Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Pension Committee
Lafarge North America Inc. Pension Plan for
Hourly Compensated Employees (Gypsum)

We were engaged to audit the accompanying financial statements of Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Gypsum) (the Plan) as of December 31, 2011 and 2010, and for the years then ended, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investments transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2011 and 2010 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974.

LAFARGE NORTH AMERICA INC.
PENSION PLAN FOR HOURLY COMPENSATED EMPLOYEES (GYPSUM)
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

Note 1 – Description of plan

The following description of the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Gypsum) (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

The Plan, created in 1998, covers hourly employees who meet specified service requirements of certain Lafarge North America Inc.'s (the Company) facilities located at Buchanan, New York. In November 2002, the Wilmington plant was closed, and the Plan incurred a partial plan termination, in which affected employees were fully vested. The Plan is a noncontributory defined benefit plan that provides for pension and disability benefits. The Plan provides for normal retirement at age 65, with early retirement after age 55 and five years of credited service. The normal retirement benefit is reduced for benefits commencing immediately after early retirement for all participants less than 62 years old. The Plan also provides for benefits to participants with at least 5 years of credited service who meet certain disability requirements. The Plan was most recently amended December 2011 regarding changes in normal retirement pension factors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The assets of the Plan and certain other pension plans of the Company are held in the Lafarge North America Inc. Master Trust (Master Trust). During the year ended December 31, 2011 and 2010, assets in the Master Trust were held by the Northern Trust Company (the Trustee). Upon the order of the Company, the Trustee pays amounts to specified Plan beneficiaries. SEI Investments Company (SEI) currently acts as investment manager and has authority to invest and reinvest the Master Trust assets.

In compliance with the Tax Reform Act of 1986, participants of the Plan become fully vested after five years of credited service. The Company has contributed such amounts as it believes are necessary to provide assets sufficient to meet the benefits to be paid to the Plan's participants. These contributions are also sufficient to meet the minimum funding requirements of ERISA.

The Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination, all accrued benefits become 100% vested, and the net assets of the Plan are set aside for payment of such vested benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at the time of termination. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not, as described in the articles of the Plan.

Note 2 – Significant accounting policies

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the accounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments – Investments are stated at fair value. Investment transactions are recorded at the trade date. The Plan's net interest in the Master Trust is stated at the fair value of the underlying net assets of the Master Trust as estimated by the Trustee. The investments in the Master Trust, including securities, are stated at fair value based

upon quotations of national security exchanges or, for unlisted securities, upon quotations obtained by the Trustee from brokerage firms. Where investments comprise shares in commingled equity investment funds, estimated fair values were obtained by the Trustee from the administrator of such investment funds. Investments in mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Master Trust at year-end. Under the Master Trust, investment transactions, income on investments, and realized and unrealized appreciation and depreciation have been prorated by the Trustee among the plans based on each plan's proportionate share of the market value of the Master Trust on a monthly basis.

Cash and cash equivalents – For purposes of the disclosure of investments in the Master Trust (see Note 6), the Plan considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Cash and cash equivalents held in the Master Trust may include short-term investments held by institutions that are not covered by the Federal Deposit Insurance Corporation.

Risks and uncertainties – The Master Trust provides for investments in various investment securities, which are exposed to various risks such as interest rate, credit, and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Master Trust contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Administrative expenses – Administrative expenses include plan-specific expenses as well as expenses incurred by the Master Trust. Expenses related specifically to the Master Trust are allocated to the plans based on the ending market value of assets held in each plan as a percentage of total assets in the Master Trust.

Employer contributions and benefit payments – Employer contributions and benefit payments to participants are specifically identified by the plan administrator with respect to each plan, as reflected in the accompanying statements of changes in net assets available for benefits. Benefit payments are recorded when paid.

Accumulated plan benefits – Accumulated plan benefits (see Note 3) are those periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the services rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

Benefits for retired or terminated employees or their beneficiaries are based on employees' credited service as of their last date of employment. The accumulated plan benefits for active employees are based on credited service earned preceding the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Payment of Benefits – Benefit payments to participants are recorded upon distribution.

Fair value measurement – The Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) provides a single authoritative definition of fair value and enhanced guidance for measuring the fair value of assets and liabilities. It requires additional disclosures regarding the extent to which the Plan measures assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual funds – These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

Cash and cash equivalents – These investments are public investment vehicles valued using $1 for the NAV, and are classified within level 1 of the valuation hierarchy.

New accounting pronouncements – In January 2010, the FASB issued guidance to improve disclosures regarding fair value measurements. This update requires entities to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number), information about purchases, sales, issuances, and settlements in the roll forward of changes in Level 3 fair value measurements. For the gross presentation of activity in the Level 3 roll forward, this guidance is effective for fiscal years beginning after December 15, 2010. As this guidance is only disclosure related, it did not have any changes to the carrying value of the investments on the statements of net assets as of December 31, 2011 and 2010.

In May 2011, the FASB issued guidance to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between GAAP and International Financial Reporting Standards. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This guidance is effective for annual periods beginning after

December 15, 2011 and should be applied prospectively. Plan management is currently evaluating the impact of the pending adoption of this update on the Plan's financial statements.

Note 3 – Actuarial present value of accumulated plan benefits

The actuarial information is based on reports prepared by the Plan's actuary, Towers Watson, as of January 1, 2011. The actuarial calculations are based on participants becoming fully vested after five years of continuous service. The actuarial calculations are also based on the participants covered by the Plan as of January 1, 2011.

The actuarial present value of accumulated plan benefits was calculated using the present value of accrued benefits method as required by the Pension Protection Act of 2006 (PPA). As of January 1, 2011, significant assumptions underlying the actuarial computations include an effective interest rate of 6.36%, the use of the RP-2000 Employees and RP-2000 Healthy Annuitants mortality tables used for the calculation of the current liability, and the assumption that retirement takes place at various ages, ranging from 55 to 65 and over. The actuarial value of assets was determined using the average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, with certain adjustments made for contributions, benefits, administrative expenses and expected earnings. Additionally, the funding interest rate changed from IRS prescribed one-month average yield-curve based on bond yields during the October preceding the valuation date to the IRS prescribed segment rates without 3-year transition based on bond yields through the August preceding the valuation date.

Actuarial assumptions that changed since the prior year include the retirement and termination rates, the marital percentage assumption, the form of payment election assumption, and assumed benefit commencement date for the deferred vested benefit.

Employer contributions to the Plan are calculated in accordance with the Company's policy of funding an amount within the minimum required and the maximum allowable contributions as calculated each year in accordance with ERISA regulations. The Company's contributions for 2011 and 2010 exceeded the minimum funding requirements of ERISA.

The actuarial present value of accumulated plan benefits as of January 1, 2011 is as follows:

Vested benefits	
Participants currently receiving payments	$ 1,104,960
Other participants	1,778,510
Total vested benefits	2,883,470
Non-vested benefits	121,241
Total actuarial present value of accumulated plan benefits	$ 3,004,711

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2011:

Actuarial present value of accumulated plan benefits, beginning of year	$ 2,547,881
Increase (decrease) during the year attributable to:	
Benefits accumulated	368,903
Increase for interest due to decrease in discount period	186,949
Benefits paid	(112,478)
Assumption changes	(15,271)
Plan amendments (Note 5)	28,727
Net increase	456,830
Actuarial present value of accumulated plan benefits, end of year	$ 3,004,711

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4 – Income tax status

The Plan has received its latest determination letter from the Internal Revenue Service (IRS) dated April 23, 2008 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan Management believes it is no longer subject to income tax examinations for years prior to 2008.

Note 5 – Changes in Plan provisions

Plan provisions have been updated to correspond with IRS guidelines and negotiated collective bargaining agreements for certain covered groups. These changes did not have a material impact on the Plan's financial statements.

Note 6 – Investment in the Master Trust

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2011 and 2010 and net investment income in the Master Trust for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee. The Trustee has also certified the Plan's proportionate share of such items to be complete and accurate.

Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. At December 31, 2011 and 2010, the Plan's interest in the investments of the Master Trust was approximately .70% and .55%, respectively.

The following table presents the fair values of investments in the Master Trust:

	December 31,	
	2011	2010
Investments at fair value, as determined by quoted market prices:		
Mutual funds	$ 537,019,445	$ 502,250,899
Cash and cash equivalents	3,984,936	3,117,332
	$ 541,004,381	$ 505,368,231

Investment income for the Master Trust was as follows:

	Year ended December 31,	
	2011	2010
Net appreciation in fair value of investments	$ 13,649,830	$ 48,069,320
Interest and dividends	15,106,965	12,829,917
	$ 28,756,796	$ 60,899,237

During the years ended December 31, 2011 and 2010, substantially all of the net appreciation in fair value of investments is attributable to mutual funds.

The fair value of individual investments that represent 5% or more of the Master Trust's net assets are as follows:

	December 31,	
	2011	2010
SEI Instl Invts Tr Large Cap Disciplined Equity Fund	$ 98,866,163	$ 98,721,001

Note 7 – Fair Value of Financial Investments

See "Fair value measurement" in Note 2 above for discussion of the methodologies and assumptions used to determine the fair value of the Master Trust's investments.

Note 8 – Party-in-interest transactions

Fees paid by the Plan for actuarial, accounting and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 9 – Subsequent events

The Plan has evaluated events through October 15, 2012 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Economic Assumptions

Interest rate basis:	
▸ Applicable month	September 2010
▸ Yield curve basis	Segment rates
▸ Transition from current liability rates	N/A
Interest rates:	
▸ First segment rate	3.78%
▸ Second segment rate	6.31%
▸ Third segment rate	6.57%

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including discounted contributions receivable (discounted using the effective interest rate for the 2010 plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Attachment to 2011 Schedule SB Part V – Statement of Actuarial Assumptions/Methods

Benefits not valued	All benefits described in the Plan Provisions were valued except plant shutdown and other "unpredictable contingent event benefits," if any, which are not valued until and unless the triggering event occurs. Towers Watson has reviewed the plan provisions and, based on that review, is not aware of any significant benefits required to be valued that were not. The plan pays small benefits with present values up to $1,000 in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such participants' benefits are valued using the applicable form of payment assumptions.
Change in assumptions and methods since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2009 to September 2010. The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.
Data sources	Towers Watson used asset data and retiree data supplied by the trustees. Lafarge North America Inc. furnished other participant data and the dates and amounts of the contributions that were paid in 2011. Data were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by the Towers Watson actuaries when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Definitions

Eligibility service

Periods of eligibility service are measured by completed calendar years and completed months of employment as an employee. In the case of an Employee hired by an Employer on September 16, 1996, his periods of eligibility service include eligibility service credited to him under the provisions of the Georgia-Pacific Corporation Pension Plan for Hourly-Rated Employees as of such date. With respect to an Employee who was employed by Continental Gypsum Company on January 28, 2002 and became an Employee on January 29, 2002, periods of employment with Continental Gypsum Company prior to January 29, 2002 are taken into account in determining his periods of eligibility service.

Credited service

Credited service is measured by completed calendar years and completed months of employment as a covered employee. In the case of an employee who became an employee as of the effective date, his period of credited service include any employment on or after September 16, 1996.

Normal retirement date (NRD)

First day of the month coinciding with or next following the attainment of age 65.

Monthly preretirement death benefit	50% of the accrued monthly pension benefit as of the date of death, reduced for 50% joint and survivor election and reduced for payment as early as the participant's earliest retirement date.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	First day of month coinciding with or next following the attainment of age 55 with 5 years of eligibility service.
Postponed retirement	Retirement after NRD
Vested termination	Termination for reason other than death or retirement after completing 5 years of eligibility service.
Disability retirement	A participant who is prevented from performing services for the company by reason of total and permanent disability, whose disability has continued for at least six months, and has completed five years of eligibility service, is eligible for disability retirement. Solely for calculating the disability benefit for a participant hired by Lafarge on September 16, 1996, his benefit service will be deemed to include his service with Georgia-Pacific or its predecessors.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD

Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Gypsum)
EIN 58-1290226
PN 029
Attachment to 2011 Schedule SB Part V – Summary of Plan Provisions

Early retirement	Monthly pension benefit reduced .5% for each month that actual retirement date precedes attainment of age 62.
Postponed retirement	Monthly pension benefit determined as of actual retirement date
Vested termination	Monthly pension benefit determined as of the date of termination. If the benefit starts before normal retirement date, the benefit will be reduced using early retirement benefit reduction factors.
Disability retirement	The monthly disability benefit, payable immediately, is equal to the accrued benefit as of the date of disability.
Preretirement death	Monthly preretirement death benefits on behalf of both active and terminated vested employees are reduced as described above.

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin. Otherwise, benefits are paid in the form of an actuarially equivalent 50% joint and survivor annuity, or if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are: ► Joint and 75% survivor annuity ► Joint and 100% survivor annuity ► Three year certain and life annuity. Actuarial equivalence for optional form conversion: ► Participant mortality: GAM 1971 Blended 80% males; 20% females ► Beneficiary mortality: GAM 1971 Blended 20% males; 80% females ► Interest rate: 7.00%
Maximum on benefits and pay	All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

No future plan changes were recognized. Towers Watson is not aware of any future plan changes which are required to be reflected other than scheduled pension increases.

Changes in Plan Provisions Since Prior Year

None.
