NOTE 1. DESCRIPTION OF PLAN

The following description of the Levenfeld Pearlstein ("Company") Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed three months of service and have attained 21 years of age, excluding union, leased and seasonal employees and non-resident aliens. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Discretionary matching contributions may be made on behalf of participants who make a pretax compensation contribution to the Plan and are employed on the last day of the quarter. The Company may also make discretionary profit sharing contributions on behalf of participants who are employed on the last day of the quarter. For the year ended December 31, 2011, the Company made no matching contributions and made profit sharing contributions totaling $733,876.

The Plan currently offers various registered investment companies as investment options for participants. The investment of participant, matching and profit sharing contributions into these investment options is determined by each participant. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, (b) Plan earnings (losses), and charged with an allocation of applicable administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100% vested after three years of credited service.

As is more completely described in the Plan document, a participant also becomes 100% vested in the Company's contribution portion of their account through attaining their normal retirement date, permanent disability or death.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans generally must be repaid within five years. The loans are secured by the balance in the participant's account and bear interest at fixed rates equal to one-quarter percent (.25%) over the prime rate in effect at the time the loan is made. Principal and interest is paid ratably through automatic payroll deduction. A participant can prepay all of the unpaid principal balance without penalty.

Payment of Benefits

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment.

The Plan provides for hardship withdrawals from a participant's vested account. The IRS safe harbor definition of a hardship will apply.

The Plan also provides for in-service distributions from a participant's accounts in which the participant is 100% vested. The participant must have attained the age of 59 1/2.

Forfeited Accounts

Forfeited nonvested account balances are used first to reduce administrative expenses of the Plan and then to reduce future Company contributions. For the year ended December 31, 2011, plan expenses of $40,970 were paid with these funds. At December 31, 2011, forfeited nonvested accounts totaled $4,287.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Management has evaluated subsequent events through October 15, 2012, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Expenses incurred in the investment of assets of the trust are deducted from trust assets. The Company pays the general administrative expenses of the Plan to the extent that such expenses are not paid by the Plan.

NOTE 3. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

Level 1 Fair Value Measurements

The fair value of registered investment companies is based on quoted net asset values of the shares held by the Plan at year-end.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010.

NOTE 6. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of a registered investment company managed by an affiliate of Charles Schwab Bank. As Charles Schwab Bank also provides recordkeeping services to the Plan, this investment qualifies as a party-in-interest investment which is exempt from prohibited transaction rules.

Transactions in the Plan's notes receivable from participants qualify as party-in-interest transactions which are exempt from prohibited transaction rules.

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the Company matching and profit sharing contribution accounts.

NOTE 8. TAX STATUS

The Plan as adopted is a volume submitter profit sharing plan sponsored by Sungard Corbel LLC. The sponsoring organization has received a determination letter, dated March 31, 2008, covering the volume submitter plan. A separate determination providing that Levenfeld Pearlstein Retirement Plan, as adopted, is designed in accordance with applicable sections of the Internal Revenue Code has not been sought from the Internal Revenue Service.

The Plan's Annual Return/Report of Employee Benefit Plan (Form 5500) is subject to examination by the Internal Revenue Service and Department of Labor, generally for three years after the date it was filed.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Form 5500.
