We were engaged to audit the accompanying statements of net assets available for benefits of the Devcon Security Services Corp. 401(k) Plan (the "Plan") as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedules of assets (held at end of year) as of December 31, 2011 and delinquent participant contributions for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan (the "Custodian"), except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Custodian as of December 31, 2011 and 2010 and for the years then ended, that the information provided to the plan administrator by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Custodian, has been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

## ( 1 ) Description of plan

The following description of the Devcon Security Services Corp. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

**General** - The Plan is a defined contribution plan sponsored by Devcon Security Services Corp. (the "Company") for the benefit of its full-time employees who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

**Contributions** - Participants may contribute up to 100% of pretax annual compensation, as defined in the plan document. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the plan document.

The Company may make a discretionary profit sharing contribution to the Plan. The Company made no such contributions in 2011 and 2010. Contributions are subject to certain Internal Revenue Code ("Code") limitations.

**Participant investment account options** - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and a fixed account as investment options for participants.

**Participant accounts** - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting** - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

**Notes receivable from participants** - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

**Payment of benefits** - On termination of service due to death, disability or retirement, or other reasons, a participant may receive a lump sum amount equal to the value of the participant's vested interest in his or her account, unless the participant elects otherwise. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

## ( 1 ) Description of plan (continued)

**Forfeited accounts** - At December 31, 2011 and 2010, forfeited nonvested accounts totaled $19,940 and $23,700, respectively. These accounts will be used to reduce future employer contributions and/or used to pay Plan's administrative expenses. Also, for the years ended December 31, 2011 and 2010, administrative expenses were reduced by $5,988 and $6,600, respectively, from forfeited nonvested accounts.

## ( 2 ) Summary of significant accounting policies

**Basis of accounting** - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

**Use of estimates** - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

**New accounting pronouncement** - The following new accounting pronouncement was adopted during the year ended December 31, 2011:

Fair value disclosures - In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance which expanded the required disclosures about fair value measurements. This guidance requires information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements and is effective for fiscal years beginning after December 15, 2010. Net assets available for benefits and changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

**Investment valuation and income recognition** - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

**( 2 ) Summary of significant accounting policies (continued)**

**Notes receivable from participants** - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

**Unit values** – The Plan's investments in the pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

**Payment of benefits** - Benefits are recorded when paid.

**Administrative expenses** - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits.

**( 3 ) Investments**

The following presents investments that represent 5% or more of the Plan's net assets:

| | December 31, 2011 | December 31, 2010 |
|---|---|---|
| ING Fixed Account ** | $ 1,474,196 | $ 1,351,310 |
| ING Solution 2035 Portfolio | 983,683 | 983,733 |
| ING Solution 2025 Portfolio | 496,583 | 488,232 |

** At contract value

During 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

| | Years Ended December 31, 2011 | Years Ended December 31, 2010 |
|---|---|---|
| Pooled separate accounts | $ (124,512) | $ 363,648 |

**( 4 ) Information prepared and certified by the custodian**

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**( 4 ) Information prepared and certified by the custodian (continued)**

Accordingly, ING Life Insurance and Annuity Company ("ING"), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate:

- Investments at fair and contract value
- Net appreciation (depreciation) in fair value of investments
- Interest
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

**( 5 ) Fair value measurements**

FASB Accounting Standards Codification ("ASC") 820*, Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

**( 5 ) Fair value measurements (continued)**

*Fixed account:* Valued utilizing inputs and a formula provided by ING to determine the fair value, including the credited rate, account balance and any market value adjustments or surrender charges. Determining fair value may require significant judgment and the use of information that may not be observable to market participants. See Note 6.

*Pooled separate accounts:* Valued at estimated fair value as determined by the issuer of the pooled separate account based on fair market value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

| | Investments at Fair Value as of December 31, 2011 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |

## ( 6 ) Fixed account with insurance company

The Plan has a benefit-responsive fixed account with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the fixed account is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fixed account. The fixed account is presented on the face of the statements of net assets available benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $1,522,075 and $1,341,677, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3.25% through December 31, 2011.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan.) (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The fixed account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date:

| | December 31, | |
|---|---|---|
| | 2011 | 2010 |
| Average yield | 3.25% | 3.25% |
| Crediting interest rate | 3.25% | 3.25% |

## ( 7 ) Party-in-interest transactions

Certain plan investments are in pooled separate accounts managed by ING. The Plan also utilizes the services of Barron Benefit Advisors, Inc. ING is the custodian and Barron Benefit Advisors, Inc. is the third party administrator as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management and recordkeeping services amounted to $9,868 and $10,300 for the years ended December 31, 2011 and 2010, respectively.

## ( 8 ) Net asset value ("NAV") per share

In accordance with Accounting Standards Update ("ASU") No. 2009-12, the Plan expanded its disclosures to include the category, fair value, unfunded commitments, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of December 31, 2011 and 2010.

The following table for December 31, 2011 and 2010 sets forth a summary of the Plan's investment with a reported NAV.

| Investments | Fair Value* 12/31/2011 | Fair Value* 12/31/2010 | Unfunded Commitments | Redemption Frequency | Redemption Notice Period |
|---|---|---|---|---|---|
| Pooled separate accounts | $ 2,964,334 | $ 3,015,286 | $ - | Daily | None |

* The fair values of the investments have been estimated using the net asset value of the investment.

## ( 9 ) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

## ( 10 ) Tax status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated May 16, 2011, that the Plan and the related Trust are designed in accordance with the applicable sections of the Code.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

## ( 11 ) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## ( 12 ) Excess contributions refundable

Contributions received from participants for 2011 are net of payments of $32,025 made in April and May 2012 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. At December 31, 2011, $32,025 has been included in the plan's statements of net assets available for benefits as excess contributions refundable.

## ( 13 ) Delinquent participant contributions

Sponsors of defined contribution plans are required to remit employee contributions, including participant note repayments, to the Plan as soon as they can be reasonably segregated from the employer's general assets. Contributions, which included participant note repayments, totaling $93,234 were not remitted within the required time during the year ended December 31, 2011. The Company has remitted $74,766 delinquent employee contributions, and is in process of remitting $18,468 delinquent employee contributions. The Company is in the process of calculating and will remit lost earnings as a result.
