Report of Independent Certified Public Accountants

To Participants and Plan Administrator
Caliber 401(k) Plan

We were engaged to audit the financial statements of the Caliber 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, and for the year ended December 31, 2011 and the supplemental schedule as of December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by John Hancock Life Insurance Company USA, the custodian of the Plan, except for comparing such information with the related information in the financial statements and the supplemental schedule. We have been informed by the plan administrator that the custodian holds the certified Plan assets and executes related transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A – DESCRIPTION OF PLAN

The following description of the Caliber 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering substantially all employees of Brazos M&E, Ltd., United Electrical & Instrumentation, Ltd., Caliber Services, L.P. and Monical & Rea, Ltd. (collectively, the "Company" or the "Plan Sponsor"). An employee shall become eligible to participate the first entry date on or after the employee has completed twelve months of service, 1,000 service hours and attained the age of eighteen. The Plan's entry dates are January 1, April 1, July 1, and October 1 of each year. John Hancock Life Insurance Company USA serves as custodian of the Plan.

The Plan was amended and restated effective January 1, 2010 to incorporate all the amendments made since the Plan was previously restated.

Effective September 26, 2011, the Company amended the Plan to provide an employer matching contribution to all eligible employees of the Company. The employer matching contribution shall be equal to fifty percent (50%) of the participant's 401(k) deferral contribution up to the first six percent (6%) of compensation contributed, such that the maximum employer matching contribution to a participant during a plan year shall be three percent (3%) of eligible compensation.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

2. Contributions

Participants may contribute up to 25% of pre-tax annual compensation as defined by the Plan, subject to certain maximums set by the Internal Revenue Service ("IRS") ($16,500 in 2011 and 2010). During 2011, employee contributions were reduced by $14,237 as the contributions were determined to be in excess of maximum contribution levels. These excess contributions were refunded in 2012.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions subject to the limits set forth by the IRS ($5,500 in 2011 and 2010). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans in the form of rollover contributions.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a stable value fund as options for participants.

Prior to September 26, 2011, only employees working on maintenance contracts with Dow Chemical at the LaPorte, Texas City, and Freeport, Texas, locations and British Petroleum at the Chocolate Bayou, Texas, location received a match of 25% on all employee contributions up to 4 to 6 percent of the employees' salary, depending on the location. In addition, the Company may make discretionary contributions as determined by the Company for employees not covered under the maintenance contracts. The Company did not make any discretionary contributions during 2011 and 2010.

NOTE A – DESCRIPTION OF PLAN – Continued

Effective September 26, 2011, the Company amended the Plan to provide an employer matching contribution to all eligible employees of the Company. The employer matching contribution shall be equal to fifty percent (50%) of the participant's 401(k) deferral contribution up to the first six percent (6%) of compensation contributed, such that the maximum employer matching contribution to a participant during a plan year shall be three percent (3%) of eligible compensation.

3. Participant Accounts

Each participant's account is credited with the participant's contribution, Company matching and discretionary contributions and allocations of fund earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Company matching and discretionary contributions are 100% vested after normal retirement age of 65, or if the participant becomes disabled or dies while employed. Company matching and discretionary contributions vest based on years of continuous service in accordance with the following schedule:

Years of service	Vested interest in account
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

5. Notes Receivable from Participants (Loans)

Participants may borrow from their fund accounts in an amount not to exceed the lesser of $50,000 or one-half of their vested account balance. Loan payment terms cannot exceed five years. The loans are secured by the vested balance in the participant's account and bear interest at rates commensurate with prevailing rates as determined by the Plan Sponsor. Principal and interest are paid ratably through monthly payroll deductions.

6. Benefits Paid to Participants

Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or payments over a certain period in monthly, quarterly, or annual cash installments. The period over which such payment is to be made shall not extend beyond the participant's life expectancy or the life expectancy of the designated beneficiary. Participants may also request a direct rollover distribution paid directly to a qualified retirement plan specified by the participant.

NOTE A – DESCRIPTION OF PLAN – Continued

7. Forfeited Accounts

Forfeited accounts are generally used to reduce any future Company matching contributions or Company discretionary contributions. At December 31, 2011 and 2010, unallocated forfeited non-vested accounts totaled $24,841 and $26,935, respectively. Forfeited amounts are recorded to unallocated cash until a determination is made as to how to use the funds. Forfeited non-vested accounts amounting to $3,166 were used to reduce Company matching contributions during 2011.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the accompanying financial statements follows.

1. Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

2. New Accounting Pronouncements

In January 2010, the FASB issued guidance that clarifies existing disclosures and requires new disclosures about fair value measurements. The new requirement that purchases, sales, issuances, and settlements be presented gross in the Level 3 reconciliation is effective for fiscal years beginning after December 15, 2010 and for interim periods within those years, with early adoption permitted. The Plan adopted this guidance during 2011. The adoption of this guidance did not have any impact on the Plan's financial statements.

In May 2011, the FASB issued ASU 2011-04 *"Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS"*, which changes certain principles or requirements for measuring fair value and for disclosing information about fair value measurements. The update is effective on January 1, 2012. Plan management is presently evaluating these new requirements, but does not expect the adoption of this update to have a material impact on the measurement of Plan assets.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

4. Valuation of Investments and Income Recognition

Investments are reported at their fair value and are measured in accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The stable value fund held by the Plan has been determined to be a non-benefit responsive contract therefore the statement of net assets available for benefits and the statement of changes in net assets available for benefits presents the fair value of the stable value fund.

5. Notes Receivable from Participants (Loans)

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

6. Benefits to Participants

Benefits are recorded when paid.

7. Administrative Expenses

Administrative expenses, including legal and accounting fees, are paid by the Company. The Plan pays monthly Custodian fees. Fees related to transaction processing services such as participant loans or withdrawals are paid directly by the participants.

NOTE C – INVESTMENTS

The fair values of individual investments that represent five percent or more of the Plan's net assets are as follows at December 31:

	2011	2010
T. Rowe Price Blue Chip Growth	$ 1,137,082	$ 1,169,778
John Hancock Stable Value	937,664	927,818
American Funds EuroPacific Growth	459,388	512,789
Davis New York Venture	334,159	331,505
Dimensional Funds Advisors U.S. Small Cap	312,918	425,327
JH Lifestyle Growth	257,012	*
JH Lifestyle Moderate	*	369,731

*Investments did not represent 5% or more of net assets available for benefits.

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value as follows:

Pooled separate accounts	$ 96,161

NOTE D – FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its assets into Level 1 (securities valued using quoted prices from active markets for identical assets), Level 2 (securities not traded on an active market for which observable market inputs are readily available), and Level 3 (securities valued based on significant and unobservable inputs). Investments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The assessment of the significance of a particular input to the fair value measurements requires judgment and may affect the valuation of assets and liabilities being measured and their placement or changes in their placement within the fair value hierarchy. Transfers between levels are recognized on the actual date of the event resulting in the transfer.

The following is a description of the valuation methodologies and inputs used for assets measured at fair value.

Pooled Separate Accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year end. The net asset value is based on the fair value of underlying assets that can be valued in active markets.

Non-Benefit Responsive Contract: Valued at unitized value from the John Hancock Stable Value Collective Investment Trust (CIT).

NOTE D – FAIR VALUE MEASUREMENTS – Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments by major category of investment at fair value as of December 31, 2011:

*Estimated using the net asset value of the funds

(a) The large-capitalization investment funds seek long-term capital growth. These funds seek to achieve this objective by investing primarily in the common stock of large blue-chip growth companies. These firms are generally well established in their industries and have the potential of above average earnings.

(b) The medium capitalization investment funds seek long-term growth of capital by investing in equity securities of medium-sized companies, such as companies with market capitalizations that approximately match the range of capitalization of the Wilshire Mid Cap 750 index or the S&P Mid Cap 400 Index.

NOTE D – FAIR VALUE MEASUREMENTS – Continued

(c) The small-capitalization investment funds have a primary objective of long-term capital appreciation. These funds seek to obtain this objective by investing in a well-diversified portfolio of securities. These investments consist of small-cap companies that offer good prospects for capital appreciation.

(d) The international fund seeks long-term capital appreciation. The primary objective of this fund is to capture the return premiums of the emerging non-U.S. market value asset class by investing in a well-diversified portfolio of securities. The fund has strict country selection criteria to ensure that each emerging market has an adequate legal structure and market liquidity.

(e) The bonds and mortgages funds seek to maximize real return, consistent with preservation of capital and prudent investment management. The funds seek this investment objective by investing in inflation-indexed bonds of varying maturities issued by U.S. and non-U.S. governments, their agencies or instrumentalities and corporations, or fixed-income securities of varying maturities.

(f) The fixed income funds seek to realize maximum total return, consistent with a high level of current income and preservation of capital. The funds invest primarily in a diversified group of mutual funds that, in turn, invest mainly in fixed-income securities of varying maturities.

(g) The real estate investment trust seeks to achieve a combination of long-term capital appreciation and current income. The fund intends to keep at least 80% of its assets, plus the amount of any borrowings for investment purposes invested in equity securities of real estate investment trusts and real estate companies.

(h) The stable value fund seeks to preserve principal and provide book value liquidity on a daily basis for plan-permitted, participant directed withdrawals while maintaining a competitive interest rate. The fund will invest primarily in diversified fixed income mutual funds and separately managed bond accounts and in book value stabilizing agreements offered by high quality financial institutions. The fixed income portfolios are managed to provide high income consistent with the "AA" minimum average credit quality objective. The stabilizing agreements are designed to offset price fluctuations associated with fixed income investments by smoothing the effect of any gains or losses on the assets and to offer participants daily liquidity at book value.

(i) Other funds seek long-term capital appreciation by investing in companies in the U.S. that will benefit from their restructuring and redeployment of assets and operations in order to become more competitive or profitable.

Level 3 Rollforward

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 asset for the year ended December 31, 2011:

	Stable value fund
Balance, beginning of year	$ 927,818
Purchases	185,759
Sales	(184,899)
Unrealized gains	8,986
Balance, end of year	$ 937,664

NOTE E – INVESTMENT IN STABLE VALUE FUND

Contributions to the John Hancock Stable Value Fund are invested solely in shares of the John Hancock Stable Value Fund (Class 1). The John Hancock Stable Value Fund seeks to preserve principal and provide book value liquidity on a daily basis for plan-permitted, participant-directed withdrawals while maintaining a competitive rate of interest. The fund will invest primarily in diversified fixed income mutual funds and separately managed bond accounts run by investment subsidiaries of John Hancock Life Insurance Company (John Hancock), and in book value stabilizing agreements offered by high quality financial institutions. The fixed income portfolios are managed to provide high current income consistent with an "AA" minimum average credit quality objective. The stabilizing agreements are designed to offset price fluctuations associated with fixed income investments by smoothing the effect of any gains or losses on the assets and to offer participants daily liquidity at book value.

The Unit Value of the Sub-account will be defined as the Unit Value of the underlying Trust as adjusted to account for underlying Trust distributions.

Withdrawals from this Sub-account will be made at the prevailing declared Unit Value as determined by John Hancock. Withdrawals from this Sub-account are subject to the same restrictions that apply to the underlying Trust. The Trustee of the underlying Trust has the right to delay any participant-initiated withdrawal for up to 30 days if it determines that immediate withdrawal may have an adverse impact on the Trust. In addition, the Trust has the right to delay for up to 12 months, any other withdrawal, including the withdrawal of all or a portion of the assets of an investor in the Trust. Where such or any restrictions or price adjustments are invoked by the underlying Trust with respect to withdrawals attributable to this Contract, the Company will apply such restrictions or price adjustments to withdrawals made under this Sub-account with respect to this Contract.

NOTE F – INFORMATION CERTIFIED BY CUSTODIAN

The Plan Administrator has elected the method of annual reporting and compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010.
- Investment loss and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2011.
- Form 5500, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2011.

The Plan's independent certified public accountants did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE G – RELATED PARTY TRANSACTIONS

Certain plan investments are managed by John Hancock Life Insurance Company USA, the custodian, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $46,041 for the year ended December 31, 2011. The Plan's investment transactions are covered by exemptions from the "prohibited transactions" provisions of ERISA and the Code.

NOTE H – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE I – TAX STATUS

The IRS has determined and informed the Plan by a letter dated February 7, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related plan is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification.

During 2012, operational errors were identified with respect to 2011 employer matching contributions and allocation of loan repayments. The Plan is in the process of correcting the operational error under IRS regulations.

NOTE I – TAX STATUS – Continued

With the correction of the operational errors discussed above, the Plan Administrator and the Plan's tax counsel believe that the Plan will continue to remain in compliance with the applicable requirements of the Code; therefore, no provision for income taxes is included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE J – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE K – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits and changes in net assets available for benefits per the financial statements to the Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	$ 5,076,327	$ 5,288,341
Add: Excess contributions payable	14,237	14,019
Net assets available for benefits per the Form 5500	$ 5,090,564	$ 5,302,360

Net decrease in net assets available for benefits per the financial statements	$ (212,014)
Add: December 31, 2011 excess contributions payable	14,237
Less: December 31, 2010 excess contributions payable	(14,019)
Net decrease in net assets available for benefits per the Form 5500	$ (211,796)

NOTE L –SUBSEQUENT EVENTS

Subsequent events have been evaluated for inclusion in the accompanying financial statements through October 12, 2012, which is the date the financial statements were available to be issued.

On October 9, 2012, the Plan was amended, retroactive to January 1, 2012, to include bonus, leave and vacation cash out, safety incentive, car allowance and other forms of extraordinary compensation earned during 2012 in the determination of employer contributions. This amendment is only effective for calendar year 2012.
