Note 1. Plan Description

The following description of the SGI, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan was adopted on January 1, 1997 as a defined-contribution plan covering substantially all employees of SGI, Inc. and its subsidiaries: A-Mark Precious Metals, Inc., Bowers and Merena Auctions, LLC, HR Harmer Nutmeg Auctions, Inc., Greg Martin Auctions, Inc., Spectrum Auction Services, Spectrum Numismatics International, Inc., Collateral Finance Corporation, Teletrade, Inc. and Spectrum Wine Auctions, LLC (collectively, the Company), and has been amended and restated effective March 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was most recently amended effective January 1, 2011 to exclude bonuses from the definition of compensation.

Eligibility: Substantially all employees of the Company who reach the age of 21 and complete three months of service become eligible to participate in the Plan. However, employees covered by a collective bargaining agreement with the employer in the negotiation of which retirement benefits were the subject of good faith bargaining (unless the bargaining agreement provides for participation in the Plan) are excluded from participating in the Plan.

Contributions: Participants may contribute up to 90 percent of eligible compensation for the year up to the statutory limit. In addition, if the individual's age is 50 or over during the calendar year, then the employee may be permitted to make an additional catch-up contribution of 100 percent of the participant's compensation up to the statutory limit. Eligible participants are automatically enrolled in the Plan and begin contributing at 3 percent of eligible compensation as defined in the Plan. Each pay period, the Company contributes a mandatory matching contribution of 30 percent on the first 60 percent of a participant's compensation, which is contributed as an elective deferral. For the year ended December 31, 2011, the Company made matching contributions totaling $256,451, less $1,366 of forfeitures applied, to the Plan. The Company may also contribute an additional nonelective (profit sharing) amount annually, subject to certain statutory limits, which the Company determines at its discretion. No such nonelective contributions were made to the Plan for the year ended December 31, 2011.

Participant investment options: Participants must direct their contributions from salary deferrals and their allocated share of employer contributions into investment options as made available and determined by the Plan Sponsor, which are more fully described in the Plan's literature.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Effective March 1, 2010, participants are immediately vested in their voluntary contributions, Company matching contributions and nonelective contributions. Previously, Company matching contributions and nonelective contributions became fully vested after completion of one year of service.

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts in amounts ranging from $500 to $50,000, but not in excess of 50 percent of the vested account balance. Notes are repaid at a reasonable rate of interest through payroll deductions within five years or, in the event the note is used to acquire a principal residence, at a term not to exceed 30 years from the date of the note. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Upon termination of service, a participant may elect to receive benefits in a lump-sum distribution, on an installment basis, or defer receipt to a date no later than that prescribed by government regulation. Terminated participants with vested account balances of $5,000 or less can be paid in a lump-sum cash amount.

Forfeitures: Forfeitures will be used to pay for Plan expenses or to reduce the Company's future matching contributions under the Plan. For the year ended December 31, 2011, the Company applied $1,366 of forfeitures to matching employer contributions. As of December 31, 2011 and 2010, there were $634 and $10, respectively, of unallocated forfeitures.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Fair value measurements: The Plan's assets are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative guidance describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's valuation methodology used to measure the fair value of registered investment companies (mutual funds) are based on quoted market prices. Investments in common collective trust funds and money market fund are stated at estimated fair value, as determined by the Plan Sponsor. The common collective trust funds and money market fund are valued based primarily on the net asset value (NAV) of underlying securities that have observable inputs, including quoted prices for similar assets in active or inactive markets. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Note 2. Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income recognition: Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued daily. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits: Benefits are recorded when paid.

Use of estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of net assets available for Plan benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 12, 2012, the date the financial statements were available to be issued.

New accounting pronouncement: In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2011-04, *Fair Value Measurements and Disclosures (Topic 820): Amendment to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 changes the wording of financial statement disclosures required under Topic 820 to provide for consistency between accounting principles generally accepted in the United States of America (U.S. GAAP) and International Financial Reporting Standards (IFRS). The amendment does not intend to result in a change in the application of the requirements in Topic 820. This amendment is effective for nonpublic entities for fiscal periods beginning after December 15, 2011, with early adoption permitted no earlier than for interim periods beginning after December 15, 2011. The Company does not expect the adoption of this standard to have a material impact on the Plan's financial statements.

Note 3. Assets and Information Certified or Provided by State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by State Street Bank and Trust Company (State Street) and furnished to the Plan Administrator. The Plan Administrator has obtained certification from State Street that information provided to the Plan Administrator by State Street related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules.

Note 4. Tax Status

Effective March 1, 2010, the Plan adopted a nonstandardized form of a prototype plan sponsored by Automatic Data Processing. The prototype plan has received an opinion letter from the Internal Revenue Service, dated March 31, 2008, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has since been amended; however, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 5. Related-Party Activity

The Plan invests in common collective trust funds managed by State Street Global Advisors (SSGA), a division of State Street Bank and Trust Company, the asset trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Certain administrative functions are performed by employees of the Company. No such officer or employee receives compensation from the Plan. The majority of administrative expenses are paid by the Plan Sponsor.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA and discontinue its contributions at any time. In the event of Plan termination, participants would become 100 percent vested in their accounts.
