Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The Benefit Plans Committee
ADM Retirement Plan
ADM Pension Plan for Hourly-Wage Employees
ADM-AFGM Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits (modified cash basis) of the ADM Retirement Plan (the Retirement Plan), the ADM Pension Plan for Hourly-Wage Employees (the Hourly Plan), and the ADM-AFGM Retirement Plan (the AFGM Plan) (collectively, the Plans) as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended. These financial statements are the responsibility of the Plans' management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Northern Trust Company, the custodian of the Plans, except for comparing such information with the related information included in the financial statements (modified cash basis). We have been informed by the plan administrator that Northern Trust Company holds the Plans' investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

As described in Note 2, the financial statements referred to above have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements (modified cash basis) taken as a whole. The form and content of the information included in the financial statements (modified cash basis), other than that derived from the investment information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ADM Retirement Plan
ADM Pension Plan for Hourly-Wage Employees
ADM-AFGM Retirement Plan

Notes to Financial Statements
(Modified Cash Basis)

December 31, 2011

1. Description of the Plans

The accompanying financial statements comprise the ADM Retirement Plan (the Retirement Plan), the ADM Pension Plan for Hourly-Wage Employees (the Hourly Plan), and the ADM-AFGM Retirement Plan (the AFGM Plan) (collectively, the Plans) of Archer-Daniels-Midland Company (ADM or the Company) that participate in the Archer Daniels Midland Master Retirement Trust (the Master Trust). Effective December 31, 2011, the AFGM Plan was merged into the Hourly Plan.

On December 31, 2011, the assets of the Golden Peanut pension plan were sold and transferred into the Retirement Plan and Hourly Plan. Former employees of Golden Peanut began participating in the Retirement Plan and Hourly Plan effective January 1, 2012. The net assets transferred to the Retirement Plan and Hourly Plan of \$18,220,194 and \$3,860,226, respectively, are reflected in the statements of changes in net assets available for benefits as transfer of assets from other plans as of December 31, 2011.

The Company's funding policy with respect to the Plans is to contribute at least the necessary amount each year to meet the minimum amount required by the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plans have met the ERISA minimum funding requirements for 2011 and 2010.

The Company is free to terminate the Plans at any time, subject to the provisions of ERISA and any applicable collective bargaining agreement. In the event of a termination of the Plans, the net assets of the Plans shall be allocated to provide benefits in the order of priority prescribed by ERISA. However, the Pension Benefit Guaranty Corporation guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA.

More complete information about the Plans, including vesting and benefit provisions, is contained in a summary plan description available from the Company.

ADM Retirement Plan

The Retirement Plan is a defined benefit plan covering substantially all regular salaried employees of ADM and its participating affiliates.

In January 2012, the Retirement Plan was amended. The amendment offered one-time incentives as part of a voluntary early retirement that the Company implemented as part of a plan to streamline its organizational structure and reduce its workforce.

Notes to Financial Statements (continued)
(Modified Cash Basis)

1. Description of the Plans (continued)

From time to time, the assets and liabilities of acquired pension plans covering the salaried employees of acquired ADM subsidiaries or locations are merged into the Retirement Plan, as is the policy of ADM.

ADM Pension Plan for Hourly-Wage Employees

The Hourly Plan is a defined benefit plan covering those employees of ADM and its participating affiliates who are working at participating locations (as described in the plan document) and who are paid on an hourly rate basis. The Hourly Plan provisions for those locations that are not represented by a collective bargaining agreement, as well as those represented by a collective bargaining agreement, have been modified by the addition of appendices to the Hourly Plan specifying those provisions for the locations that differ from the corresponding provisions of the basic plan provisions.

From time to time, the assets and liabilities of acquired pension plans covering the hourly employees of acquired ADM subsidiaries or locations are merged into the Hourly Plan, as is the policy of ADM.

ADM-AFGM Retirement Plan

The AFGM Plan was a defined benefit plan covering those hourly wage employees of ADM and its participating affiliates who were working at participating locations (as described in the plan document) and who were represented by the Bakery, Confectionery, Tobacco Workers and Grain Millers International Union (AFL-CIO, CLC).

The unions representing the ADM Trucking and Galesburg Soybean Plant, components of the AFGM Plan, voted to freeze their component of the AFGM Plan effective September 1, 2010 and November 1, 2010, respectively. Thus, new hires to these areas after the effective dates were included in the Hourly Plan, and the existing vested employees stayed in the AFGM Plan. In December 2011, the AFGM Plan was merged into the Hourly Plan.

2. Significant Accounting Policies

Basis of Accounting

The accounting records of the Plans are maintained on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States. Under the modified cash basis, investments are recorded at fair value, and transactions are recorded when cash is received or paid rather than in the time period in which income is earned or expenses are incurred.

2. Significant Accounting Policies (continued)

Investments

The Plans' investments held in the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plans' gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, attributable under the Plans' provisions to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered through the valuation date.

ADM Retirement Plan

Benefits for retired or terminated employees or their beneficiaries under the traditional pension formula are based on the employees' highest average monthly salary for 60 consecutive months out of the last 180 consecutive months of credited service. Benefits for retired or terminated employees or their beneficiaries under the cash balance pension formula are based on the employee's cash balance account.

ADM Pension Plan for Hourly-Wage Employees

Benefits for retired or terminated employees or their beneficiaries under the traditional formula are based on the applicable benefit level and the employees' credited service as determined by hours worked. Benefits for retired or terminated employees or their beneficiaries under the cash balance pension formula are based on the employee's cash balance account.

Benefits for retired or terminated employees or their beneficiaries are based on the applicable benefit level and the employees' credited service as determined by hours worked.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Plan Expenses

All costs and expenses incurred in connection with the operation of the Plans with regard to the purchase and sale of investments, as well as certain professional fees, are paid out of the Master Trust. Other administrative expenses and actuarial and audit fees are paid by ADM, the plan sponsor.

Subsequent Events

Management has performed a review of subsequent events through October 11, 2012, the date the financial statements were available to be issued.

On September 20, 2012, the Company amended its U.S. qualified pension plans and began notifying certain former employees of the Company of its offer to pay those employees' pension benefit in a lump sum. Former employees eligible for the voluntary lump-sum payment option are generally those who are vested traditional formula participants of the U.S. qualified pension plans who terminated employment prior to August 1, 2012, and who have not yet started receiving monthly payments of their pension benefits.

The voluntary lump-sum payments to be paid from plan assets will depend on actual participation rates and payout amounts, which will not be known until December 2012.

2. Significant Accounting Policies (continued)

New Accounting Pronouncement

Effective December 31, 2012, the Company will be required to adopt the amended guidance of Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, which clarifies or changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The adoption of this amended guidance may require expanded disclosure in the notes to the Plans' financial statements but does not impact the financial results.

3. Master Trust Investment Information

All investment information disclosed in the accompanying financial statements for the Plans and Master Trust, including investments held at December 31, 2011 and 2010, and net appreciation (depreciation) in fair value of investments, interest, dividends, and investment expenses for the years ended December 31, 2011 and 2010, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the custodian.

The Plans' investments are held in the Master Trust established for the investment of assets of the Plans. Each participating retirement plan has an undivided interest in the Master Trust. At December 31, 2011, the Retirement Plan and Hourly Plan's interest in the net assets of the master trust was approximately 72% and 28%, respectively. At December 31, 2010, the Retirement Plan, Hourly Plan, and AFGM Plan's interest in the net assets of the Master Trust was approximately 71%, 25%, and 4%, respectively. Investment income (loss) and expenses are allocated among the Plans based upon each plan's pro rata share in the net assets of the Master Trust.

4. Fair Value Measurements

The Plans' assets are valued as required by ASC 820. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels are described below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In evaluating the significance of fair value inputs, the Plans generally classify assets or liabilities as Level 3 when their fair value is determined using unobservable inputs that individually, or when aggregated with other unobservable inputs, represent more than 10% of the fair value of the assets or liabilities. Judgment is required in evaluating both quantitative and qualitative factors in the determination of significance for purposes of fair value level classification. Valuation techniques used are generally required to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques and inputs used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

4. Fair Value Measurements (continued)

Common stock:

The Plans' equity securities are valued based on quoted exchange prices and are classified within Level 1 of the valuation hierarchy.

Equity mutual funds:

Equity mutual funds are valued at the closing price reported on the active market on which they are traded and are classified within Level 1 of the valuation hierarchy.

Common collective trust funds:

Common collective trust funds (CCTs) are classified within Level 2 of the valuation hierarchy. CCT fund units are not listed on national exchanges or over-the-counter markets and were valued at net asset value. The fair values of the CCT fund units are based on the cumulative fair value of their underlying investments, which are primarily U.S. government and agency securities, municipal bonds, and corporate notes and bonds, as well as common and preferred equity shares. The fair value of these underlying investments is generally determined by quotes from a quotation reporting system, established market makers, or pricing services.

U.S. Treasury instruments:

U.S. Treasury instruments are valued at the closing price reported on the active market on which they are traded and classified within Level 1 of the valuation hierarchy.

U.S. government agency, state and local government bonds:

U.S. government agency obligations and state and municipal debt securities are valued using third-party pricing services and are classified within Level 2 of the valuation hierarchy.

Corporate debt instruments:

Corporate debt instruments are valued at the closing price reported on the market on which they are traded. These debt instruments are currently not traded actively and are classified within Level 2 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan administrator of the Plans believes the valuation methods are appropriate and consistent with other market participants' methods, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The Plans' overall investment strategy is to achieve broad diversification of asset types, fund strategies, and fund managers. The target allocations for the Plans' assets are 60% equity securities and 40% fixed income. Equity securities include investments in large-cap, mid-cap, and small-cap companies located in the U.S. and globally. Fixed income securities include corporate bonds of domestic and foreign companies from diversified industries, mortgage-backed securities, U.S. Treasury instruments, U.S. government agencies, and state and local issuers.

The following tables set forth, by level within the fair value hierarchy, the investments included in the Master Trust at fair value as of December 31, 2011 and 2010.

a) International equity: The fund's investment objective is to seek long-term growth of capital and income through investing primarily in foreign equity securities. Issuances and redemptions are restricted to the last day of the month. The fund units are valued at NAV based on the closing market value of the units bought or sold as of the valuation date and are classified in Level 2 of the fair value hierarchy.

b) Short-term investment fund: The fund is a commingled cash fund. Securities are valued at fair value. Securities traded on U.S. securities exchanges, including the NASDAQ Stock Market, Inc., are principally valued at the regular trading session closing price on the exchange or market in which such securities are principally traded. There were no redemption restrictions for this fund. The fund is classified in Level 2 of the fair value hierarchy.

Level 3 Gains and Losses

There are no assets in the Plans classified as Level 3 in the fair value hierarchy; therefore, there are no gains or losses to disclose.

5. Accumulated Plan Benefits

The Plans' consulting actuaries estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal, or retirement) between the valuation date and the expected payment date.

As of the latest actuarial valuation of the Plans on December 31, 2010, the present values of accumulated plan benefits were as follows:

	Retirement Plan	Hourly Plan	AFGM Plan
Actuarial present value of vested benefits:			
Participants and beneficiaries currently receiving payments	\$377,276,766	\$124,177,397	\$16,785,967

5. Accumulated Plan Benefits (continued)

ADM Retirement Plan

Effective January 1, 2009, salaried employees who were vested (five or more years of service before January 1, 2009) continued with the existing traditional pension formula. Salaried employees with less than five years of service before January 1, 2009, participate in a point-based cash balance pension formula with a three-year vesting schedule. These changes to the Retirement Plan did not affect the accumulated plan benefit obligation. The present value of accumulated plan benefits as of December 31, 2010, does not reflect the impact of the merger of the Golden Peanut Pension Plan into the Retirement Plan. The present value of accumulated plan benefits of the Golden Peanut Pension Plan as of December 31, 2010, was \$23,822,119.

The December 31, 2010 valuation discount rate increased from 5.35% at December 31, 2009 to 5.55%, and the mortality table used to calculate accumulated plan benefits changed from the 2010 Static Mortality Table for Annuitants and Non-Annuitants to the 2011 Static Mortality Table for Annuitants and Non-Annuitants for healthy lives. The effect of these changes in assumptions from the December 31, 2009 valuation to the December 31, 2010 valuation decreased the present value of accumulated plan benefits by \$21.7 million. The present value of accumulated plan benefits as of December 31, 2009, was \$926.9 million.

ADM Pension Plan for Hourly-Wage Employees

Effective January 1, 2009, most non-bargaining hourly employees, as well as those represented by a collective bargaining agreement, who were hired prior to January 1, 2009, that have a pension plan at their location continued with the existing traditional pension formula. Non-bargaining hourly employees who are hired or rehired on or after January 1, 2009, participate in a point-based cash balance pension formula. Employees represented by a collective bargaining agreement who were hired or rehired on or after January 1, 2009, participate in the pension formula applicable to their respective location.

The December 31, 2010 valuation discount rate increased from 5.35% at December 31, 2009 to 5.50%, and the mortality table used to calculate accumulated plan benefits changed from the 2010 Static Mortality Table for Annuitants and Non-Annuitants to the 2011 Static Mortality Table for Annuitants and Non-Annuitants for healthy lives. The effect of these changes in assumptions from the December 31, 2009 valuation to the December 31, 2010 valuation decreased the present value of accumulated plan benefits by \$6.4 million. The present value of accumulated plan benefits as of December 31, 2009, was \$326.4 million. The present value of accumulated plan benefits as of December 31, 2010, does not reflect the impact of the merger of the Golden Peanut Pension Plan and the AFGM Plan into the Hourly Plan. The present value of accumulated plan benefits of the Golden Peanut Pension Plan and the AFGM Plan as of December 31, 2010, was \$23,822,119 and \$49,802,225, respectively.

ADM-AFGM Retirement Plan

The December 31, 2010 valuation discount rate increased from 5.35% at December 31, 2009 to 5.50%, and the mortality table used to calculate accumulated plan benefits changed from the 2010 Static Mortality Table for Annuitants and Non-Annuitants to the 2011 Static Mortality Table for Annuitants and Non-Annuitants for healthy lives. The effect of these changes in assumptions from the December 31, 2009 valuation to the December 31, 2010 valuation decreased the present value of accumulated plan benefits by \$1.0 million. The effect of plan amendments from the December 31, 2009 valuation to the December 31, 2010 valuation increased the present value of accumulated plan benefits by \$0.4 million. The present value of accumulated plan benefits as of December 31, 2009, was \$47.9 million.

The following actuarial assumptions are based on the presumption that the Plans will continue. In the event of a plan termination, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Significant assumptions underlying the December 31, 2010, actuarial computations are:

7. Income Tax Status

The Plans received a determination letter from the Internal Revenue Service (IRS) dated May 24, 2012, stating the Plans are qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plans were amended. Once qualified, the Plans are required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plans are being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plans, as amended, are qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plans and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plans have recognized no interest or penalties related to uncertain tax positions. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Risks and Uncertainties

The Plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 22—Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age.

(a) Age	(b) Rate	(c) Weight	(d) Product (a) × (b) × (c)
55.5	4.00%	1.0000	2.22

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption changes:

- A change in the assumed disability rates to better reflect anticipated plan experience.
- A change in the assumed withdrawal rates to better reflect anticipated plan experience.
- A change in the assumed retirement rates to better reflect anticipated plan experience.
- A change in the optional payment form election assumption for married participants from 100% joint and 50% survivor annuity to 30% life annuity, 30% joint and 50% survivor annuity, and 40% joint and 100% survivor annuity.
- A change in the assumed spousal age difference from three years to two years.

These changes were made to better reflect the anticipated plan experience. The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.

Schedule SB, Part V—Summary of Plan Provisions

History of Plan

A separate pension plan for ADM hourly employees was first established effective September 1, 1952. Effective September 1, 1957, a separate plan for employees represented by the American Federation of Grain Millers was established and a portion of the Hourly Trust Fund assets was allocated as the initial account for the Grain Miller Trust Fund.

The Grain Miller plan initially provided for monthly benefits upon retirement of \$2.50 for each year of service. Effective September 1, 1963, the benefit rate was increased to \$3.00 times years of service.

Effective September 1, 1969, substantial changes were made to the plan. These changes included the following: the benefit rate increased to \$6.00 for each year of service; the minimum disability benefit increased to \$100.00 and the maximum disability benefit of \$100.00 was deleted; eligibility provisions for vesting were liberalized; the plan year changed to a calendar year; and reduction factors for early commencement of benefits were liberalized.

Effective September 1, 1972, the benefit rate was increased to \$9.00 for each year of service.

Effective September 1, 1975, the plan was amended to comply with the Employee Retirement Income Security Act of 1974 (ERISA). These changes included providing for 100% vesting after ten or more years of service, and the introduction of a preretirement surviving spouse's benefit. In addition, the benefit rate was increased to \$11.00, the minimum disability benefit was increased to \$150.00, and the early retirement reduction factor was changed to 4% per year prior to age 62.

Effective September 1, 1978, the benefit rate was increased to \$14.00 for each year of service, and the preretirement death protection was extended to age 50 with at least 15 years of service.

Effective September 1, 1981, the benefit rate was increased to \$17.00 for each year of service, and the minimum disability benefit was increased to \$200.00.

Effective September 1, 1984, the benefit rate was increased to \$20.00 for each year of service, and the minimum disability benefit was increased to \$250.00.

Effective August 1984, preretirement death benefit coverage was extended to active vested employees on an employer paid basis and to terminated vested employees on an employee paid basis.

Effective September 1, 1987, the benefit rate was increased to \$22.00 for each year of service, and the minimum disability benefit was increased to \$275.00.

Effective January 1, 1989, in accordance with the Tax Reform Act of 1986, a 5-year cliff vesting schedule was adopted. In addition, the Superior location closed effective April 28, 1989.

Effective December 31, 2011, the ADM-AFGM Retirement Plan was merged into the ADM Pension Plan for Hourly-Wage Employees.

Summary of Plan Provisions

Effective Date	September 1, 1957. Amended and restated effective January 1, 1989 (most recent amendment January 1, 2009).
Eligibility for Participation	Employees of the Company who are represented by the American Federation of Grain Millers (AFL-CIO).
Eligibility for Benefits	
Normal	Age 65.
Early	Age 55 and 10 years of continuous service.
Disability	Any age after completion of 10 years of continuous service.
Deferred Vested	Any age after completion of 5 years of continuous service.
Preretirement Surviving Spouse	Upon death of employee who was married for at least one year and was eligible for a deferred vested benefit.
Amount of Benefits	
Normal	A monthly amount for life of benefit rate times the years of credited service.
Early	The normal benefit reduced by 1/3 of 1% for each month by which early retirement precedes age 62.
Disability	The normal benefit accrued to date of disability with a minimum per month which varies by location. Benefit payments commence when eligible for Social Security and continue as long as the employee is totally and permanently disabled.
Deferred Vested	The normal benefit accrued to date of termination, payable at age 65. If 10 years of service have been completed, the benefit is reduced 1/3 of 1% per month if payments commence after age 55 but before age 65.
Preretirement Surviving Spouse Annuity	
Death while active and before eligible for early retirement	One-half of the benefit the deceased participant would have received if he had retired the day before his death and elected the qualified joint and survivor option payable immediately to surviving spouse for life. The reduction for early commencement cannot exceed 48%.

Death while active and after
eligible for early retirement

The benefit amount is determined as if the employee had retired immediately preceding his death and had elected the normal form of payment. The benefit is payable for the surviving spouse's lifetime.

Death while inactive and
before benefit commencement

50% of the amount the deceased participant would have been entitled to receive if the employee had retired if over 55 or survived to age 55 and then retired the day before death and chose the qualified joint and survivor annuity. The benefit is payable to the spouse for life and may commence no earlier than the participant's attainment of age 55.

Forms of Payment

Normal Form

Without Spouse

Life annuity.

With Spouse

Already reduced accrued benefit payable for employee's life, with 50% of such reduced amount payable during spouse's remaining lifetime following employee's death.

Optional Form

If employee cancels normal form with spouse, the accrued benefit is not reduced and no benefit is payable to the spouse following the employee's death. 100% joint and survivor annuity, 75% joint and survivor annuity, and Social Security level income option are also available.
