The Sailfish Point 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of The Sailfish Point 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan, which was established effective January 1, 1995, is a defined contribution plan that qualifies under Section 401(k) of the Internal Revenue Code (the "Code") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan includes substantially all employees of Sailfish Point Property Owner's & Country Club Association, Inc. (the "Company") who have completed nine consecutive months of service, except non-resident aliens and those covered by a collective bargaining agreement.

Contributions: For each plan year, participants may contribute from 1% up to 75% of gross wages, as defined in the Plan, subject to certain Internal Revenue Code ("Code") limitations. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants who have attained age 50 at the end of the Plan year are eligible to make catch-up contributions in accordance with, and subject to, the limitations of Section 414 (v) of the Internal Revenue Code ("IRC"). Contributions are subject to certain limitations.

The Company provides a discretionary match of 25% of each participant's salary deferral contribution, as defined in the Plan document. For each Plan year, the Company may also make discretionary profit sharing contributions. Participants must be employed on the last day of the year or must have completed 500 hours of service during the Plan year to be eligible to receive the discretionary profit sharing contribution. For the year ended December 31, 2011, there were no discretionary profit sharing contributions.

Investment options: Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers twenty seven mutual funds and seven common or collective trust funds as investment options for participants. Participants may change their investment options daily via the telephone or Internet.

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Each participant's account is charged with allocations of administrative expenses and Plan losses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all salary deferral contributions, Company matching contributions, and discretionary profit sharing contributions, plus earnings thereon.

Payment of benefits: At termination of service for any reason, the participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account as a lump-sum distribution or in installments. In the event that the participant's vested accrued benefit is less than \$5,000, the Plan Administrator may make a single lump-sum payment without the election or request of a terminated participant. The Plan requires that such distributions of amounts less than \$5,000 but greater than \$1,000 be rolled over to an individual retirement account unless the participant elects to receive the distributions directly.

The Sailfish Point 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Participants may request in-service distributions upon attaining age 59 ½ or for financial hardship, as defined in the Plan.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Note terms range from 1 to 5 years or may be longer for the purchase of a primary residence. The notes bear interest at fixed rates that range from 4.25% to 9.25% as of December 31, 2011, which are commensurate with local prevailing rates at the date of each note as determined by the Plan Administrator. Principal and interest are paid ratably through regular payroll deductions. A participant may elect to repay their note at any time without penalty. Upon repayment, both the principal and interest will be reinvested in the participant's account.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of investment contract as well as the adjustment of the fully benefit-responsive contract from fair value to contract value, if any. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis with respect to fully benefit-responsive investment contracts.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Payment of benefits: Benefits are recorded when paid.

Notes receivables from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

The Sailfish Point 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Accounting Policies (Continued)

Administrative expenses: Administrative expenses which are not paid by the Plan sponsor are paid directly from the Plan assets. Administrative expenses paid by the Plan include investment management services and consulting services incurred in connection with the administration of the Plan. Other administrative expenses are paid directly by the Sponsor and include audit fees and legal fees.

Recent accounting pronouncements: In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The ASU amended ASC 820, *Fair Value Measurements*, to clarify the application of existing fair value measurement requirements and change particular principles in ASC 820. In addition, the ASU requires additional fair value disclosures. The amendments are effective for annual periods beginning after December 15, 2011, and should be applied prospectively. Plan management is currently evaluating the effect the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 12, 2012, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Trustee

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified or provided by State Street Bank & Trust Company ("State Street"), the trustee under the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information, except for comparing such certified information to information included in the Plan's financial statements and supplemental schedule.

Note 3. Information Certified and Provided by Trustee (Continued)

The following table presents the assets in this Plan as of December 31, 2011 and 2010 that were certified by State Street, the trustee under the Plan. Single assets representing 5% or more of the Plan's net assets are separately identified:

	2011	2010
Registered investment companies, at fair value as determined by quoted market prices:		
Franklin Templeton Conservative Allocation Fund – Class R	\$ 1,344,487	\$ 1,469,060
PIMCO Total Return Fund – Class R	373,157	374,451
Nuveen Large Cap Value Fund – Class R3 *	162,318	198,701
Other	686,919	743,081
Common collective trust funds, at fair value as quoted by State Street:		
INVESCO Stable Asset Fund Class ADP85	408,629	-
SSGA S&P 500 Index Fund	221,789	189,097
Other	162,783	204,283
	<u>\$ 3,360,082</u>	<u>\$ 3,178,673</u>
Notes receivable from participants	<u>\$ 50,214</u>	<u>\$ 71,913</u>

* Less than 5% of net assets as of December 31, 2011, but is included for comparative purposes.

State Street has also certified the completeness and accuracy of \$81,838 of net depreciation of fair value of investments, \$55,666 of interest and dividends on the aforementioned Plan investments and \$4,923 of interest income on notes receivable from participants for the year ended December 31, 2011.

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated as follows:

Shares of registered investment companies (mutual funds)	\$ (74,044)
Common or collective trust	(7,794)
	<u>\$ (81,838)</u>

Note 4. Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under that framework are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

The Sailfish Point 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- Level 2 – Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value: Shares of registered investment companies are valued at quoted market prices, representing the net asset value of shares held by the Plan at year-end. Units held in common collective trust funds are valued based on the unit prices quoted by the fund, representing the net asset value of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value as of December 31, 2011 and 2010, respectively:

Assets at fair value as of December 31, 2011

The following table sets forth additional disclosures for the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2011 and 2010:

	2011 Fair Value	2010 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period	Redemption Restriction

Total	\$ 793,201	\$ 393,380	\$ -			

(a) This fund invests in stocks across the spectrum of U.S. industries, and owing to their broad exposure, the portfolios' returns are often similar to those of the S&P 500 Index. Stocks in the top 70% of the capitalization of the U.S. equity market are defined as large-cap.

(b) This fund invests in U.S. stocks of various sizes and styles, giving it a middle-of-the-road profile. The U.S. mid-cap range for market capitalization represents 20% of the total capitalization of the U.S. equity market.

(c) This fund invests in U.S. firms at the smaller end of the market-capitalization range. Some aim to own an array of value and growth stocks while others employ a discipline that leads to holdings with valuations and growth rates close to the small cap averages. Stocks in the bottom 10% of the capitalization of the U.S. equity market are defined as small-cap.

(d) These funds seek capital appreciation by investing in companies that are listed on foreign exchanges.

(e) This fund offers intermediate term returns and liquidity (subject to plan rules) without market value risk or other penalty. This is typically accomplished through a wrap contract or investment contract that guarantees the payment of plan-related benefits at book value (cost plus accrued interest).

The Sailfish Point 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

(f) These funds primarily invest in bonds, generally corporate, municipal, or U.S. government debt obligations. Bond funds usually emphasize income rather than growth.

Participants who request withdrawals from the common collective trust stable value fund may not directly transfer their interest in the fund to a Plan investment option determined by the Trustee to be a competing investment option. A participant may only invest in a competing investment option by first transferring assets to a non-competing investment and the assets must remain in the noncompeting investment option for a period of three months.

Note 5. Investment Contracts

As of December 31, 2011, the Plan holds an investment in the INVESCO Stable Asset Fund Class ADP85, which is a common collective trust fund managed by State Street. The common collective trust fund guarantees a minimum rate of return and is fully benefit-responsive, provided that all terms have been met. As such, contract value, as reported to the Plan, is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Stable Value Fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. As of December 31, 2011 and 2010, fair value approximated contract value and no adjustment to contract value was recorded.

Note 6. Income Tax Status

Effective September 1, 2010, the Plan adopted a non-standardized form of a prototype plan sponsored by Automatic Data Processing ("ADP"). The prototype plan has received an opinion letter, dated March 31, 2008, from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations for years prior to 2008.

Note 7. Plan Termination and Amendment

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to amend any or all provisions of the Plan as well as discontinue its contributions or terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the net assets of the Plan must be allocated among the participants and beneficiaries of the Plan in the order provided for by ERISA.

The Sailfish Point 401(k) Plan

Notes to Financial Statements

Note 8. Related Party Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Accordingly, the contributions of the Employer are considered party-in-interest transactions. State Street is the trustee as defined by the Plan and ADP is the third-party administrator and therefore, transactions with State Street and ADP qualify as party-in-interest transactions. Fees paid by the Plan for recordkeeping services amounted to \$715 for the year ended December 31, 2011. Certain employees of the Company provide administrative services for the Plan and are not reimbursed for those services from the Plan.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of the investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the net assets per Form 5500 as of December 31, 2011 and 2010:
