NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

NOTE 1: DESCRIPTION OF PLAN

The following description of the Medic Ambulance Service, Inc. 401(k) Profit Sharing Plan & Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution and profit sharing plan covering all eligible employees of Medic Ambulance Service, Inc. (the "Company"), who have completed three consecutive months of service and are age twenty or older, as defined by the Plan. The Plan, which was adopted January 1, 2005, is subject to the provisions of section 401(k) of the Internal Revenue Code ("IRC") and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Employees may defer a portion of their pre-tax compensation and contribute it to the Plan, not to exceed $16,500 in 2011 and 2010. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Each participant may elect to have their individual account invested in any combination of funds held by the Plan custodian.

The Company, based on a discretionary formula determined from year to year, may elect to make matching contributions and profit sharing contributions. All contributions are subject to limits set by Federal law.

Participant Accounts

Each participant's account is credited with the participant's contributions, and allocations of the Company's contributions, net earnings from investments and changes in investment values, and administrative expenses. Allocations are based on participant contributions, earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are always fully vested in accounts attributable to salary deferrals, rollover contributions, safe harbor contributions, matching contributions, and profit sharing contributions.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of employment due to retirement, death, disability or separation from service, the balances in the participants' accounts will be distributed to the participants or to their beneficiaries in either a lump sum, equal installments in the form of nontransferable annuity, or some combination of the foregoing, at the election of the beneficiary.

Notes Receivable from Participants

Notes receivable to participants consist of promissory notes received from participants in exchange for the distribution of cash from the Plan. A participant is allowed to borrow a minimum of $1,000, up to one half of the balance of their Plan account, up to a maximum of $50,000. Loans must be repaid over no more than a five-year period with the exception of a loan for the participants' principal residence that may have a repayment period beyond five years. Principal and interest is paid ratably through payroll deductions. Loans to participants are stated at the principal amount outstanding, which approximates fair value.

Administrative Expenses

The Company, as Plan sponsor, pays certain administrative expenses on behalf of the Plan. Participant's accounts are adjusted for fees pertaining to termination processing.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1) Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Level 2) Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3) Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Investments in mutual funds are stated at their fair value measured by the securities held by the funds. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes net unrealized and net realized gains and losses on investments during the year and is presented net of investment expenses. Investment income is allocated to individual participant accounts based upon the participant's share of the investment fund.

As of December 31, 2011, assets in the plan, as defined by ASC Topic 820, were as follows:

	Assets at fair value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total

Total assets at fair value	$ 1,062,082	-	-	$ 1,062,082

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

In preparing the financial statements in accordance with accounting principles generally accepted in the United States of America, management makes estimates and assumptions which affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

Subsequent Events

In preparing the accompanying financial statements, management has considered events that have occurred after December 31, 2011, through October 11, 2012, the date these financial statements were available for issuance. Management was not aware of any subsequent events requiring additional disclosure.

NOTE 3: INVESTMENTS

Investments exceeding 5% of the Plan's net assets as of December 31 include the following:

	2011	2010
Investments at Fair Value		
BlackRock Ready Assets Prime Money	$ 354,752	$ 411,410
Davis NY Venture C	240,319	211,700
MFS Total Return C	203,200	178,555

NOTE 4: TAX STATUS

Although the Company has not applied for a determination letter from the Internal Revenue Service ("IRS") as to the qualified status of the Plan, the Company, in March 2008, received a favorable determination letter from the IRS as to the qualified status of the prototype Plan from which the Plan's terms were drawn. The Company believes that the Plan is being operated in compliance with the applicable requirements of the IRC and ERISA. Accordingly, no provision has been made for federal or state income taxes.

NOTE 5: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time. In the event of Plan termination, all accounts become fully vested and non-forfeitable. Plan assets would first be used to pay any expenses properly charged to the Plan. The remainder would then be distributed to participants in a lump sum.

NOTE 6: RISKS AND UNCERTAINTIES

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 7: NON-EXEMPT TRANSACTIONS

For the Plan years ended, December 31, 2008, 2009, and 2010, the Company incorrectly applied its profit sharing calculation due to administrative errors by excluding certain employees who were eligible to receive such contributions. The Company will make additional contributions to the Plan of $17,740, $32,212, and $36,390 for the years ended December 31, 2008, 2009, and 2010, respectively, to provide these employees with their correct share of the contributions. The Company will also make a contribution of $9,291 to the Plan to compensate the affected participants for their lost earnings. These amounts are included in Employer Contribution Receivables in the Statement of Net Assets Available for Benefits as of December 31, 2011.

NOTE 8: RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Form 5500:
