NOTE 1. Description of the Plan

Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a profit sharing plan covering employees who have completed one year of service (at least 1,000 hours), and choose to participate in the Plan. For elective deferrals participation is after 90 days of employment. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Employer contributions are the lesser of 15% of compensation or $30,000.

Each year, employee participants may contribute up to the maximum annual deferral allowed under Sec. 401(k) of the Internal Revenue Code.

Employees who are participants and who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions.

Participants' accounts and forfeitures:

All accounts are participant directed. Each participant's account is credited with the employer's and the participant's elective deferrals as well as Plan earnings and losses attributable to each participant's account.

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. At December 31, 2011 there were no forfeited non-vested accounts. No forfeitures of terminated non-vested account balances were allocated to remaining participants in 2011.

Vesting:

If a participant's employment with the Employer ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Employer. Participants vest 20% per year of service after two years of service and are 100% vested after six years of service.

NOTES TO FINANCIAL STATEMENTS - Continued

NOTE 1. Description of the Plan - continued

Investment options:

Upon enrollment in the Plan, a participant may direct the Employer's contributions in any increments, in any of twenty-four investment options. Participants may change their investment options daily.

Payment of benefits:

Upon termination of service due to death, disability, retirement, or any other reason, a participant or his/her beneficiaries may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in periodic payments.

Participant loans:

Participants may borrow from their fund accounts. The loan is secured by the remaining balance in the participant's account and bears interest at a rate commensurate with local prevailing rates. The interest rate charged during the 2011 and 2010 plan years was 3.25% to 9.25%, which was a reasonable rate of interest as required by the Plan. Principal and interest is paid ratably on at least a quarterly basis over a five-year period. If the loan is for the purchase of a principal residence, it may then be repaid over a ten-year period.

NOTE 2. Summary of significant accounting policies

Method of accounting:

The financial statements have been prepared using the accrual basis of accounting.

Investment valuation and income recognition:

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 3. Tax status

The Plan is in the process of applying for exemption under the Internal Revenue Code. The plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the trust is tax-exempt.

NOTE 4. Fair value measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the quoted net asset value of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS - Continued

NOTE 4. Fair value measurements - continued

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

	Fair Value Measurement			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
December 31, 2011:				
Investments, at fair value:				
Mutual funds	$ 12,383,971	$ -	$ -	$ 12,383,971
Total Investments	$ 12,383,971	$ -	$ -	$ 12,383,971

For the period ended December 31, 2011, there were no transfers in or out of levels 1, 2 or 3.

NOTE 5. Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 6. Transactions with parties in-interest

Fees incurred during the year for legal, accounting, and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.
