Note 1. Description of the Plan

The following description of the Alcan 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all salaried employees of participating employer divisions of Alcan Corporation (the Company). Covered full-time employees are eligible to participate in the Plan upon date of hire. Covered employees who work less than full-time are eligible to participate in the Plan upon completion of one year of service. The Plan has appointed Vanguard Fiduciary Trust Company to be the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974.

Contributions and vesting: Employees may elect salary reduction contributions of 1 percent to 50 percent of eligible compensation subject to limits set by law. The Company matches participants' contributions up to 75 percent of the first 6 percent of the participants' eligible compensation. For participants employed by the tobacco division of the Company, the Company match is 100 percent of the first 3 percent and 50 percent of the next 2 percent of the participants' eligible compensation. For participants employed by the composites division of the Company, the Company match is 50 percent of the first 6 percent of the participants' eligible compensation. The Company also contributes a retirement contribution equal to 4 percent of eligible compensation for participants employed at the composites division of the Company. The Company may also make discretionary contributions to eligible employees who are employed on December 31. Participants are immediately vested in their contributions and vest in their share of the Company's contributions according to the respective agreement, with full vesting after a maximum of five years.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings (losses). Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-directed options for investments: Participants have the option to allocate plan contributions of their account balances among several investment options. All choices vary in types of investments, rates of return and investment risk. Participants may elect to have all or part of their account balances and future contributions invested in one fund, transferred to another fund, or in any combination. As provided in the Plan, the participant may change this election and/or elect to transfer any portion of the account balance from one fund to any other fund on a daily basis. All dividends, interest and other distributions received by any fund will be reinvested automatically in the same fund.

Notes receivable from participants: Participants may borrow from their accounts up to a maximum of the lesser of $50,000 or 50 percent of the participant's total vested account balance. Note terms range from one to five years or up to 15 years for the purchase of a primary residence. The notes are collateralized by the vested balance in the participant's account. The applicable rate of interest is the prime rate plus one percent at the beginning of the last month preceding the calendar quarter in which the note is approved. Principal and interest are paid ratably through payroll deductions. Notes from participants bear interest at rates ranging from 4.25 percent to 7.50 percent at December 31, 2011.

Note 1. Description of the Plan (Continued)

Payment of benefits: Upon termination for any reason, or when a participant becomes permanently and totally disabled and has received disability benefits for two years, a participant with an account balance of $5,000 or more may elect to receive a distribution of their vested balance in various forms as defined in the Plan document. This election may be made at any time up until age 65. At age 65, the participant's vested interest will automatically be distributed. If the value of the vested portion of a participant's account is less than $5,000, final payment cannot be deferred, and the vested portion of the account will be distributed in a lump-sum payment as soon as practicable. During employment, participants may receive a hardship withdrawal of their pre-tax account balance, or may withdraw the portion of their account related to rollover and after-tax contributions up to twice per year.

Plan transfers: Effective January 7, 2011, Plan assets totaling $26,435,421 were transferred to the Twist Beauty Packaging 401(k) Plan as a result of the sale of the Company's beauty business to Twist Beauty Packaging US, Inc.

Forfeitures: Forfeitures are used to reduce future Company contributions. Forfeited nonvested accounts totaled approximately $575,600 and $564,300 as of December 31, 2011 and 2010, respectively. No forfeitures were used to reduce Company contributions for the year ended December 31, 2011.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The financial statements of the Plan reflect transactions on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the Plan's interest in the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties: The Plan invests in various investments securities. Investment securities are exposed to various risks, such as interest rate, market, currency exchange rate, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based on the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Investment fees and fund management expenses are deducted from the investment returns of each fund. The plan sponsor absorbs all of the administrative fees for the Plan, except for the loan origination and maintenance fees, which are paid for by the participant.

Subsequent events: The Plan has evaluated subsequent events through October 15, 2012, the date on which the financial statements were available to be issued.

Note 3. Information Certified or Provided by Vanguard Fiduciary Trust Company, the Plan Trustee

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Shares of mutual funds, at fair value	$ 70,479,508	$102,119,307
Common collective fund, at contract value	21,223,741	25,586,597
Notes receivable from participants	116,511	548,738

Vanguard Fiduciary Trust Company also certified to the completeness and accuracy of $2,633,758 of net depreciation in fair value of investments in mutual funds, and $2,070,351 of interest and dividends related to the aforementioned investments and $7,076 of interest on notes receivable from participants for the year ended December 31, 2011.

Note 5. Fair Value Measurements

Accounting guidance provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted market prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2011 and 2010.

Note. 5 Fair Value Measurements (Continued)

Mutual funds: Mutual funds are valued at quoted market prices for identical assets in active markets for the shares held by the Plan at year-end.

Common collective fund: The common collective fund is valued at net asset value (NAV) based upon the underlying investments comprising the trust based upon audited financial statements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2011, there were no transfers in or out of Levels 1, 2, or 3.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2011 and 2010.

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Asset allocation	$ 15,527,915	$ -	$ -	$ 15,527,915

Total investment assets at fair value	$ 70,479,508	$ 22,254,255	$ -	$ 92,733,763

	Assets at Fair Value as of December 31, 2010

Total investment assets at fair value	$ 102,119,307	$ 26,635,451	$ -	$ 128,754,758

The Plan follows guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using NAV per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV.

Note 5. Fair Value Measurements (Continued)

The following table includes categories of investments where NAV is available as a practical expedient as of December 31, 2011 and 2010.

	2011			
	Fair Value Estimated using Net Asset Value per Share			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Asset category:				
Common collective fund - Stable value (a)	$ 22,254,255	$ -	Immediate	1 year

	2010			
	Fair Value Estimated using Net Asset Value per Share			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Asset category:				
Common collective fund - Stable value (a)	$ 26,635,451	$ -	Immediate	1 year

(a) This investment seeks to provide participants with an attractive rate of interest and safety of principal by investing in investment contracts issued by financial institutions and in contracts that are backed by high quality bonds and bond mutual funds owned by the Trustee on behalf of the Trust.

Note 6. Parties-In-Interest Transactions

Certain plan investments are shares of mutual funds and units of a common collective fund managed by The Vanguard Group, a Company affiliated with Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee as defined by the Plan, and therefore, these transactions, as well as participant loans, qualify as party-in-interest. Fees paid by the Plan for administrative expenses to Vanguard Fiduciary Trust Company amounted to approximately $21,100 for the year ended December 31, 2011.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants would become fully vested in their accounts.

Note 8. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 6, 2003, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

The Plan Administrator has evaluated the Plan's tax positions and concluded that the Plan had taken no uncertain tax positions that would require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2008.
