Notes to Financial Statements
December 31, 2011 and 2010

1. DESCRIPTION OF PLAN

The following description of Lista International Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General and Eligibility

The Plan is a defined contribution plan covering all employees of Lista International Corporation (the "Company") who have three months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Amendment

The Plan was most recently amended and restated in 2010, effective retroactive to January 1, 2002, to incorporate regulatory changes.

Contributions

Each year, participants may contribute up to 25% of pretax annual compensation, as defined in the Plan and subject to the maximum tax deferred contribution allowed under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan allows for the Company to make discretionary matching contributions based on an amount specified by the Company in a resolution. The amount so specified remains in effect until changed by the Company. For the year ended December 31, 2011 employer matching contributions were not made. Contributions are subject to certain IRC limitations.

The Company also makes a "Safe Harbor" contribution in accordance with provisions of the Plan. During 2011, Safe Harbor contributions were made at an amount equal to 3% of each participant's total eligible compensation. Contributions are subject to certain IRC limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's Safe Harbor contributions, participant's rollover contributions, and the Company's discretionary matching contributions, if any. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN…continued

Vesting

Participants are vested immediately in their salary contributions, rollovers and Safe Harbor contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

Years of Service	Percentage
1	0%
2	25%
3	50%
4	75%
5	100%

Investment Options

Participants must direct their contributions to selected investments as made available and determined by the Plan Administrator. The Plan currently offers registered investment companies and common/collective trust funds as investment options for participants. Participants may change their investment options daily.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate. The loans have terms up to 5 years with interest rates ranging from 3.25% to 8.25%. Principal and interest are paid ratably through periodic payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in their account, or in annual installments over a period of time, as elected in writing, not to exceed their life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution or in the form of installments. Distributions may also be made for in-service distributions and hardship withdrawals. If the amount payable to a participant is greater than $1,000, the participant (or beneficiary) must give written consent before the distribution can be made and if the amount is less, a lump-sum distribution is made as soon as administratively feasible.

Forfeitures

Forfeitures represent the non-vested portion of terminated participants' account balances. These accounts will be used to reduce future company discretionary matching contributions, future Safe Harbor contributions or to pay reasonable Plan expenses. At December 31, 2011 and 2010 forfeited non-vested accounts totaled, $2,399 and $10,765 respectively. Forfeitures for the year ended December 31, 2011 were $1,549. During 2011, $10,219 of forfeitures were used to reduce employer contributions.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

The Plan has funds invested in the Putnam Stable Value Fund, a common collective trust fund, which is invested in investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through common/collective trusts. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract in the collective trust funds as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are treated as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits to participants are recorded when paid.

2. SIGNIFICANT ACCOUNTING POLICIES…continued

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses, including fees and expenses connected with the providing of administrative services by external service providers, are paid by the Company. Fees are paid directly by the participants for loan processing and other expenses.

Income Taxes

GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require revenue recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Recently Adopted Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06 *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*, which required new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. ASU 2010-06 also clarified that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. These requirements were implemented in 2010. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The guidance related to Level 3 reconciliation measurements is effective for periods beginning on or after December 15, 2010, and has been adopted by the Plan for the year ended December 31, 2011 (see Note 5).

Recently Issued Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-04 amended ASC 820, *Fair Value Measurement*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards ("IFRS"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

4. INFORMATION CERTIFIED OR PROVIDED BY DWS TRUST COMPANY

The following is a summary of plan's asset information as of December 31, 2011 and 2010 and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from the information provided by DWS Trust Company, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information related to the following assets at December 31, 2011 and 2010:

	2011	2010
Investments:		
Registered investment companies	$ 10,320,639	$ 10,402,670
Common/collective trust funds at fair value	$ 1,289,905	$ 2,575,592
Common/collective trust funds at contract value *	$ 1,616,486	$ -
Notes receivable from participants	$ 621,309	$ 634,855

* Generally investments are certified at fair value; however, the value certified by DWS Trust Company at December 31, 2011 is contract value, which is different from fair value reported in Note 5.

DWS Trust Company also certified to the completeness and accuracy of $516,017 of net depreciation in fair value of investments and $219,946 of interest and dividends related to the aforementioned plan assets for the year ended December 31, 2011.

5. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), a lower priority to significant other observable inputs (Level 2 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

5. FAIR VALUE MEASUREMENTS...continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010:

Registered Investment Companies

Fair value of shares of registered investment companies represent the net asset value ("NAV") of such shares as of the close of business at the end of the plan year based on quoted active market prices of the underlying investments.

Common/Collective Trust Funds

Investments in the common/collective trust funds are stated at the estimated fair value based on the fair value of the underlying assets of the fund as based on information reported in the fund's audited financial statements at year end. Underlying guaranteed and security backed investment contracts held by the Putnam Stable Value Fund are valued at the investment principal plus accrued interest. Underlying guaranteed interest contracts that were held by the DWS Stable Value Fund, both traditional and synthetic, were valued at the investment principal plus accrued interest. Underlying index funds held by the DWS Stock Index Fund are valued at the closing net asset value per unit/share on the valuation date.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011

	$ 10,402,670	$ 1,301,721	$ 1,273,871	$ 12,978,262

As management gained a further understanding of the DWS Stable Value Fund and the related fair value standards, it was determined by management that this investment should be reported as Level 3 and not a Level 2 investment. The investment was therefore transferred into level 3 investments for the year ended December 31, 2010.

The following tables set forth additional disclosures of Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2011 and 2010.

	Fair Value Estimated Using NAV Per Share December 31, 2011

(a) The fund seeks capital preservation and current income when consistent with capital preservation through investments in money market funds, short-term bonds and guaranteed investment contracts.

(b) The fund seeks to match, before fees and expenses, the performance of the S&P 500 index, which emphasizes stocks of large U.S. companies.

(c) Seeks to preserve principal value and provide a relatively stable rate of income comparable to intermediate fixed-income yields.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2011:

	Level 3 Assets Common Collective Trust Fund
Balance, beginning of year	$ 1,273,871
Transfers into Level 3	-

Settlements	-
Balance, end of year	$ 1,671,645
The total amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 21,421

6. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments include shares of registered investment companies managed by DWS Trust Company, the trustee of the Plan. Transactions in such investments qualify as exempt party in interest transactions, as defined by ERISA. Notes receivable from participants also qualify as exempt party-in-interest transactions, as defined by ERISA.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. INCOME TAX STATUS

The Plan obtained its latest prototype opinion letter on March 31, 2008 in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. There are not adequate records of certain required plan and trust documents. Therefore, a filing has been made with the IRS pursuant to the Voluntary Correction Program of the Employee Plans Compliance Resolution System. Taking into account the corrections being made under the Voluntary Correction Program, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and tax exempt.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investments that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO 5500

The following is a reconciliation of net assets reflecting investments at fair value per the financial statements to the Form 5500 as of December 31, 2011 and 2010:

	2011	2010
Net assets available for benefits per the financial statements	$ 13,848,360	$ 13,579,380
Less - adjustment from fair value to contract value for interest in common/collective trust funds relating to fully benefit-responsive investment contracts	55,159	33,737
Net assets available for benefits per the Form 5500	$ 13,903,519	$ 13,613,117

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2011:

Net increase in net assets available for benefits per the financial statements	$ 268,980
Change in adjustment from fair value to contract value for interest in common collective trust relating to fully benefit-responsive investment contracts	21,422
Increase in net income per the Form 5500	$ 290,402

11. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 12, 2012, the date the financial statements were available to be issued. On January 3, 2012 the Company was acquired. On August 23, 2012, a submission was made to the IRS on behalf of the Plan under the Voluntary Correction Program ("VCP") component of the Employee Plans Compliance Resolution System to correct certain qualification issues. This VCP submission is currently pending before the IRS.
