BAR NZ 401(K) RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2011 and 2010

**NOTE 1. DESCRIPTION OF THE PLAN**

The following description of the Bar NZ (Company) 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for more complete information of the Plan's provisions.

**General:**

The Plan is a defined-contribution plan that became effective on November 1, 1998. The Plan, which is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and all subsequent statutory revisions thereto, was created for the benefit of all eligible employees of the Company.

The Plan is managed by the trustees who are also management personnel of the Company. The Plan has engaged ADP Retirement Services, Inc., the Plan administrator, to maintain and process records of participant account activity. State Street Bank and Trust Company, the Plan custodian, holds and invests Plan assets in accordance with directions from the participants.

**Eligibility:**

Employees who have one year of service, worked 1,000 hours during the year and attained age 21 are eligible to participate in the Plan. Ineligible employees are: (1) employees whose employment is governed by the terms of a collective bargaining agreement; and (2) employees who are nonresident aliens who do not receive any earned income from the employer which constitutes income from sources within the United States.

**Contributions:**

Participants may contribute up to 90% of pretax annual compensation, up to a maximum amount allowed by the IRC, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers numerous mutual funds as investment options for participants.

The Company may make discretionary matching contributions which are allocated to the participants' accounts pro-rata based on the participants' salary deferrals made during the year.

The Company's current policy is to match 25% of the employees' salary deferrals up to a maximum match of 1.25% of the employee's compensation. The Company may also make discretionary non-matching contributions which are allocated to the participants' accounts pro-rata based on the employees' compensation during the year.

BAR NZ 401(K) RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
December 31, 2011 and 2010

**NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)**

**Contributions (continued):**

An employee must be employed by the company on the last day of the year and have worked at least 1,000 hours during the year in order to receive the Company's discretionary contribution. There was no change in the Company's contribution policy in 2011 and 2010.

**Participant Accounts:**

Separate accounts are maintained for each participant. Each participant's account is credited with the participant's contribution, an allocation of any Company contribution and the participant's portion of earnings (losses), and charged with an allocation of administrative expenses. Allocations of the Company's discretionary contributions are based on a formula as prescribed by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Notes Receivable from Participants:**

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are evidenced by promissory notes, secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. The loans mature in 2012 through 2016 and principal and interest is paid through biweekly payroll deductions.

**Vesting:**

A participant is 100% vested in his or her contributions plus actual earnings thereon at all times. Participants do not vest in any of the Company's discretionary contributions until after three years of service, at which point they then become 100% vested in the Company's discretionary contributions.

Also, the participants become 100% vested upon retirement, death, or disability of the participant while employed by the Company.

**Forfeitures:**

Forfeitures of non-vested portions of participant accounts reduce employer contributions. During 2011, there were no forfeitures used to reduce the employer contributions. As of December 31, 2011 and 2010, \$396 was available in both years to reduce future employer contributions.

**Payment of Benefits:**

Participants are eligible to receive benefits equal to the value of the vested interest in his or her account upon termination of employment, attaining the age of 65, or as hardship withdrawals subject to certain requirements. Benefits are paid under various options as defined in the Plan.

BAR NZ 401(K) RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
December 31, 2011 and 2010

**NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)**

**Administrative Expenses:**

Substantially all the expenses of maintaining the Plan are paid by the Company.

**Plan Termination:**

Although it has not expressed intent to do so, the employer has the right at any time to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participant accounts become fully vested.

**Tax Status:**

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

**NOTE 2. SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting:**

The Plan's financial statements have been prepared under the accrual method of accounting.

**Estimates:**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition:**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Notes Receivable from Participants:**

Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest.

**Payment of Benefits:**

Benefits are recorded when paid.

**Subsequent Events:**

Subsequent events have been evaluated through October 10, 2012, which is the date the financial statements were available to be issued.

**NOTE 3. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN**

**NOTE 4. RISKS AND UNCERTAINTIES**

The Plan provides for investment in various mutual funds. Mutual funds are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**NOTE 5. FAIR VALUE MEASUREMENTS**

The Plan classifies its investments as of December 31, 2011 and 2010, based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB Accounting Standards Codification (ASC) 820 are described below:

- |         |  |
|---------|--|
| Level 1 | Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;  |
| Level 2 | Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly; |
| Level 3 | Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.   |

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Shares of mutual funds are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.
