A. DESCRIPTION OF PLAN:

The following description of the Campagna-Turano Bakery, Inc. Self-Funded Benefit Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

1. *General.* The Plan provides health and other benefits covering all participants employed by the Campagna-Turano Bakery, Inc. and affiliated companies (Knead Dough Bakery, Inc., Turano Florida Bun, LLC, and Turano Georgia Bread, LLC). The Plan and related trust were established on January 1, 1982. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (**ERISA**), as amended.

2. *Benefits.* The Plan provides health benefits (medical, hospital, surgical, major medical, and dental, life insurance coverage, and death benefits) to full time participants (employees are eligible after 60 days of employment) and to their beneficiaries and covered dependents. Retired employees are entitled to similar health benefits if enrolled in COBRA.

   The Plan also provides health benefits to participants during periods of unemployment, provided that they have accumulated, in the current or in prior years, credit amounts (expressed in hours) in excess of the hours required for current coverage. Accumulated eligibility credits equal to one year's coverage may be carried forward.

   Health, disability and death claims of active and retired participants, dependents, and beneficiaries are processed by the administrator of the group, but the responsibility for payments to participants and providers is retained by the Plan.

3. *Contributions.* Participating employees contribute as follows through payroll deduction: $15 per week for single, $35 per week for married and $40 per week for family.

4. *Other.* The Plan's board of trustees, as sponsor, has the right under the Plan to modify the benefits provided to active employees. The Plan may be terminated only by joint agreement between the employer and participants, subject to the provisions set forth in ERISA.

B. SUMMARY OF ACCOUNTING POLICIES:

1. *Basis of accounting.* The financial statements of the Plan are prepared under the accrual method of accounting.

2. *Use of estimates.* The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. *Cash and Cash equivalents.* The Plan considers all short-term, highly-liquid unrestricted investments with original maturities of three months or less when purchased to be cash equivalents.

B. SUMMARY OF ACCOUNTING POLICIES (CONTINUED):

4. *Payment of benefits.* Health claims and premiums are reported when paid. Any refunds due to overpayments, subrogation, or adjustments are recorded in the period received and are shown netted with benefit payments.

5. *Fair value of financial instruments.* FASB ASC Topic 825, *Financial Instruments,* requires disclosure of fair value information about financial instruments. Management believes the fair value of financial instruments approximates their carrying amounts. The carrying value of cash and cash equivalents approximate their estimated fair values due to the short-term nature of these instruments.

6. *Prescription rebates.* Prescription drug rebates are recorded in the period to which the related claims were paid and are shown netted with benefit payments.

7. *Subsequent events.* In May 2009, the FASB issued ASC Topic 855, *Subsequent Events,* which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but prior to the issuance of the financial statements. ASC 855 distinguishes events requiring recognition in the financial statements and those that may require disclosure in the financial statements. Furthermore, ASC 855 requires disclosure of the date through which subsequent events were evaluated. ASC 855 is effective for annual periods after June 15, 2009. The Plan has adopted ASC 855 and has evaluated the period after the balance sheet date up through October 15, 2012, which is the date that the financial statements were issued, and determined that there were no subsequent events or transactions that required recognition or disclosure in the financial statements.

C. FUNDING AND OPERATIONS OF THE PLAN:

Funding of the Plan. Contributions funded by Campagna-Turano Bakery, Inc., the Plan's sponsor, pursuant to the Plan, are invested in assets held in a trust fund (the Fund). North Star Trust Company, the trustee of the Fund (Trustee), maintains the Fund's money as set forth in the Plan's policy. Funds consist of a money market account and are reported in the accompanying financial statements at fair value. Interest income from the account is recognized when earned.

Administration. The Campagna-Turano Bakery, Inc. Self-Funded Benefit Plan Administrative Committee has the responsibility for administering the Plan. Campagna-Turano Bakery, Inc. Self-Funded Benefit Plan Review Committee has the responsibility for the management and control of the assets of the trust.

D. CONCENTRATION OF CREDIT RISK:

Financial instruments that subject the Plan to concentrations of credit risk consist of the money market account. The Plan maintains balances that at times may exceed amounts insured by the Federal Deposit Insurance Corporation (FDIC). Accounts in the United Sates are guaranteed by the FDIC up to $250,000. At December 31, 2011 and 2010, the Plan had approximately $3,896,851 and $3,154,642, respectively, in excess of FDIC insured limits. The Plan has not experienced any losses in the account.

E. RISKS AND UNCERTAINTIES:

The incurred but not yet reported obligations are reported on certain assumptions pertaining to interest rates, health care inflations rates, and employee demographics, all of which are subject to change. Due to inherent uncertainties in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

F. PLAN TERMINATION:

Under certain conditions, the Plan may be terminated. Upon termination, the assets remaining shall be subject to the applicable provisions of the Plan in effect and shall be used until exhausted to pay benefits to employees in the order of their entitlement.

G. FAIR VALUE MEASUREMENTS:

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 inputs to the valuation methodology includes the following:
  -Quoted prices for similar assets or liabilities in active markets
  -Quoted prices for identical or similar assets or liabilities in inactive markets
  -Inputs other than quoted prices that are observable for the asset or liability
  -Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means
  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair market value measurement level within the fair value hierarchy is based on the lowest level of any input tat is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

G. FAIR VALUE MEASUREMENTS (CONTINUED):

Cash and cash equivalents consist of shares of a money market portfolio that is valued using amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the valuation of the Plan's cash and cash equivalents by the above ASC 820 fair value hierarchy levels as of December 31, 2011 and 2010:

	Assets at fair Value as of December 31, 2011			
	Level 1	*Level 2*	*Level 3*	*Total*
Cash and cash equivalents	$4,146,851	----	----	$4,146,851
Total assets at fair value	$4,146,851	----	----	$4,146,851

	Assets at fair Value as of December 31, 2010			
	Level 1	*Level 2*	*Level 3*	*Total*
Cash and cash equivalents	$3,404,642	----	----	$3,404,642
Total assets at fair value	$3,404,642	----	----	$3,404,642

H. CLAIMS INCURRED BUT NOT REPORTED:

Plan obligations at December 31, 2011 and 2010, for health claims incurred by active participants but not reported at that date, are estimated by the Plan's trustee as of that date in accordance with accepted actuarial principals. Such estimated amounts are reported in the statement of net assets available for benefits and were estimated using a "claims development" or "lag" method, a method generally accepted and commonly used in actuarial practice.

I. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:
