Le Chef Bakery 401(k) Plan and Trust
Notes to Financial Statements

1. Description of the Plan

The following description of the Le Chef Bakery 401(k) Plan and Trust (the"Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The sponsor of the Plan is Le Pafe, Inc. (the "Company").

General

Effective October 1, 1999, the Company established the Plan for eligible employees of the Company. Employees of the Company are eligible to participate in the Plan on either January 1 or July 1, immediately following the date the employee completes 12 months of service and reaches age 21.

The Plan is a defined contribution plan covering all full-time employees of the Company with the exception of any employee (1) who is covered by a collective bargaining agreement unless the bargaining agreement provides for coverage, or (2) who is a non-resident alien who does not receive any earned income. The Plan is subject to the provisions of the Employee retirement Income security Act of 1974 ("ERISA").

The Plan has entered into a group annuity contract with John Hancock Life Insurance (U.S.A.) that provides guaranteed fixed income accounts and pooled separate accounts for participants of the Plan. John Hancock Life Insurance (U.S.A.) maintains the Plan's assets in these fund accounts, which are credited with actual earnings on the underlying investments and charged for Plan withdrawals.

The costs associated with the formation and certain administration of the Plan are borne by the Company.

Contributions

Participants may make voluntary contributions in the form of salary deferrals subject to the annual maximum amount imposed by the Internal Revenue Service. The Company may make discretionary matching contribution not to exceed individual participant's salary deferral. The Company may also make qualified non-elective contribution.

Le Chef Bakery 401(k) Plan and Trust
Notes to Financial Statements

1. Description of the Plan, continued

Participant Accounts

Each Participant's account is credited with the participant's and Company contributions and an allocation of Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service during which an employee completes not less than 1,000 hours of service with the Company.

There was a total amount of $1,534 forfeited in 2011. Forfeiture is used to reduce the Company's matching contribution.

Payment of Benefits

On termination of service, participants may receive lump-sum distribution or installment distribution of amounts equal to the value of their accounts.

2. Summary of Significant Accounting Policies

Method of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefits are recorded when paid.

Valuation of Investments

The Plan's investment in the Guaranteed Fixed Income Fund is valued at contract value plus accrued interest, which approximates fair value. The Plan's investments in the pooled separate accounts are valued at fair value as reported to the Plan by John Hancock Life Insurance (U.S.A.). Participant notes receivable are valued at cost, which approximates fair value. The Plan presents, in the statement of change in net assets available for benefits with fund information, the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains or losses and the unrealized appreciation (depreciation) of those investments.

2. Summary of Significant Accounting Policies, continued

Contributions

Participant contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings. Company contributions are recorded based upon the required Company matching levels as defined in the Plan agreement.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the administrator and trustee to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at December 31, 2011 and 2010 and the reported amounts of additions to and deductions from net assets for the years then ended. Actual results may differ from those estimates.

Basis of Accounting

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Date of Management's Review

Subsequent events were evaluated through October 8, 2012, which is the date the financial statements were available to be issued.

3. Investments

Investments are held in custodial capacity by John Hancock Life Insurance (U.S.A.), the trustee of the plan. Individual Plan participants direct the transactions that take place in their accounts. Participants may direct contributions to the Guaranteed Fixed Income Fund or toward the purchase of shares at net asset value of the annuity funds as listed below. Allocations of gains (losses) are at the individual contract level.

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated (depreciated) in value by $(74,582) as follows:

Mutual funds	$ (80,301)
Guaranteed fixed income	1,772
Participant loan	3,947
	$ (74,582)

Guaranteed Investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

SFAS No. 157, Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

4. Fair Value Measurements, continued

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations, and the fair value of participants loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 faur value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Guaranteed Interest Accounts	Participant Loans	Total
December 31, 2011			
Beginning balance	$ 66,958	$ 41,853	$ 108,811

Ending Balance	$ 66,958	$ 41,853	$ 108,811

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2011 are reported in interest income and net appreciation in fair value of investments.

The Plan's policy is to recogniza transfers into and out of level 3 as of the date of the event or chang in circumstance s that caused the transfer. For the year ended December 31. 2011, there were no significant transfers into or out of level 3.

5. Participant Notes Receivable

Under the terms of the Plan, participants may borrow from their vested balances, subject to certain limitations as set forth in the Plan and the Internal Revenue Code. The amounts borrowed carry fixed interest rates which are based on interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate charged for the periods was ranging from 5.25% to 10.25%. Loans are payable in full upon the participant's termination of employment from the Company. There were eight employee loans granted during the years ended December 31, 2011.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

7. Certified Information (Unaudited)

The following unaudited information was certified to be accurate and complete by the trustee with in the meaning of 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

Net Appreciation (depreciation) in fair value of investments	$ (77,530)
Investments as of December 31, 2011	2,109,506
Investments as of December 31, 2010	2,114,730

The schedule of assets held for investment purpose was also derived from information certified by the trustee.

8. Income Tax Status

The Company has received favorable determination from the Internal Revenue Service that the Plan qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Company is of the opinion that the Plan is currently being operated in compliance with the applicable requirements of the IRC and that the trust, which forms a part of the Plan, is tax exempt. Accordingly, no provision for state or federal income taxes has been provided.

9. Related Party Transactions

Certain Plan investments are in units of participation in a pooled separate account and a fixed income offered by the Plan trustee, and therefore, these transactions qualify as party-in-interest. Any purchases and sales of these funds are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transaction under ERISA.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
