York Label 401(k) Plan

Notes to Financial Statements

December 31, 2011 and 2010

1. Plan Description

The following brief description of the York Label 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established to provide retirement benefits for the employees of Label Corp Management, Inc., York Tape & Label, LLC, Asheville Acquisition, LLC, Label Corp Acquisition Corp, LSK Label, Inc., PSC Acquisition, LLC, Cameo Sonoma Limited and Southern Atlantic Label Company (collectively the Company). Effective April 1, 2012, the Plan was merged into another plan (see Note 7).

Employees are eligible to make salary reduction contributions and receive discretionary employer matching contributions immediately upon employment. Participants are also eligible to receive discretionary employer contributions if they are credited with 1,000 hours of service during the Plan year and are employed on the last day of the Plan year with exceptions for death, disability, and retirement.

Contributions

Each year, participants may contribute a portion of their pre-tax annual compensation in connection with the 401(k) provisions of the Plan, up to the maximum dollar limits allowable by law. Participants are automatically enrolled with a 3% deferral contribution upon meeting eligibility requirements. At any time, a participant can elect not to contribute or may increase or decrease his or her deferral rate to any rate allowed under Plan provisions. Participants may also contribute amounts representing distributions from other qualified plans. Employer matching and other contributions are made at the Company's discretion. Each year, all participants who are eligible to make deferral contributions and who will attain age 50 before the close of the calendar year shall be eligible to make catch-up contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of a) the Company's discretionary contributions and b) Plan earnings or losses. Company discretionary matching contributions are allocated among participants based upon each participant's elective salary deferral. Other Company discretionary contributions are allocated among participants based upon compensation of eligible participants. Plan earnings or losses are allocated on the basis of actual results of the investments selected by each participant. Investments are maintained in individual member accounts managed by State Street Bank and Trust Company (State Street Bank), the custodian of the Plan, and Mass Mutual Life Insurance Company (MassMutual), the recordkeeper of the Plan.

Notes to Financial Statements

December 31, 2011 and 2010

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Company contributions credited to participant accounts are vested at 20% after the first year of service and vesting increases 20% per year until a participant is 100% vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at the prevailing prime rate plus 1%. Principal and interest are paid through payroll deductions.

Payment of Benefits

Upon reaching age 59 ½, termination, retirement, disability, or death, the participant or beneficiary may elect to receive a lump sum payment or installment payments equal to the value of the vested funds allocated to the participant's account. The Plan requires mandatory distribution of balances between \$1,000 and \$5,000 to an individual retirement account and balances under \$1,000 to be paid out to the participant in the event the participant does not elect a payout option. Benefits are recorded when paid.

Forfeitures

Upon a participant's termination of employment before reaching normal retirement age, disability, or death, the portion of their Company contributions not then vested shall be forfeited. The forfeited portion of any participants account may be used to reduce Company discretionary contributions or pay Plan expenses. As of December 31, 2011 and 2010, there were \$48,318 and \$64,537 of forfeited non-vested accounts available, respectively. During 2011 and 2010, forfeitures of \$23,368 and \$935 were used to pay Plan expenses, respectively.

2. Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is set forth below.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis and in conformity with accounting principles generally accepted in the United States of America.

York Label 401(k) Plan

Notes to Financial Statements

December 31, 2011 and 2010

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a guaranteed investment contract. The statements of net assets available for benefits present the fair value of the investment in the guaranteed investment contract as well as the adjustment of the investment in the guaranteed investment contract from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Presentation of Participant-Directed Funds

The Plan's presentation of participant-directed investments is in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, Plan Accounting - Defined Contribution Pension Plans.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

York Label 401(k) Plan

Notes to Financial Statements

December 31, 2011 and 2010

Other

Investment management and certain recordkeeping expenses are paid by the Plan. Audit fees and other recordkeeping expenses are paid by the Company.

Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. Management has considered such events or transactions through October 10, 2012. See Note 7 for a description of a subsequent event.

Reclassifications

Certain Reclassifications have been made to the 2010 financial statements to conform to the 2011 presentation

3. Information Certified by MassMutual and State Street Bank

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by MassMutual, as agent for State Street Bank, except for comparing such information certified by the recordkeeper and custodian to information included in the Plan's financial statements and supplemental schedule.

The following table presents the value of the participant-directed Plan assets that were certified by MassMutual and State Street Bank. Single investments representing more than 5% of the Plan's net assets are separately identified.

	<u>2011</u>	<u>2010</u>
Net Appreciation (Depreciation) in Fair Value of Investments	\$ (827,852)	\$ 1,882,382

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

York Label 401(k) Plan

Notes to Financial Statements

December 31, 2011 and 2010

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Money Market Fund: Valued at the net asset value of the underlying investments.

Mutual Funds: Valued at the net asset value of the underlying investments.

Guaranteed Investment Account: Valued at the fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investment Contract with Insurance Company

The Plan has entered into an investment contract with MassMutual. MassMutual maintains the contributions in a guaranteed investment account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by MassMutual.

The guaranteed investment account, which is part of the investment contract with MassMutual, credits interest daily. The average crediting interest rates at December 31, 2011 and 2010 for the contract was 4.61% and 4.76%, respectively. The crediting interest rate is reset upon the maturity of the contract. The guaranteed investment account is included in the financial statements at contract value because it is fully benefit responsive.

York Label 401(k) Plan

Notes to Financial Statements

December 31, 2011 and 2010

6. Tax Status

The Plan is qualified as a profit sharing plan under Section 401(a) of the Internal Revenue Code and is exempt from federal income taxation under Section 501(a) of the Internal Revenue Code of 1986, as amended.

The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. Plan Merger

On October 3, 2011, the Company was sold to the Multi-Color Corporation and operations continued with the new ownership. On February 14, 2012, the Company approved the merger of the Plan into the Multi-Color Corporation 401(k) Savings Plan effective April 1, 2012.

8. Related Party Transactions

Certain Plan investments are shares of funds and accounts managed by MassMutual and State Street Bank. MassMutual acts as the record keeper of the Plan, and State Street Bank acts as custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").
