December 31, 2011 and 2010

1. DESCRIPTION OF PLAN

The following description of the Trinity Partners, LLC 401(k) Profit Sharing Plan (the "Plan") of Trinity Partners, LLC (the "Company") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General and Eligibility

The Plan is a defined contribution plan established by the Company on January 1, 1997. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility Requirements

The Plan covers substantially all employees of the Company who have attained the age of twenty-one. Any employee who meets the above criteria during the year is eligible to participate the first day of the month coinciding or next following date the requirements are met.

To become eligible for the employer match, an eligible participant must have made 401(k) or Roth contributions during the year. Participation in the employer discretionary profit sharing contribution requires a participant to complete one year of service in addition to the age requirement. In the year an employer discretionary profit sharing contribution is allocated, employees who are not employed on the last day of the Plan year must have completed 500 hours of service, otherwise there is no service requirement for employees who are still employed. This requirement is waived upon death, total and permanent disability and early or normal retirement during the Plan year.

Contributions

Participants may elect to defer, on a pre-tax or after-tax basis, up to the maximum dollar amount allowed by the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified plans.

The Company provides an employer matching contribution equal to 50% of each participant's deferral contribution up to 6% of their eligible compensation. For the year ended December 31, 2011, the employer matching contributions totaled \$238,738, net of forfeitures.

In addition, the Company may elect to make an additional discretionary profit sharing contribution to the Plan. In 2011, there were no additional discretionary contributions declared or contributed to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contribution and allocation of any discretionary profit sharing contribution and Plan earnings/losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements
December 31, 2011 and 2010

1. DESCRIPTION OF PLAN...continued

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
0 years up to 2 years	0%
2 years up to 3 years	25%
3 years up to 4 years	50%
4 years up to 5 years	75%
5 years or more	100%

Participants become 100% vested in the Company's discretionary profit-sharing contribution upon the completion of three years of service. Participants are not vested in these contributions until this requirement is met.

Forfeitures

Forfeitures are used to reduce employer matching or discretionary profit sharing contributions, or to pay Plan administrative expenses. Forfeited nonvested accounts totaled \$19,527 and \$18,073 at December 31, 2011 and 2010, respectively. For the year ended December 31, 2011, total forfeitures amounted to \$26,095. During the year ended December 31, 2011, \$25,000 in forfeitures were used to reduce employer matching contributions and no forfeitures were used to pay administrative expenses.

Investment Elections

Each participant shall direct the investment of their account. Each participant shall select among a guaranteed investment contract and various pooled separate accounts offered by ING Life Insurance and Annuity Company, the custodian of the Plan.

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum of \$50,000 (less the highest outstanding loan balance in the previous 12 months) or 50% of their vested account balance. Loan terms are provided up to five years, except the term for loans which are for the purchase of a principal residence may extend to 15 years. The loans are secured by the balance in the participant's account and bear interest rate commensurate with regional bank rates for similar loans or such other reasonable rate as determined by the Plan Administrator. The interest rate on all loans outstanding at December 31, 2011 was 3.25%, and loans mature through 2020. Principal and interest are paid through payroll deductions.

Payment of Benefits

The plan permits withdrawals when a participant terminates employment, retires, or becomes permanently disabled or deceased. In-service withdrawals are also permitted for financial hardships, as defined in the Plan document, or when a participant attains age 59 ½. Benefits are payable in lump-sum payments with certain exceptions allowed.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

The Plan has funds invested in the ING Fixed Account, a guaranteed investment contract. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value for this guaranteed investment contract is based on the net asset value of the fund as reported by the custodian. The statements of net assets available for plan benefits present the fair value of the guaranteed investment contract, as well as the adjustment of the guaranteed investment contract from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 --Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 -- Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 -- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES...continued

Fair Value Measurements...continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Valuation Techniques

There have been no changes in the valuation techniques used during the current period.

Pooled Separate Accounts

Investments in pooled separate accounts are valued using the net asset value (NAV) per unit, which is based on the quoted market price of the underlying assets and adjusted for administrative charges of the separate account. These funds are classified as Level 2.

Guaranteed Investment Contract

Investments in guaranteed investment contracts are valued at its estimated fair value, which is based on current yields of similar instruments with comparable durations. As these inputs are significant and not observable, the guaranteed investment contract is categorized as Level 3.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES...continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

As provided by the plan agreement, administrative expenses related to Plan investments and recordkeeping are paid by the Plan and other administrative expenses are paid by the Company.

Income Taxes

GAAP requires plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Accounting Pronouncements Adopted

In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06 "Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements", which required new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. ASU 2010-06 also clarified that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. These requirements were implemented in 2010. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The guidance related to Level 3 reconciliation measurements is effective for periods beginning on or after December 15, 2010, and has been adopted (see Note 6).

Accounting Pronouncements Not Yet Effective

In May 2011, the FASB issued ASU 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS". ASU 2011-04 amended ASC 820, "Fair Value Measurement", to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. GUARANTEED INVESTMENT CONTRACT

The Plan has a fully benefit-responsive guaranteed investment contract (ING Fixed Account) with ING Life Insurance and Annuity Company ("ING"), the custodian of the Plan. The contributions to this contract are maintained in a general account which is credited with earnings on the underlying investment and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the Plan's ability to transact at contract value with the insurance company. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

A guaranteed interest rate is an effective annual rate of interest credited at its equivalent daily rate to amounts in the guaranteed investment contract as of the close of business daily. The establishment of the guaranteed interest rate requires estimation of the future earnings rates, the rate at which existing investment mature, and future cash flow. ING establishes the guaranteed interest rate on a quarterly basis. The crediting interest rate may never be less than 3%.

The relationship between future interest crediting rates and the adjustment to contract value reported on the statements of net assets is accomplished through the market value formula. The market value formula takes into consideration the following factors: the interest rate being earned by investments underlying the guaranteed investment contract without regard to capital gains and losses, the assumed interest rate obtainable by ING on new investments, and the asset flows of an investment with coupons and maturity characteristics based on the foregoing rates.

There are no reserves against contract value for credit risk of the contract issues or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was \$514,830 and \$584,180, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

The interest rate on the guaranteed investment contract adjusts on a quarterly basis. For the year ended December 31, 2011, the average yield and crediting interest rate was:

Based on actual earnings	2.34%
Based on interest rate credited to participants	3.00%

The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

7. NOTES RECEIVABLE FROM PARTICIPANTS

The Plan permits its participants to obtain loans against their account balance. Loans to participants are collateralized by the respective participant's remaining account balance. Also, certain restrictions apply to participant loans, as defined in the plan document. As of December 31, 2011 and 2010, total loans outstanding were \$67,755 and \$65,947, respectively.

For the year ended December 31, 2011, interest earned on such loans was \$1,986.

8. INCOME TAX STATUS

The Plan's plan document is stated in accordance with The Angell Pension Group, Inc Defined Contribution Prototype Plan and Trust. This prototype plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan, as amended, is designed and is being operated in compliance with the applicable requirements of the IRC.

9. PLAN TERMINATION

The Company has not expressed any intent to terminate the Plan. The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

10. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for plan benefits.

11. FORM 5500 RECONCILIATIONS

The following is a reconciliation of net assets available for plan benefits as of December 31, 2011 and 2010 per the financial statements to the Form 5500:

12. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain plan investments include pooled separate accounts and a guaranteed investment contract managed by the Plan's custodian, ING, and therefore these transactions qualify as party-in-interest transactions. In addition, the Plan issues loans to participants, which are secured by the balances in the participants' account, and also constitute party-in-interest transactions.

13. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 15, 2012, the date the financial statements were available to be issued.

Effective January 1, 2012, the Plan was amended to include Trinity Pharma Solutions and Akuta Corporation as participating employers in the Plan. Subsequent to the effective date, employees of these companies will be allowed to participate in the plan subject to the same provisions as described in Note 1.
