Flint Energy Services, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2011 and 2010

Note 1: Description of the Plan

The following description of the Flint Energy Services, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by Flint Energy Services, Inc. (the Company) for the benefit of its employees who have at least three months of service and are age 18 or older. Additionally, the Plan excludes collective bargaining, nonresident alien, leased and reclassified employees. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Bank of Oklahoma, N.A., is the trustee and custodian of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions from 1% up to 75% of eligible compensation. Employee rollover contributions are also permitted. The Company makes safe harbor matching contributions of 100% of employees' salary deferral amounts on the first 3% of employees' compensation plus 50% of each employee's deferral amounts in excess of 3% and up to 5% of the employee's compensation. All safe harbor matching contributions are automatically 100% vested. The Company may also make discretionary profit-sharing contributions, as determined by the Company's Board of Directors. No profit-sharing contributions were made in 2011 or 2010. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Flint Energy Services, Inc. 401(k) Plan
Notes to Financial Statements
December 31, 2011 and 2010

Vesting

Participants are immediately vested in their voluntary contributions and company safe harbor matching contributions plus earnings thereon. Vesting in the Company's pre-safe harbor (prior to January 1, 2009) and discretionary contributions of their account plus earnings thereon is based on years of continuous service. A participant is fully vested after six years of continuous service. The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon attaining the age of 59 ½ or upon termination of service, participants may receive a lump-sum amount equal to the value of their account. Upon employee termination, mandatory distributions are required for balances of less than $5,000. Mandatory distributions above $1,000 made without the participant's consent are paid in a direct rollover to an individual retirement plan designated by the trustee. For inactive participants who have reached age 70½, certain immediate distributions are required.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited nonvested accounts totaled $5,022 and $5,830, respectively. These accounts may be used to reduce company contributions or pay administrative expenses. Also in 2011 and 2010, company contributions were reduced by $40,560 and $77,131, respectively, from forfeited nonvested accounts.

Notes Receivable from Participants

Participant loans are classified as notes receivable from participants on the accompanying statements of net assets available for benefits. The plan document includes provisions authorizing loans from the Plan to active eligible participants. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is the lesser of 50% of the participant's vested account balance or $50,000 reduced by the highest outstanding loan balance in the prior 12-month period. All loans are secured by the balance in the participant's account and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings. Interest on the loans is based on local prevailing rates as determined by the plan administrator.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective investment fund. The accompanying statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The accompanying statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds and the money market fund are valued at the net asset value of shares held by the Plan at year-end.

The Plan's investment in units of participation of the collective investment fund is stated at the daily calculated unit value as reported by the funds in which they invest. Investments held by the fund traded in a national investments exchange are valued at the last reported sales price on the last business day of the fund's fiscal year. Investments held by the fund traded in the over-the-counter market and listed investments for which no sales were reported on that date are valued at the last reported bid price.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at amortized principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Flint Energy Services, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2011 and 2010

Plan Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Bank of Oklahoma, N.A. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. With a few exceptions, the Plan is no longer subject to U.S. federal income tax examinations by tax authorities for years before 2008.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan at the Company's discretion.

Reclassifications

Certain reclassifications have been made to the 2010 financial statements to conform to the 2011 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Company paid approximately $54,000 and $45,000 of record keeping fees to the Bank of Oklahoma, N.A., during 2011 and 2010, respectively, on behalf of the Plan. The Company does not expect reimbursement from the Plan for payment of these expenses. The Company provides certain administrative services at no cost to the Plan.

Note 5: Fair Value of Plan Assets and Liabilities

Accounting Standards Codification Topic 820, *Fair Value Measurements* (Topic 820), defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Topic 820 describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. Level 1 investments include mutual funds and a money market fund.

If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of investments with similar characteristics or discounted cash flows and are classified within Level 2 of the valuation hierarchy. Level 2 investments include a collective investment fund and a collective trust. The investment in units of participation of the collective investment fund is stated at the daily calculated unit value as reported by the funds in which they invest. Investments held by the fund traded in a national investments exchange are valued at the last reported sales price on the last business day of the fund's fiscal year. Investments held by the fund traded in the over-the-counter market and listed investments for which no sales were reported on that date are valued at the last reported bid price.

In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. The Plan holds no Level 3 investments.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2011 and 2010:

Note 6: Significant Estimates and Concentrations

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair values of investments. The accompanying financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the accompanying financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 8: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Accountants' Report, which is the date the financial statements were available to be issued.

Plan Restatement

The plan document was restated, effective January 1, 2012, when the Sub One Technology, Inc. 401(k) Profit Sharing Plan was merged into the surviving Flint Energy Services, Inc. 401(k) Plan.

Acquisition of Plan Sponsor

Subsequent to the end of the year, the plan sponsor was acquired by URS Corp.
