THE RMS SAVINGS PLAN

Notes to Financial Statements

December 31, 2011 and 2010

1. DESCRIPTION OF THE PLAN

The following description of The RMS Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering most active employees of Receivable Management Services Corporation (“RMS,” the “Company” or “Plan Sponsor”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan is administered by the Company. Fidelity Management Trust Company (“Fidelity” or the “Custodian”) has been engaged as trustee, investment advisor, recordkeeper, and custodian for the Plan. Administrative expenses of the Plan are shared by the Company and the Plan, as defined by the Plan document.

On November 1, 2010, iQor US Inc. (“IQOR”) acquired RMS.

Eligibility to Participate

Employees of the Company are eligible to participate in the Plan as long as they are U.S. residents, and are not an independent contractor, a temporary employee or covered by a collective bargaining agreement.

Employees who have met the requirements of the Plan are eligible to participate immediately following their date of hire.

Contributions

Employees may defer up to 75% of their covered compensation subject to the Internal Revenue Service (“IRS”) limitations. Compensation is defined as wages or salary, plus overtime, bonus, and commission income, as defined by the Plan document. Participants age 50 or older, may elect to defer additional amounts (called “catch-up contributions”) to the Plan. Catch up contributions are allowed to a maximum of \$5,500 for each of the years ended December 31, 2011 and 2010, respectively.

Upon enrollment in the Plan, a participant may direct their contributions among several available investment options offered by the Plan.

The employer may make discretionary matching contributions. Employees must be making elective employee deferrals to be eligible to receive discretionary employer matching contributions. Participants may direct employer contributions among any of the available investment options. Effective July 1, 2009, the employer matching contributions were suspended.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the sponsor’s discretionary contributions if applicable, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

THE RMS SAVINGS PLAN
Notes to Financial Statements
December 31, 2011 and 2010

Vested Benefits and Forfeitures

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The Plan provides for 100% vesting in the value of Company contributions plus actual earnings thereon after three years of service.

Forfeited amounts may be used to reduce future administrative expenses and/or employer contributions. At December 31, 2011 and 2010, forfeited nonvested accounts totaled \$21,788 and \$21,966, respectively. Also, in 2011, \$16,733 of forfeitures were used to pay Plan expenses.

Notes Receivable from Participants

Participants may borrow up to 50% of their vested account balance, which amount cannot exceed \$50,000. The minimum loan amount is \$1,000. The loans are secured by the balance in the participants account. Interest rates charged on the loans are determined at the time of the participant's loan request and are based on the prime rate plus 2%. Loan repayments, including interest, are automatically deducted from the participants pay through after tax payroll deductions.

Payment of Benefits

On termination of service, a participant may request a lump-sum payment equal to the value of their vested account balance or may select voluntary deferral to age 70-1/2.

Certain hardship withdrawals by active employees may be permitted, to the maximum amount available for hardship distribution in the account of the participant. Also, a participant who has attained the age of 59-1/2 may elect to make cash withdrawals from his or her vested account.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a fully benefit-responsive stable value collective trust fund managed by Fidelity, the Managed Income Portfolio Fund ("MIP"). The Statement of Net Assets Available for Plan Benefits presents the fair value of the MIP as well as the adjustment of the fund from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Investment Valuation and Investment Income

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

THE RMS SAVINGS PLAN

Notes to Financial Statements

December 31, 2011 and 2010

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits

Benefits are recorded when they are paid.

Administrative Expenses

All expenses of the Plan are paid by the Company, except for fees related to participant loans, which are paid by the individual accounts of the participants utilizing the loan feature, and investment fees, which are paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. CERTIFIED INFORMATION

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the custodian of the Plan assets, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, notes receivable from participants, and adjustment from fair value to contract value for interest in collective trust relating to fully benefit-responsive investment, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2011 and 2010
- Net investment income and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2011.
- Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2011.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Oakmark Equity & Income	1,244,491	*

* Amounts did not represent 5% or more of the Plan's net assets for the indicated period.

** Amounts are reported at contract value. Fair value as of December 31, 2011 and 2010 as \$8,058,593 and \$10,063,798, respectively.

During 2011, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$858,700 .

5. FIDELITY MANAGED INCOME PORTFOLIO

The Plan holds an investment in a Fidelity collective fund, the Managed Income Portfolio Fund ("MIP"). The MIP Fund invests in investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds to provide daily liquidity. The investment contract issuers seek to preserve the principal investment and earnings, but do not guarantee that they will be able to do so.

A participants' ownership of the MIP Fund is represented as units. Units are issued and redeemed daily at MIP's constant NAV of \$1 per unit (not in thousands). MIP allows for daily liquidity with no additional day's notice required for redemption. It is the policy of MIP to use its best efforts to maintain a stable NAV of \$1 per unit (not in thousands), although there is no guarantee that MIP will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment in MIP at contract value. Contract value represents contributions made to MIP, plus earnings, less participant withdrawals and administrative expenses. MIP imposes certain restrictions on the Plan, and MIP itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes the occurrence of events that would cause MIP to transact at less than contract value is not probable

The following events may limit the Plan's ability to transact at contract value:

- The Plan is not exempt from federal income taxes.
- The Plan participates in a prohibited transaction that does not meet ERISA guidelines for exemption.

THE RMS SAVINGS PLAN

Notes to Financial Statements

December 31, 2011 and 2010

- Any communication given to Plan participants designed to influence a participant not to invest in MIP or to transfer assets out of MIP.
- Any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on MIP's cash flow.
- Any transfer of assets from MIP directly into a competing investment option.
- The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- Complete or partial termination of the Plan or its merger with another plan.
- Any substantive modifications of MIP or the administration of MIP that is not consented to by the wrap issuer.
- Any change in law, regulation or administrative ruling applicable to a plan investing in MIP that could have a material adverse effect on MIP's cash flow.

MIP is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. For example, this could result from MIP's inability to promptly find a replacement wrap contract following termination of a wrap contract. The wrap issuer's ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments. In the event that wrap contracts fail to perform as intended, MIP's NAV may decline if the market value of its assets declines.

As of December 31, 2011 and 2010, the Managed Income Portfolio Fund had an average crediting interest rate of 1.92% and 2.68%, respectively.

6. FAIR VALUE MEASUREMENTS

The Plan follows guidance that establishes a framework for measuring fair value. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The framework also provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the Financial Accounting Standards Board ("FASB") guidance are described below:

Level 1 - Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 - Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third-party pricing services for identical or similar assets or liabilities. Also included in Level 2 are investments measured using a net asset value ("NAV") per share, or its equivalent, that may be redeemed at that NAV at the period end date or in the near term, which is generally considered to be 90 days.

THE RMS SAVINGS PLAN
Notes to Financial Statements
December 31, 2011 and 2010

Level 3 - Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

However, the determination of what constitutes observable requires judgment by the Plan's management. Plan management considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple independent sources that are actively involved in the relevant market.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to plan management's perceived risk of that investment.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

- *Mutual funds:* Valued at the NAV of shares held by the Plan at year end.
- *Common/collective trust:* The Plan's interest in the collective trust is valued based on fair value information reported by the Fidelity Managed Income Portfolio Fund using the audited financial statements of the collective trust at year end. The underlying assets in these funds are primarily publicly traded equity securities, fixed income securities, and commodity-related securities and are valued at their net asset values ("NAVs") that are calculated by the investment manager or sponsor of the fund and have varying liquidity, redemption period notices and other restrictions.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

December 31, 2011 and 2010

In accordance with the fair value measurements and disclosures guidance, the following table presents the category, fair value, redemption frequency, and redemption notice period for plan investments, the fair values of which are estimated using the NAV per share as of December 31:

	2011	2010	Redemption	Redemption
	Fair Value	Fair Value	Frequency	Notice
			(if Currently	Period
			Eligible)	
Fidelity Managed Income Portfolio Fund ^(a)	<u>\$ 8,058,593</u>	<u>\$ 10,063,798</u>	Daily	1 Day in Advance

^(a) This investment is a common collective trust fund that is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments represent shares in mutual funds or other short-term investment funds administered by the Custodian, and, therefore, qualify as party-in-interest transactions.

8. PLAN TERMINATION

The Company anticipates and believes that the Plan will continue without interruption, but reserves the right to discontinue the Plan at any time subject to the provisions of ERISA. In the event of termination of the Plan, the net assets would be distributed in accordance with the terms of the Plan document, and each participant would become 100% vested in their account balance.

9. FEDERAL INCOME TAX STATUS

The Plan is an adoption of a nonstandardized prototype plan sponsored by Fidelity Management and Research Company. The sponsor received a favorable letter dated December 5, 2001, in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has not applied for its own determination letter. The Plan has been amended since that date, however, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and ERISA. Accordingly, no provision for taxes is recorded by the Plan.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Total net income per Form 5500	<u>\$ (7,381,533)</u>

11. RISKS AND UNCERTAINTIES

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

12. PROHIBITED TRANSACTIONS

During the years ended December 31, 2010 and 2009, there were untimely deposits of participant deferrals and loan repayments into the Plan. Pursuant to Section 406(a) of ERISA, this constitutes a loan between the Plan sponsor and the Plan, which is a prohibited transaction and is disclosed in the supplemental schedules. The untimely deposits were fully corrected during the year ended December 31, 2011 through the DOL Voluntary Fiduciary Correction Program ("VFCP").

13. SUBSEQUENT EVENTS

The Plan evaluated its December 31, 2011 financial statements for subsequent events through October 15, 2012, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in the consolidated financial statements.
