San Diego, California

I was engaged to audit the accompanying financial statements and supplemental schedule of San Diego Services, LLC 401(K) Plan as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying Table of Contents. These financial statements and supplemental schedule are the responsibility of the plans management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized at Note 8, which was certified by State Street Bank and John Hancock Life Insurance Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. The plan administrator has informed me that the John Hancock Life Insurance Company held the Plan's investment assets and executed investment transactions from October 14, 2010 to December 31, 2011, and that State Street Bank held the Plan's investment assets and executed investment transactions from January 1, 2010 to October 13, 2010. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and December 31, 2010, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that I did not audit, I was unable to, and did not; express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1: DESCRIPTION OF PLAN

The following description of the San Diego Services, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of San Diego Services, LLC (the Sponsor) who have one year or more of service and are age twenty-one or older. Entrance is at the start of any calendar quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Employee and Employer Contributions

Each year, participants may contribute a portion of their pretax annual compensation, subject to Internal Revenue Code dollar limits. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions. Participants may also contribute amounts representing pre-tax distributions from other qualified defined benefit or defined contribution plans. All contributions to the plan, including any matching funds by the Sponsor, are invested at the direction of the participants. The employer makes a matching contribution in an amount equal to 25 percent of the participant's pretax contributions, limited to 6 percent of the participant's eligible compensation.

Investment Options

The Plan offers various funds as investment options for participants. The participants may change their investment options at any time. Investment funds offered by the Plan include fixed income funds, domestic and international equity funds, and asset allocation (balanced) funds.

Participant Accounts

Each participant's account is credited or charged with his or her contributions and allocations of the employer's contribution, investment earnings or losses and any administrative expenses. Allocations are based on participant earnings or account balances, or account activity. The benefit to which a participant is entitled is that which can be provided from participant's vested account.

Vesting

Vesting in the sponsor's contribution portion of the participant's account plus earnings thereon is based on each employee's length of service. A participant is 100% vested (16.67% per credited year) after six years of credited service. Participants are credited with a vesting year of service for each plan year with 1,000 or more hours of service.

NOTE 1: DESCRIPTION OF PLAN (continued)

Payments of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over specified period of time in the form of cash. If the account balance is less than $5,000 a lump-sum distribution will be required regardless of the request. Distributions for hardship, as defined by the Plan, are also allowed. Distributions before age 59½ may be subject to Internal Revenue Code penalty.

Forfeited Accounts

Forfeitures are used to reduce any employer contributions. For the years ended December 31, 2011 and 2010, forfeitures were $1,768 and $719 respectively.

Plan Expenses

As allowable under the Plan, certain costs associated with the Plan's administration are paid from Plan assets. For the years ended December 31, 2011 and 2010, the Sponsor elected to pay most all administrative costs, such as administrator, trustee and financial statement audit fees.

Participant Loans

Participants may borrow up to the lesser of $50,000 or 50% of their vested account balances. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with the prevailing rate charged by commercial lenders for a loan of similar duration, repayment terms and security, as determined by the plan administrator. Borrowers repay principal and interest over five years or less via regular payroll deductions.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounting Basis

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United State of America. Accordingly, income is recognized when earned, and expenses are recorded when incurred.

Investment Valuation and Income Recognition

Investment in registered investment companies are reported at their net asset values as calculated by the funds, based on the fair values of investments held. Fair value is generally determined by stock exchange prices, dealer quotes and other good-faith methods. Dividends are recorded on the ex-dividend date.

Investments held in Common Collective trusts for short-term are stated at amortized cost, which approximates fair value. On the other hand, investments in registered companies or collective investment funds are valued at their respective net asset value per share/unit on the valuation date.

NOTE 3: INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2011 and 2010.

	2011	2010
John Hancock Lifestyle Aggressive	198,723	337,861
John Hancock Retirement Living at 2025	123,908	210,353
John Hancock Retirement Living at 2030	87,565	151,167
John Hancock Lifestyle Balanced	164,347	141,282
John Hancock Lifestyle Growth	154,027	140,015
John Hancock Lifestyle Conservative	62,589	84,546
John Hancock Lifestyle Moderate	81,132	81,087

During the year ended December 31, 2011, the plan distributed $512,767, per agreement that governed the split-off event of the sponsor company into two separate companies.

NOTE 4: TAX STATUS

The Plan utilizes a prototype non-standardized volume submitter plan provided by Corbel, Inc. The Internal Revenue Service informed the Corbel by a letter dated September 4, 2001 that the form of this Corbel plan is acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of its employees. The Plan Sponsor believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

NOTE 5: PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

NOTE 6: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits at December 31, 2011.

NOTE 7: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement No. 157, Fair Value Measurements ("FAS 157"), establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

NOTE 7: FAIR VALUE MEASUREMENTS (continued)

The three levels of the fair value hierarchy under FAS 157 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other then quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2011 and 2010.

Common/collective trusts and mutual funds: Valued based on the closing net asset value per share of the shares of a fund times the number of shares of that fund held. The assets values are based on publicly quoted prices, the net asset value of the funds are publicly quoted.

Participant Loans: Valued based on unpaid balances which approximate fair value. There is no existing external exit market for these loans as all transactions are restricted to participants and the plan sponsor. These loans can not be assumed or sold to outside parties. There is no credit risk involved with these loans as any participant defaults are then deemed taxable distributions to the participant.

NOTE 7: FAIR VALUE MEASUREMENTS (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

December 31, 2011	Level 1	Level 2	Level 3	Total
Registered investment Companies	$1,131,106	-	-	$1,131,106
