common collective trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for Plan benefits attributable to the common collective trust.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$1,265,705 and \$772,154, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

**AC LABEL 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 5 FULLY BENEFIT RESPONSIVE INVESTMENTS (CONTINUED)

Certain events limit the Plan's ability to transact at contract value with UBTC. Such events include the following: (a) amendments to Plan documents (including complete or partial plan terminations or merge with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the Plan participants are probable.

The common collective trust contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	<u>2011</u>	<u>2010</u>
Average yields	2.42%	2.82%

Insurance Company General Account - Guaranteed Interest

The investment in the insurance company general account is included in the Statements of Net Assets Available for Plan Benefits at amortized cost or contract value, which for an insurance company general account is deemed to be fair value by the trustee. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Principal Life Insurance Company's Insurance Company General Account is credited with a contractual rate of return; for the period from January 01, 2011 through December 31, 2011, the rate is .70% Such interest rates are reviewed on a periodic basis for resetting.

NOTE 6 RELATED PARTY TRANSACTIONS

For the 2011 Plan year, Principal Life Insurance Company was the Trustee of the Plan assets and therefore, these transactions qualify as party-in-interest transactions. The fees paid by the Plan for the investment management services are netted with the investment income (loss) on each investment option of the Plan for the year ended December 31, 2011.

NOTE 7 TAX STATUS

The prototype plan sponsor has obtained an opinion letter dated March 31, 2008 in which the Internal Revenue Service stated that the restated prototype Plan document was in compliance with applicable requirements of the Internal Revenue Code. The Plan Administrator has timely adopted the restated prototype Plan. The Plan Administrator believes the Plan is currently being operated in accordance with the Internal Revenue Code.

AC LABEL 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 7 TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for Plan benefits.

NOTE 9 INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE
