BOWNE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2011 and 2010

(1) Description of the Plan

The following brief description of the Bowne 401(k) Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

(a) General

The Plan is a defined contribution plan established November 1, 1961 covering all eligible employees of Bowne & Co., Inc. (the “Company”) and its subsidiaries located in the United States. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

(b) Plan Termination

Effective November 23, 2010, the Company was acquired by R.R. Donnelley & Sons Company. As a result of the acquisition, the Plan was terminated as of November 22, 2010 and as of that date all contributions to the Plan ceased and participants may only make loan repayments. The Plan will continue to exist until all participants are able to receive their benefits from the Plan. As of December 31, 2011, there was \$228,346 in Plan assets relating to participants accounts due to un-cashed checks. It is Plan Management’s intention to ensure these participants receive their entitled benefits.

(c) Eligibility

The Plan covered all full-time or part-time employees who worked at least 25 hours per week including full-time employees of the participating companies that were covered by collective bargaining agreements, subject to certain provisions. If an employee was classified as a temporary full-time or part-time employee, they were eligible to participate in the Plan after completing 1,000 or more hours in the first 12 months of employment or in any calendar year after their date of hire. Employees were eligible to participate as of the first day of employment.

(d) Contributions

Participants were able to direct the Company to deposit contributions withheld through automatic payroll deductions, subject to certain limitations of up to 50% of annual eligible compensation on a pre-tax basis and up to 15% of annual eligible compensation on an after-tax basis (up to 10% on an after-tax basis for highly compensated employees). There were no contributions for the year ended December 31, 2011.

A participant not covered by a collective bargaining agreement could make a rollover contribution to the Plan of amounts which he or she had received from another qualified plan.

The Plan provided for automatic escalating enrollment for all employees hired on or after January 1, 2006. Automatic enrollment began at a pre-tax contribution rate of 3% of eligible compensation, as defined in the Plan. Effective as of the first pay period of each subsequent Plan year, the contribution percentage was increased by 1% each year up to a maximum percentage of 8%. Employees could have elected to opt out of the automatic enrollment, or they could have opted out of or changed the percentage of the automatic escalating contribution option at any time.

The Plan also accepted Roth contributions made by participants. A Roth contribution is a contribution that is designated irrevocably by the participant and is made in lieu of all or a portion of the pre-tax contribution the participant is otherwise eligible to make under the Plan. The Roth contributions were subject to the same limitations and matching provisions as the traditional participant contributions. A participant’s Roth contribution was allocated to a separate account maintained for such contributions.

BOWNE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2011 and 2010

(1) Description of the Plan (Continued)

(e) Vesting

Participants are fully vested at all times in their contribution account, rollover account, and any investment earnings related to those accounts, if applicable.

Effective July 7, 2010, the Plan was amended to fully vest all participants in the Plan.

Effective November 22, 2010, the Plan was terminated.

(f) Participants' Accounts

Separate accounts are maintained for each participant and are credited with the participant's elective contributions, Company contributions, and Plan earnings on both employer and employee contributions to the various investment funds. Participants can elect to have their accounts invested in various investment funds, each with a different investment objective and strategy. Changes requested by participants are implemented as soon as administratively practicable if in accordance with the Plan document.

Participants may transfer amounts from one fund to another daily.

(g) Participant Distributions

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive the value of the participant's vested interest in his or her account in a lump-sum amount.

Pre-tax contributions to the Plan on behalf of participants covered by collective bargaining agreements were eligible to be withdrawn prior to termination of employment subject to certain Plan provisions.

(h) Hardship Withdrawals

Participants may withdraw their employee pretax contributions (but not the earnings on the pretax contributions), vested portion of discretionary profit-sharing contributions, and rollover contributions, if applicable, to satisfy immediate and heavy financial needs. In accordance with Internal Revenue Service ("IRS") regulations, participants must first exhaust all other assets available before obtaining a hardship withdrawal. All hardship withdrawals must be approved by the Plan administrator. After a hardship withdrawal, a participant may not make a contribution to the Plan for six months.

(i) Forfeitures

The non-vested portion of a participant's account will be forfeited upon the participant's separation from service before age 65 for reasons other than death or disability. In 2011 and 2010, forfeited amounts were used to pay the expenses of the Plan. At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$10,273 and \$42,905, respectively. The remaining balance as of December 31, 2011 will be utilized in 2012. As stated in Note 1(e) there are no longer non-vested parties as of December 31, 2011.

(j) Loans

The Plan provided two types of loans to participants not covered by collective bargaining agreements: general loans and home purchase loans. Participants not covered by collective bargaining agreements were limited to one outstanding loan of each type at any time. Participants not covered by collective bargaining agreements could borrow the lesser of 50% of their vested account balance or \$50,000, with an annual interest rate of prime plus 1% on the outstanding balance. General loans are subject to a maximum repayment term of five years. Home purchase loans may extend the repayment term to 15 years. Loan repayment is through payroll deductions. At December 31, 2011 there were no outstanding loans. At December 31 2010, there were 525 individual loans outstanding, bearing an interest rate ranging from 4% to 10.5%, with maturities through 2025.

BOWNE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2011 and 2010

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

As a result of the Company's decision to terminate the Plan in November 2010, the Plan changed its basis of accounting from the ongoing accrual basis to the liquidation basis of accounting for the year ended December 31, 2010 and all subsequent years. The change to the liquidation basis has no effect on the Net Assets Available for Benefits of the Plan.

(b) Subsequent Events

Plan management has evaluated subsequent events for recognition and disclosure through October 11, 2012, which is the date the financial statements were available to be issued.

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual amounts could differ from those estimates.

(d) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan:

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflect potential future values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(e) Notes Receivable from Participants

Prior to January 1, 2011, notes receivable from participants were reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest were received through payroll deductions and the notes are collateralized by the participants' account balances. Subsequent to January 1, 2011, there were no repayments of notes receivable from participants.

(f) Payment of Benefits

Benefit payments are recorded when paid.

(g) Concentration of Risks and Uncertainties

The Plan may invest in various types of investments. Investments are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of assets available for benefits.

BOWNE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2011 and 2010

(3) Administrative Expenses

Administrative and Investment Management Expenses: The Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

(4) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated May 15, 2012 that the Plan and related trust are designed in accordance with applicable sections of the Code and the Plan termination does not adversely affect the Plan's tax qualification status. Therefore, the Company believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

(6) Fair Value Measurement of Investments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This standard establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2 Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or inputs that are observable or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Significant unobservable inputs supported by little or no market activity and that reflect the reporting entity's own assumptions about the exit price, including assumptions that market participants would use in pricing the asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value on a recurring basis as of December 31, 2011 and 2010 respectively:
