ROCKWOOD CLINIC, P.S. EMPLOYEE 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Plan Description

General – The Plan is a participant-directed, defined contribution plan established by Rockwood Clinic, P.S. (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In 2010, Rockwood Clinic, P.S. was acquired by Community Health Systems, Inc. (CHS). The Plan was amended and restated effective January 1, 2011.

The following description of Rockwood Clinic, P.S. Employee 401(k) Profit Sharing Plan (Plan) is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the Plan document.

Eligibility – Employees are eligible to begin elective deferrals and receive employer matching contributions as soon as administratively feasible following the completion of six months of service and attainment of age 21. An employee must be employed on the last day of the Plan year to be eligible to receive employer matching or employer discretionary contributions, except if the employee has reached normal retirement age by the end of the Plan year.

Contributions – Each year, participants may contribute a percentage of their pretax annual compensation, as defined by the Plan, subject to Internal Revenue Service (IRS) limits. Starting January 1, 2011, the Plan provides for automatic enrollment deferring 3% of the participant's eligible compensation unless otherwise elected by the participant. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company, at its discretion, may make a matching contribution to the Plan, based upon their elective deferral amount. During 2011, the Company matched contributions in an amount equal to 100% of the first 1% of each participant's elective contribution and 50% up to the next 5%.

Additional discretionary nonelective contributions may be contributed at the option of the Company. For the Plan year ended December 31, 2011, no discretionary nonelective contributions were made.

ROCKWOOD CLINIC, P.S. EMPLOYEE 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Plan Description (continued)

Vesting – Participants are 100% vested in their contributions, Company discretionary matching contributions, and the earnings (losses) thereon. Vesting in the participant's share of Company discretionary nonelective contributions and the earnings (losses) thereon is based on years of continuous service and hire date, according the following schedule:

Years of Service	Percentage Vested
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Notes receivable from participants – Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of the vested account balance, whichever is less. Loan payments must be made through payroll deductions over periods ranging up to five years, or longer for the purchase of a primary residence. Interest is charged at the prime rate plus 1.00%. The loans are secured with the balance in the participant's account. As of December 31, 2011, interest rates ranged from 3.25% to 10.50% with various maturities through November 2014.

Benefits – Upon termination of service, death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's account. A participant may elect to have his or her account distributed in either one lump-sum payment or in annual, quarterly, or monthly installments. Upon termination for other reasons, a participant may receive an amount equal to the participant's vested interest in his or her account.

Benefits are recorded when paid.

Participant accounts – Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions, the Company's matching contributions, the Company's discretionary profit sharing contributions, and an allocation of the Plan's net earnings (losses) and related administrative expenses. Allocation of earnings (losses) and administrative expenses is based on the proportion of each participant's account balance to the total of all participants' account balances.

Forfeited accounts – Participants who terminate employment forfeit the nonvested portion of Company discretionary contributions and the earnings (losses) thereon after five consecutive one-year breaks in service. Forfeitures are used to reduce future employer contributions. Forfeitures totaling \$69,284 were used to reduce Company discretionary contributions during the year ended December 31, 2011. As of December 31, 2011 and 2010, unused forfeited nonvested accounts totaled \$210,315 and \$-0-, respectively.

ROCKWOOD CLINIC, P.S. EMPLOYEE 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Plan Description (continued)

Investment options – Participants may direct their elective contributions, Company contributions, and any related earnings into a variety of investment options that were selected to provide participants with the ability to direct their accounts among investments with varying risk. Participants may change their investment elections on a daily basis.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

Recent accounting pronouncements – In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements*. The guidance, which was effective for reporting periods beginning after December 15, 2009, required additional disclosures about transfers between levels within the fair value hierarchy, and clarified existing disclosure requirements regarding classes of assets and liabilities measured at fair value. Additional guidance, which is effective for reporting periods beginning after December 15, 2010, requires the Plan to present information about purchases, sales, issuances, and settlements on a gross basis in the reconciliation of the beginning and ending balance of Level 3 fair value measurements. The Plan adopted the Level 3 reconciliation disclosures effective January 1, 2011. See Note 4.

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The new guidance is effective for reporting periods beginning after December 15, 2011. Plan management does not expect the adoption of ASU 2011-04 to have a material effect on the statements of net assets available for benefits and statement of changes in net assets available for benefits.

Valuation of investments – Investments are stated at fair value as certified by the Plan's trustee, Principal Trust Company.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

ROCKWOOD CLINIC, P.S. EMPLOYEE 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Valuation of investments (continued) – Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Authoritative guidance requires the statements of net assets available for benefits present the fair value of the investments, as well as the adjustment from fair value to contract value for fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Estimates – The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Administrative expenses – All expenses with regard to the operation and administration of the Plan are paid by the Plan participants through a reduction of earnings.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Subsequent events – Subsequent events are events or transactions that occur after the statements of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statements of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statements of net assets available for benefits but arose after the statements of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 12, 2012, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

Note 3 – Investments

Investments representing 5% or more of the Plan's net assets available for benefits consist of the following as of December 31:

	2011	2010
Fidelity Contra Fund	*	\$ 6,234,002
Principal Lifetime 2030 Inst Fund	\$ 5,137,609	*
Principal Lifetime 2020 Inst Fund	8,605,707	*
Principal Lifetime 2015 Inst Fund	7,786,446	*
Principal Lifetime 2025 Inst Fund	7,094,776	*

* Did not exceed 5% of net assets

During 2011, the Plan's investments (including investments bought, sold, and held during the year) appreciated (depreciated) in fair value as follows:

Mutual funds	\$ (2,301,010)
Pooled separate accounts	(54,236)
Stable Value fund	45,770
Self-directed brokerage accounts	(405,864)
	<u>\$ (2,715,340)</u>

Note 4 – Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1** Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets, or liabilities;
- Level 2** Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly;

ROCKWOOD CLINIC, P.S. EMPLOYEE 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 – Fair Value Measurements (continued)

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Shares of mutual funds are valued using the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Common stocks are valued at the closing price reported on the active market on which the individual securities are traded.

Units held in pooled separate accounts are valued using the NAV of the fund as reported by the fund managers. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The net asset value of a pooled separate account is calculated based on a compilation of primarily observable market information. The Plan invests in Principal LargeCap S&P 500 Index Separate Account, Principal MidCap S&P 400 Stock Index Separate Account, and Principal SmallCap S&P 600 Index Separate Account.

The Plan has investments in the Morley Stable Value Fund (Fund), which is a collective investment trust fund designed to provide the preservation of capital and returns that are consistent regardless of stock and bond market volatility. The Fund seeks to earn a high level of income consistent with those objectives. The Fund holds guaranteed investment contracts, which typically have a fixed maturity. Each contract contains a provision the issuer will, if required, repay principal at the stated contract value for the purpose of paying benefit payments (fully benefit-responsive).

Units held in the Fund are valued using the NAV of the Fund. The NAV is based on the fair value of the underlying assets owned by the Fund, minus its liabilities, and then divided by the number of units outstanding. The net asset value of the Fund is calculated based on a compilation of primarily observable market information. The number of units of the Fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the Fund. Accordingly, the unit value for the Fund is classified within Level 2 of the valuation hierarchy.

ROCKWOOD CLINIC, P.S. EMPLOYEE 401(k) PROFIT SHARING PLAN **NOTES TO FINANCIAL STATEMENTS**

Note 4 – Fair Value Measurements (continued)

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose by level, the fair value hierarchy, of the Plan's assets at fair value as of December 31, 2011 and 2010:

Note 5 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated December 30, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

ROCKWOOD CLINIC, P.S. EMPLOYEE 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that such discontinuance results in the termination of the Plan, all amounts credited to participant accounts become 100% vested.

Note 7 – Information Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company has certified to the completeness and accuracy of:

- Mutual funds, individually directed accounts, the contract value of the stable value fund, pooled separate account, and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010.
- Net depreciation in fair value of investments, dividends, and interest, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2011.
- Investments reflected on the supplementary schedule of assets (held at end of year), except for the stable value fund, which is certified at contract value.

Charles Schwab Trust Company has certified to the completeness and accuracy of:

- Mutual funds, individually directed accounts, and interest bearing cash reflected on the accompanying statement of net assets available for benefits as of December 31, 2010.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTES TO FINANCIAL STATEMENTS

Note 9 – Party in Interest Transactions

Plan investments include shares of registered investment company funds managed by Principal Financial Group.
