The Plan Administrator
WABCO 401(k) Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of WABCO 401(k) Retirement Plan as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements, but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the agent, on behalf of the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WABCO 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2011

1. Description of Plan

The following description of the WABCO 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all eligible employees of WABCO Holdings Inc. and affiliated companies (collectively referred to as the “Company”) as defined by the Plan. Employees are automatically enrolled in the Plan upon their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan was created at the time WABCO Holdings Inc. was legally spun-off from Trane Inc. (formerly named American Standard Companies Inc. (“American Standard”), on July 31, 2007. The transaction was recorded as a tax-free stock dividend to the shareholders of Trane Inc. and to employees of WABCO Holdings Inc., who previously participated in the former Trane, Inc. 401K Savings Plan and the Trane, Inc. Employee Stock Ownership Plan.

Contributions

Each year, participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants age 50 and older may make catch-up contributions, subject to certain Internal Revenue Code (the “Code”) limitations. Such contributions may not exceed \$16,500 (plus an additional \$5,500 for participants over 50) as adjusted under the provisions of Section 415(d) of the Code, for calendar years 2011 and 2010.

Each pay period, the Company matches participant deferral contributions dollar-for-dollar, up to a maximum of 6% of eligible pay. In addition, each pay period, the Company contributes a basic contribution representing 3% of each participant’s eligible pay to his/her account regardless of his/her contribution level. Additional amounts may be contributed at the discretion of the Company’s Board of Directors. No such additional contributions were made during 2011 or 2010.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

All investments are participant-directed and participants may change their investment options at any time. Upon enrollment, a participant may direct employee contributions in percentage increments to any of the Plan's fund options. If a participant is automatically enrolled, their contributions are invested in a Fidelity Freedom Fund, based on the participant's age, until the participant changes the election.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Forfeited balances of terminated participants' nonvested accounts may be used to reduce future company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately 100% vested in both their own contributions and the Company's basic and matching contributions.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance in the participant's account during the prior twelve month period. Up to 50% of a participant's vested account balance may be used as collateral for any loan. Participants may only have two loans outstanding at any given time and may not refinance an existing loan or obtain a second loan for the purpose of paying off the existing loan. All loans must be repaid in level payments through after-tax payroll deductions on at least a quarterly basis over a five year period, unless the loan is for the purchase of a principal residence, in which case the loan repayment period may not extend beyond 30 years from the date of the loan. All loans shall bear a rate of interest as determined by the plan administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate shall remain fixed throughout the duration of the loan.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Payment of Benefits

Upon death, disability, retirement or termination of service, a participant or the participant's beneficiary may elect to receive a lump-sum amount equal to the vested value of his or her account or installments over a period of time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The plan administrator will facilitate the distribution of account balances in single lump sum payments to each participant in accordance with Plan provisions until all assets have been distributed by Fidelity Management Trust Company (the "Trustee").

Company Stock Fund

Prior to December 30, 2011, the Plan held common stock of the Company, through its Company Stock Fund, for employees that were invested in American Standard stock prior to August 1, 2007. The Company Stock Fund was not an investment option as it was only able to be divested.

Beginning on December 30, 2011, the Company Stock Fund was no longer an option as a Plan investment. All existing balances were transferred to a Fidelity Freedom Fund based on a participant's age. The final transfer to the Fidelity Freedom Fund was complete in January 2012.

Administrative Expenses

The Company pays the majority of the administrative expenses incident to the management of the Plan; however, certain costs may be paid from the assets of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

WABCO 401(k) Retirement Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principle generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosure related to fair value measurements. The shares of registered investment companies and the Company's common stock are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2011 or 2010. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update No. 2010-06, Improving Disclosures about Fair Value Measurements (“ASU 2010-06”). ASU 2010-06 amended Accounting Standards Codification (“ASC”) 820 Fair Value Measurement to clarify certain existing fair value disclosures and require a number of additional disclosures. Among other requirements of ASU 2010-06 which were effective in 2010, a requirement under ASU 2010-06 to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 did not have an effect on the Plans’ net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS (“ASU 2011-04”). ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in US generally accepted accounting principles (“GAAP”) and International Financial Reporting Standards (“IFRS”). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the plan’s financial statements.

The amendments are to be applied prospectively and were effective for annual periods beginning after December 15, 2011. Plan management determined that the provisions of ASU 2011-04 will not have a material impact on the Plan’s financial statements.

3. Information Certified by Trustee

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2011 and 2010 and net appreciation in fair value of investments and interest and dividends for the years ended December 31, 2011 and 2010, and notes receivables for the years ended December 31, 2011 and 2010 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

WABCO 401(k) Retirement Plan

Notes to Financial Statements (continued)

4. Investments

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2011	2010
Neuberger Berman Genesis Institutional	\$ 1,667,023	\$ 1,603,403
Fidelity Contrafund	2,029,811	2,394,821
Fidelity Diversified International Fund	*	1,279,324
Fidelity Freedom 2030 Fund	2,177,981	1,654,071
Fidelity Retirement Money Market Trust	1,480,113	1,738,184
WABCO Stock Fund	*	1,049,588
Fidelity Freedom 2025 Fund	1,280,684	*
Fidelity Freedom 2035 Fund	1,122,088	*

* Investment did not represent more than 5% of the net assets available for benefits.

5. Fair Value Measurements

During 2011 and 2010, the Plan's investments (including investments bought, sold, or held during the year) (depreciated) appreciated in fair value as determined by quoted market prices as follows:

	Year Ended December 31	
	2011	2010
Common stock	\$ (219,769)	\$ 651,316
Mutual funds and money market funds	(795,453)	1,482,917
	<u>\$(1,015,222)</u>	<u>\$ 2,134,233</u>

ASC 820, as amended, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to the valuation technique used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:

WABCO 401(k) Retirement Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety. The valuation technique used needs to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds and money market funds: Valued at quoted market prices which represent the net asset value ("NAV") of shares held by the Plan at year end.

Company stock funds: Valued at the combination of the quoted market value of the underlying stock and the market value of the short-term cash position.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements (continued)

7. Income Tax Status

The underlying volume submitter plan has received an advisory letter from the Internal Revenue Service dated March 31, 2008, stating that the form of the plan is qualified under Section 401(a) of the Code and therefore the related trust is tax-exempt. In accordance with Revenue Procedures 2009-6 and 2005-16, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Related-Party Transactions

Plan investments include certain investment funds managed and/or held by Fidelity Management Trust Company and, therefore, these transactions with the above trustees, custodians and managers qualify as party-in-interest transactions.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October __, 2012, the date the financial statements were available to be issued.

The Plan Administrator
WABCO 401(k) Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of WABCO 401(k) Retirement Plan as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements, but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the agent, on behalf of the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WABCO 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2011

1. Description of Plan

The following description of the WABCO 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all eligible employees of WABCO Holdings Inc. and affiliated companies (collectively referred to as the “Company”) as defined by the Plan. Employees are automatically enrolled in the Plan upon their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan was created at the time WABCO Holdings Inc. was legally spun-off from Trane Inc. (formerly named American Standard Companies Inc. (“American Standard”), on July 31, 2007. The transaction was recorded as a tax-free stock dividend to the shareholders of Trane Inc. and to employees of WABCO Holdings Inc., who previously participated in the former Trane, Inc. 401K Savings Plan and the Trane, Inc. Employee Stock Ownership Plan.

Contributions

Each year, participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants age 50 and older may make catch-up contributions, subject to certain Internal Revenue Code (the “Code”) limitations. Such contributions may not exceed \$16,500 (plus an additional \$5,500 for participants over 50) as adjusted under the provisions of Section 415(d) of the Code, for calendar years 2011 and 2010.

Each pay period, the Company matches participant deferral contributions dollar-for-dollar, up to a maximum of 6% of eligible pay. In addition, each pay period, the Company contributes a basic contribution representing 3% of each participant’s eligible pay to his/her account regardless of his/her contribution level. Additional amounts may be contributed at the discretion of the Company’s Board of Directors. No such additional contributions were made during 2011 or 2010.

WABCO 401(k) Retirement Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

All investments are participant-directed and participants may change their investment options at any time. Upon enrollment, a participant may direct employee contributions in percentage increments to any of the Plan's fund options. If a participant is automatically enrolled, their contributions are invested in a Fidelity Freedom Fund, based on the participant's age, until the participant changes the election.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Forfeited balances of terminated participants' nonvested accounts may be used to reduce future company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately 100% vested in both their own contributions and the Company's basic and matching contributions.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance in the participant's account during the prior twelve month period. Up to 50% of a participant's vested account balance may be used as collateral for any loan. Participants may only have two loans outstanding at any given time and may not refinance an existing loan or obtain a second loan for the purpose of paying off the existing loan. All loans must be repaid in level payments through after-tax payroll deductions on at least a quarterly basis over a five year period, unless the loan is for the purchase of a principal residence, in which case the loan repayment period may not extend beyond 30 years from the date of the loan. All loans shall bear a rate of interest as determined by the plan administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate shall remain fixed throughout the duration of the loan.

WABCO 401(k) Retirement Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Payment of Benefits

Upon death, disability, retirement or termination of service, a participant or the participant's beneficiary may elect to receive a lump-sum amount equal to the vested value of his or her account or installments over a period of time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The plan administrator will facilitate the distribution of account balances in single lump sum payments to each participant in accordance with Plan provisions until all assets have been distributed by Fidelity Management Trust Company (the "Trustee").

Company Stock Fund

Prior to December 30, 2011, the Plan held common stock of the Company, through its Company Stock Fund, for employees that were invested in American Standard stock prior to August 1, 2007. The Company Stock Fund was not an investment option as it was only able to be divested.

Beginning on December 30, 2011, the Company Stock Fund was no longer an option as a Plan investment. All existing balances were transferred to a Fidelity Freedom Fund based on a participant's age. The final transfer to the Fidelity Freedom Fund was complete in January 2012.

Administrative Expenses

The Company pays the majority of the administrative expenses incident to the management of the Plan; however, certain costs may be paid from the assets of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

WABCO 401(k) Retirement Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principle generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosure related to fair value measurements. The shares of registered investment companies and the Company's common stock are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2011 or 2010. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update No. 2010-06, Improving Disclosures about Fair Value Measurements (“ASU 2010-06”). ASU 2010-06 amended Accounting Standards Codification (“ASC”) 820 Fair Value Measurement to clarify certain existing fair value disclosures and require a number of additional disclosures. Among other requirements of ASU 2010-06 which were effective in 2010, a requirement under ASU 2010-06 to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 did not have an effect on the Plans’ net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS (“ASU 2011-04”). ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in US generally accepted accounting principles (“GAAP”) and International Financial Reporting Standards (“IFRS”). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the plan’s financial statements.

The amendments are to be applied prospectively and were effective for annual periods beginning after December 15, 2011. Plan management determined that the provisions of ASU 2011-04 will not have a material impact on the Plan’s financial statements.

3. Information Certified by Trustee

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2011 and 2010 and net appreciation in fair value of investments and interest and dividends for the years ended December 31, 2011 and 2010, and notes receivables for the years ended December 31, 2011 and 2010 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

WABCO 401(k) Retirement Plan

Notes to Financial Statements (continued)

4. Investments

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2011	2010
Neuberger Berman Genesis Institutional	\$ 1,667,023	\$ 1,603,403
Fidelity Contrafund	2,029,811	2,394,821
Fidelity Diversified International Fund	*	1,279,324
Fidelity Freedom 2030 Fund	2,177,981	1,654,071
Fidelity Retirement Money Market Trust	1,480,113	1,738,184
WABCO Stock Fund	*	1,049,588
Fidelity Freedom 2025 Fund	1,280,684	*
Fidelity Freedom 2035 Fund	1,122,088	*

* Investment did not represent more than 5% of the net assets available for benefits.

5. Fair Value Measurements

During 2011 and 2010, the Plan's investments (including investments bought, sold, or held during the year) (depreciated) appreciated in fair value as determined by quoted market prices as follows:

	Year Ended December 31	
	2011	2010
Common stock	\$ (219,769)	\$ 651,316
Mutual funds and money market funds	(795,453)	1,482,917
	<u>\$(1,015,222)</u>	<u>\$ 2,134,233</u>

ASC 820, as amended, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to the valuation technique used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:

WABCO 401(k) Retirement Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety. The valuation technique used needs to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds and money market funds: Valued at quoted market prices which represent the net asset value ("NAV") of shares held by the Plan at year end.

Company stock funds: Valued at the combination of the quoted market value of the underlying stock and the market value of the short-term cash position.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

WABCO 401(k) Retirement Plan

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

WABCO 401(k) Retirement Plan

Notes to Financial Statements (continued)

7. Income Tax Status

The underlying volume submitter plan has received an advisory letter from the Internal Revenue Service dated March 31, 2008, stating that the form of the plan is qualified under Section 401(a) of the Code and therefore the related trust is tax-exempt. In accordance with Revenue Procedures 2009-6 and 2005-16, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Related-Party Transactions

Plan investments include certain investment funds managed and/or held by Fidelity Management Trust Company and, therefore, these transactions with the above trustees, custodians and managers qualify as party-in-interest transactions.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October __, 2012, the date the financial statements were available to be issued.
