Participants and the Administrative Committee
Hoosier Plastic Fabrication, Inc. 401(k) Salary Reduction Plan

We were engaged to audit the accompanying statements of net assets available for plan benefits of Hoosier Plastic Fabrication, Inc. 401(k) Salary Reduction Plan (the "Plan") as of December 31, 2011 and 2010, the related statements of changes in net assets available for plan benefits for the years then ended, and the supplemental schedule on page 12 as of December 31, 2011. The financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of plan

The following brief description of the Hoosier Plastic Fabrication, Inc. 401(k) Salary Reduction Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which was established on January 1, 1995, is a defined contribution plan sponsored and administered by Hoosier Plastic Fabrication, Inc. (the "Company", "Sponsor" or "Plan Administrator"). Employees who have reached the age of 21 years and have completed three months of service with the Company are eligible to participate in the Plan. Participation continues until retirement, disability, termination of employment, or death, at which time the participant's vested account balance becomes payable. The Plan is subject to the provisions of the ERISA and is in conformance with all subsequent applicable tax law changes.

Contributions

The Sponsor makes safe harbor matching employer contributions at a rate of 100% of the first 3% of compensation and then 50% on the next 2% of compensation.

The Sponsor may make discretionary matches to the participant contributions at a rate of 100% of all contributions that do not exceed 4% of compensation.

The Sponsor may make discretionary profit sharing contributions to the Plan as determined annually by the Administrative Committee. For the years ended December 31, 2011 and 2010, the Sponsor did not make any discretionary profit sharing contributions.

Participants may make contributions to the Plan in an amount not to exceed 90% of their compensation, subject to maximum annual legal limits. Participants may also make rollover contributions from other retirement plans. Participants direct the investment of their contributions, and employer contributions (whether discretionary or non-discretionary) into various investment options offered by the Plan. The Plan currently offers several mutual funds as investment options for participants. Participants may elect to change their investment options and transfer their account balances among the different investment options at any time.

Participant accounts

Participants' accounts are credited with investment earnings and with an allocation of the Sponsor's discretionary and non-discretionary contributions. Allocations are based on participant compensation or account balances, as defined by the Plan.

1. Description of plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions and any non-discretionary contributions made on their behalf, plus actual earnings thereon. Other contributions vest ratably over a period of six-years. A year of vesting service is any year in which a participant works at least 1,000 hours for the Sponsor.

Notes receivable from participants

Participants may borrow a minimum of $1,000 up to a maximum of the lesser of 50% of their vested balance or $50,000, under the conditions stipulated by the Plan document. The notes are secured by the remaining vested balance in their accounts. Interest on participant notes is determined in accordance with Plan agreement and bear interest at a rate equal to the prime interest rate plus 1%. A note becomes immediately due and payable upon a participant's termination of employment, death, or disability. The notes receivable are valued at their outstanding balance plus accrued interest. Participants' notes receivable are for fixed terms, requiring regular periodic repayment by payroll deductions.

Benefit payments

A participant's account will be distributed upon retirement or termination in accordance with the distribution options defined by the Plan. Participants may receive their vested account balance in a lump sum distribution. Under certain circumstances, participants may make a financial hardship withdrawal.

Forfeitures

Forfeitures occur in the Plan year in which a participant terminates employment with the Company and receives a distribution of participants' entire vested account, or if participant does not receive a distribution, after five consecutive one year breaks in service.

Administrative expenses

For the years ended December 31, 2011 and 2010, all Plan administrative expenses were paid by the Plan.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(Continued)

Swenson

2. Summary of significant accounting policies (continued)

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for Plan benefits.

Payment of benefits

Benefits are recorded when paid.

Investment valuation

The Plan's investments are stated at fair value as determined by quoted market prices. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis.

Contributions

Discretionary employer contributions are recognized in the period for which they are declared.

Accounting standards updates

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, Fair Value Measurement (FASB ASC Topic 820), which requires additional disclosures and clarifies measurements for certain instruments. ASU 2011-04 is effective for annual reporting periods beginning after December 15, 2011. The Plan has elected to adopt the update early and the update did not have a material impact on either the disclosures or fair value measurements.

3. Plan termination

Although the Sponsor has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants shall become fully vested in their account balances and the net assets of the Plan will be allocated to the participants in accordance with the terms of the Plan.

4. Tax status

The Plan adopted the volume submitter profit sharing Plan and is relying on the tax exempt status from the Internal Revenue Service ("IRS") by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code ("IRC"). Therefore, no provision for income taxes has been included in the Plan's financial statements.

(Continued)

Swenson

4. Tax status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdiction; however, there are currently no audits for any tax periods in progress. The tax returns for the years ended December 31, 2008, 2009, 2010 and 2011 are open to audit.

5. Investments

The Plan's investments are held by Fidelity Management Trust Company at December 31, 2011. The following table presents the fair values of those investments that represent 5% or more of the Plan's net assets at December 31, 2011.

Fid Balanced	$315,507
Fidelity Retire MMKT	302,821
Fid Freedom 2020	295,525
Fid Freedom 2030	245,143
Pimco Total Return Adm	163,578
Fid Sel Cons Staples	154,925
Fid Strategic Income	127,647

6. Fair value of investments

FASB ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(Continued)

Swenson

6. Fair value of investments (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual funds*: Valued at the net asset value ("NAV") of shares held by the plan at year-end.
- *Money market account*: Valued at the cost basis which equals fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participants and the Administrative Committee
Hoosier Plastic Fabrication, Inc. 401(k) Salary Reduction Plan

We were engaged to audit the accompanying statements of net assets available for plan benefits of Hoosier Plastic Fabrication, Inc. 401(k) Salary Reduction Plan (the "Plan") as of December 31, 2011 and 2010, the related statements of changes in net assets available for plan benefits for the years then ended, and the supplemental schedule on page 12 as of December 31, 2011. The financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of plan

The following brief description of the Hoosier Plastic Fabrication, Inc. 401(k) Salary Reduction Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which was established on January 1, 1995, is a defined contribution plan sponsored and administered by Hoosier Plastic Fabrication, Inc. (the "Company", "Sponsor" or "Plan Administrator"). Employees who have reached the age of 21 years and have completed three months of service with the Company are eligible to participate in the Plan. Participation continues until retirement, disability, termination of employment, or death, at which time the participant's vested account balance becomes payable. The Plan is subject to the provisions of the ERISA and is in conformance with all subsequent applicable tax law changes.

Contributions

The Sponsor makes safe harbor matching employer contributions at a rate of 100% of the first 3% of compensation and then 50% on the next 2% of compensation.

The Sponsor may make discretionary matches to the participant contributions at a rate of 100% of all contributions that do not exceed 4% of compensation.

The Sponsor may make discretionary profit sharing contributions to the Plan as determined annually by the Administrative Committee. For the years ended December 31, 2011 and 2010, the Sponsor did not make any discretionary profit sharing contributions.

Participants may make contributions to the Plan in an amount not to exceed 90% of their compensation, subject to maximum annual legal limits. Participants may also make rollover contributions from other retirement plans. Participants direct the investment of their contributions, and employer contributions (whether discretionary or non-discretionary) into various investment options offered by the Plan. The Plan currently offers several mutual funds as investment options for participants. Participants may elect to change their investment options and transfer their account balances among the different investment options at any time.

Participant accounts

Participants' accounts are credited with investment earnings and with an allocation of the Sponsor's discretionary and non-discretionary contributions. Allocations are based on participant compensation or account balances, as defined by the Plan.

1. Description of plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions and any non-discretionary contributions made on their behalf, plus actual earnings thereon. Other contributions vest ratably over a period of six-years. A year of vesting service is any year in which a participant works at least 1,000 hours for the Sponsor.

Notes receivable from participants

Participants may borrow a minimum of $1,000 up to a maximum of the lesser of 50% of their vested balance or $50,000, under the conditions stipulated by the Plan document. The notes are secured by the remaining vested balance in their accounts. Interest on participant notes is determined in accordance with Plan agreement and bear interest at a rate equal to the prime interest rate plus 1%. A note becomes immediately due and payable upon a participant's termination of employment, death, or disability. The notes receivable are valued at their outstanding balance plus accrued interest. Participants' notes receivable are for fixed terms, requiring regular periodic repayment by payroll deductions.

Benefit payments

A participant's account will be distributed upon retirement or termination in accordance with the distribution options defined by the Plan. Participants may receive their vested account balance in a lump sum distribution. Under certain circumstances, participants may make a financial hardship withdrawal.

Forfeitures

Forfeitures occur in the Plan year in which a participant terminates employment with the Company and receives a distribution of participants' entire vested account, or if participant does not receive a distribution, after five consecutive one year breaks in service.

Administrative expenses

For the years ended December 31, 2011 and 2010, all Plan administrative expenses were paid by the Plan.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(Continued)

Swenson

2. Summary of significant accounting policies (continued)

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for Plan benefits.

Payment of benefits

Benefits are recorded when paid.

Investment valuation

The Plan's investments are stated at fair value as determined by quoted market prices. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis.

Contributions

Discretionary employer contributions are recognized in the period for which they are declared.

Accounting standards updates

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, Fair Value Measurement (FASB ASC Topic 820), which requires additional disclosures and clarifies measurements for certain instruments. ASU 2011-04 is effective for annual reporting periods beginning after December 15, 2011. The Plan has elected to adopt the update early and the update did not have a material impact on either the disclosures or fair value measurements.

3. Plan termination

Although the Sponsor has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants shall become fully vested in their account balances and the net assets of the Plan will be allocated to the participants in accordance with the terms of the Plan.

4. Tax status

The Plan adopted the volume submitter profit sharing Plan and is relying on the tax exempt status from the Internal Revenue Service ("IRS") by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code ("IRC"). Therefore, no provision for income taxes has been included in the Plan's financial statements.

(Continued)

Swenson

4. Tax status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdiction; however, there are currently no audits for any tax periods in progress. The tax returns for the years ended December 31, 2008, 2009, 2010 and 2011 are open to audit.

5. Investments

The Plan's investments are held by Fidelity Management Trust Company at December 31, 2011. The following table presents the fair values of those investments that represent 5% or more of the Plan's net assets at December 31, 2011.

Fid Balanced	$315,507
Fidelity Retire MMKT	302,821
Fid Freedom 2020	295,525
Fid Freedom 2030	245,143
Pimco Total Return Adm	163,578
Fid Sel Cons Staples	154,925
Fid Strategic Income	127,647

6. Fair value of investments

FASB ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(Continued)

Swenson

6. Fair value of investments (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual funds*: Valued at the net asset value ("NAV") of shares held by the plan at year-end.
- *Money market account*: Valued at the cost basis which equals fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Mutual funds:
