A. Description of the Plan

The following description of the United BioSource Corporation 401(k) Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which was adopted on July 1, 1995, is a defined contribution plan under Section 401(k) of the Internal Revenue Code (IRC) covering employees who are at least 21 years of age. The Plan excludes from participation certain leased employees, nonresident aliens with no U.S. source income, and employees subject to collective bargaining agreements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's sponsor is United BioSource Corporation.

Effective January 1, 2011 the Plan was amended and restated. In connection with Plan sponsor acquisitions, the net assets and underlying participants' accounts of the following defined contribution plans were merged into the Plan: a) Concordant Rater Systems, Inc. 401(k) Plan; b) ProSanos Corporation 401(k) Plan.

Merger Agreement with Express Scripts, Inc.

On July 20, 2011, Medco Health Solutions Inc, the parent entity of the Plan's sponsor entered into an Agreement and Plan of Merger (the "Merger Agreement") with Express Scripts, Inc., a Delaware corporation. This Merger was finalized on April 2, 2012. The impact upon the Plan due to this transaction is not yet reasonably determinable.

Eligibility and Contributions

Participants may elect to contribute up to 90% of their total taxable compensation, subject to Internal Revenue Code (IRC) limitations. In addition, participants that reach age 50 before the close of the plan year can elect to make a "catch-up" contribution to the Plan for the plan year. Rollovers from other qualified plans are permitted.

The Plan provides for a Safe Harbor employer matching contribution. The Company matches, on a payroll-by-payroll basis, an amount equal to 100% of each participant's elective deferrals and not exceeding 3% of the participant's compensation, plus 50% of each participant's elective deferrals in excess of 3% but not in excess of 5% of the participant's compensation. The total employer Safe Harbor matching contribution for the year ended December 31, 2011 was $3,497,435.

A. Description of the Plan (continued)

The Company may make a discretionary additional matching contribution in the amount not to exceed 6% of each participant's elective deferrals. No discretionary additional matching contributions were made to the Plan for the year ended December 31, 2011.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants may elect to direct their contributions among various investment options offered by the Plan. Participants may elect to transfer their investment balances among funds and to change their investment elections on a daily basis.

Vesting

Effective January 1, 2010 participants are immediately vested in their contributions and Company Safe Harbor matching contributions plus actual earnings thereon. Participants in the B&B Clinical Innovations, Inc. 401(k) Profit Sharing Plan are 100% vested in the Safe Harbor Match source. Prior to January 1, 2010, vesting in the Company's matching and discretionary contributions plus actual earnings thereon is based on years of continuous service and will be subject to the prior vesting schedule before safe harbor which is presented below.

Years of Service	Vested Percentage
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years or more	100%

A. Description of the Plan (continued)

Notes Receivable From Participants

Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of (i) $50,000 or (ii) 50% of his or her vested account balance. A loan's term may not exceed five years unless the proceeds are used exclusively to purchase a primary residence. The interest rate charged is based on the rates available for similar loans from commercial lending institutions. For the plan year ended December 31, 2011, interest rates ranged from 3.2% to 8.25% and total interest charged was $17,718. Principal and interest is paid ratably through regular payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, an annuity, or periodic installments as defined by the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account automatically as a lump-sum distribution. If the participant's Vested Interest in the value of their termination benefit is at least $1,001 but does not exceed $5,000 and they fail to elect a distribution method, their termination benefit will be automatically rolled over to an individual retirement account. Participants may elect to defer payment for vested amounts greater than $5,000.

Hardship withdrawals are permitted as defined in the Plan document. Participants receiving a hardship withdrawal may not contribute to the Plan for six months from the date of withdrawal.

Forfeitures

Forfeitures of terminated participants' non-vested accounts are used to reduce employer contributions. During the year ended December 31, 2011, $358,334 of non-vested forfeitures was used to reduce employer contributions. The forfeiture reserve balance as of December 31, 2011 and 2010 totaled $23,595 and $309,656, respectively.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive

B. Summary of Significant Accounting Policies (continued)

investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets

Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefits are recorded as expenses when paid by the Plan.

Expenses

Administrative expenses of the Plan are generally paid by the Company. The Plan paid administrative fees of $9,371 during the year ended December 31, 2011. The expenses necessary to administer the Plan shall be taken from the plan assets, unless paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2012, the date the financial statements were available to be issued.

C. Federal Income Tax Status

Effective October 1, 2009, the Plan adopted a prototype plan arrangement with DWS Trust Company who has received a letter dated March 31, 2008 from the Internal Revenue Service stating that its mater prototype plan is designed in accordance with the applicable regulations of the Internal Revenue Code (IRC).

The Plan has not received its own tax determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

D. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination participants will become 100% vested in their accounts.

E. Information Certified by Trustee

At December 31, 2011 and 2010, the Plan's investments were held by the trustee, DWS Trust Company (DWS). The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The following presents investments certified by DWS as of December 31, 2011 and 2010. Investments that represent 5% or more of the Plan's net assets as of December 31 are shown separately:

*Represents less than 5% of net assets in respective year.

**Represents remaining investments not presented that are less than 5% of net assets available for benefits.

E. Information Certified by Trustee (continued)

DWS also certified to the completeness and accuracy of net realized and unrealized depreciation in the fair value of investments of $3,108,801, interest and dividends on mutual funds of $1,259,360 interest on common collective trusts of $3,633, and interest on participant loans of $17,718 for the year ended December 31, 2011.

F. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (*ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

F. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds (lifecycle funds): Valued at the net asset value ("NAV") of the underlying shares of stock, bonds, or money market funds held by the fund at year end.

Mutual funds (other): Valued at the net asset value ("NAV") of shares held by the plan at year end.

Common Collective Trust: Valued based on the contractual terms of the underlying GICs; provides for a daily mil rate for income accretion. The mil rate is a blend of the contracts' rate of return and the liquidity component's daily mil rate.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds -Blend	$ 7,285,964	$ -	$ -	7,285,964

G. Party-in-Interest Transactions

The Plan invests in shares of mutual funds managed by DWS Trust Company (DWS), the Trustee of the Plan, who acts as Custodian and record keeper for the Plan. The Custodian is a related party to the Trustee. The Plan loans funds to its participants according to the applicable provisions of the Plan agreement. The Company provides the Plan with certain accounting and administrative services for which no fees are charged. All such transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

H. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 for years ending December 31:

I. Risks and Uncertainties

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant accounts and the amounts reported in the statement of net assets available for benefits.

J. Subsequent Event

Merger Agreement with Express Scripts, Inc.

On July 20, 2011, Medco Health Solutions Inc, the parent entity of the Plan's sponsor entered into an Agreement and Plan of Merger (the "Merger Agreement") with Express Scripts, Inc., a Delaware corporation. This Merger was finalized on April 2, 2012. The impact upon the Plan due to this transaction is not yet reasonably determinable.
